1. PLAN DESCRIPTION

The following description of the dpiX, LLC 401(k) Plan (“Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which became effective September 1, 1999, is a defined contribution plan covering all eligible employees of dpiX, LLC ("Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Eligible employees include all employees except for union and leased employees and nonresident aliens. There is no service or age requirement for eligibility. Employees are eligible to participate on the first day of the month following the date of hire.

Automatic deferral provisions

During 2013, the Plan implemented automatic deferral provisions feature under which a participant is treated as electing to defer 3% of eligible compensation unless the participant made an affirmative election otherwise.

Contributions

Deferral contributions cannot exceed certain limits as set forth by the Internal Revenue Code ("IRC") ($17,500 in 2013 and $17,000 in 2012; $23,000 for employees age 50 or older in 2013 and $22,500 for employees age 50 or older in 2012). The Internal Revenue Service ("IRS") adjusts this limitation each year for cost-of-living increases. Participants may change their contribution percentages throughout the year and may cease making contributions at any time. Rollover contributions are accepted, as permitted by the Plan.

The Company may also contribute amounts as a match of elective contributions for the plan year. For the years ended December 31, 2013 and 2012, the Company made matching contributions to each participant's account equal to 50% of the participant's contributions up to a maximum of 7% of the participant's eligible compensation. The employer match for the years ended December 31, 2013 and 2012 totaled $269,947 and $287,987 respectively. The forfeitures applied to employer contributions for the years ended December 31, 2013 and 2012 totaled $3,857 and $10,231, respectively.

1. PLAN DESCRIPTION (CONTINUED)

Participant accounts

Each participant's account is increased with the participant's contributions and allocations of the Company's contribution and Plan earnings and is decreased by the participant's distributions and an allocation of Plan losses and expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contributions is based upon years of continuous service. A participant is 100% vested after one year of continuous service.

Notes receivable from participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest. The term of the loan is a maximum of five years, unless the loan is for the purchase of a primary residence. Participants may not have more than one loan outstanding at any time. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a specific period based upon age at retirement. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution as soon as administratively practicable following the date the participant terminates employment.

Forfeitures

Forfeitures may be used to reduce future employer contributions or offset administrative costs. Forfeiture balances as of December 31, 2013 and 2012 totaled $0 and $675, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared using the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Income recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Plan administrative fees

Unless paid by the Company, all administrative expenses are to be paid by the Plan. The Company paid the majority of the administrative expenses during the years ended December 31, 2013 and 2012.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Excess contributions

During the year ended December 31, 2013, corrective distributions were made in the amount of $47,928. This amount was comprised of $2,016 of employer contributions, $38,577 of employee contributions and $7,335 of earnings on such contributions. During the year ended December 31, 2012, corrective distributions were made in the amount of $20,835. This amount was comprised of $18,765 of employee contributions and $2,070 of earnings on such contributions.

Financial instruments

The Plan's financial instruments include investments, notes receivable from participants, excess contributions payable and other liabilities. Investments are recorded at fair value. The recorded values of notes receivable from participants approximate fair value as interest rates approximate market rates. All other financial instruments approximate fair values based on their short-term nature.

Tax status

The Internal Revenue Service has determined and informed the Plan sponsor by a letter dated September 20, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator and tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

US GAAP requires plan management to evaluate income tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the income tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent events

Management evaluated subsequent events through the date of the attached independent auditor's report, the date these financial statements were issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Great-West Trust Company, LLC, as of and for the years ended December 31:

	2013	2012

Registered investment companies	$ 17,126,321	$ 14,752,594
Investment income (loss)	$ 2,903,798	$ 1,699,293

The differences between these amounts and the amounts shown on the statements of changes in net assets available for benefits are primarily related to transactions pending at year end.

5. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce amounts that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three levels:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

5. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The valuation methodologies used for assets measured at fair value are as follows:

Registered investment companies ("RIC") - valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Fair value measurements of assets recognized in the accompanying financial statements, measured at fair value on a recurring basis, consist of the following as of December 31:

	2013			
	Level 1	Level 2	Level 3	Total
RIC	$ 17,126,321	$ -	$ -	$ 17,126,321

	2012			
	Level 1	Level 2	Level 3	Total
RIC	$ 14,752,594	$ -	$ -	$ 14,752,594

6. PARTIES IN INTEREST

The Company and several participants, as a result of being officers or directors of the Company, are deemed to be parties in interest. The third party administrator, Verisight, Inc.; trustee, Great-West Trust Company, LLC; and brokerage service provider, TD Ameritrade Inc. are also parties in interest.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company's contributions.

8. RISKS AND UNCERTAINTIES

Investments, in general, are exposed to risks, including interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

The notes receivable from participants are secured by the participants' account balances, and the plan administrator considers risk to be minimal since the loans are fully collateralized.
