1. PLAN DESCRIPTION

The following description of the Heart of America 401(k) Plan (the "Plan") provides only general information. The Plan document should be referred to for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering certain employees of Heart of America Restaurants & Inns (the "Company"), who are at least age 21 and have completed one year of service (defined as completing at least 1,000 hours of service) with the Company. The Plan provides retirement benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Company serves as the Plan sponsor and administrator and is responsible for the control, management, operation and administration of the Plan. The President & CEO and Vice President & CFO of the Company serve as the trustees of the Plan (collectively, the "Trustee").

The Company has entered into a Group Annuity Contract (the "Agreement") with The Principal Financial Group ("Principal") whereby Principal, as Investment Manager and Custodian, has a fiduciary responsibility to manage the activities of the Plan (including collection of contributions, payment of benefits, investment activities and performance, and record keeping). Under such Agreement, the Plan net assets are maintained in an Investment Fund. The Investment Fund is allocated to individual participant accounts at all times, but funds are grouped for investment purposes to maximize returns. Principal invests the net assets of each participant among multiple investment options in accordance with the investment elections of participants.

Contributions - Employee elective deferral contributions (pre-tax) range from 0% to 50% of the participant's compensation, as defined by the Plan and subject to Internal Revenue Service limitations. Company matching contributions are equal to 25% of employee contributions up to 6% of compensation.

Vesting - Employee contributions (and any earnings thereon) are 100% vested and non-forfeitable at all times. Vesting in Company matching contributions (and any earnings thereon) is based on years of credited service as follows:

1 year of service	20% vested
2 years of service	40% vested
3 years of service	60% vested
4 years of service	80% vested
5 years of service	100% vested

Rollovers - Any participant can make rollover contributions to the Plan or transfer funds from other qualified plans, subject to the Plan provisions. Rollover contributions are 100% vested and non-forfeitable at all times.

Investment Options - Participants electively direct employee contributions to the following investment options:

Company matching contributions are allocated in the same manner as employee contributions. Participants may change investment options or transfer investment balances in accordance with Plan provisions.

Participant Accounts - A separate account is maintained for each Plan participant. Each participant's account is credited or charged with, as applicable, employee contributions, Company matching contributions, withdrawals, an allocation of investment earnings (losses) based on the participant's investment fund elections and relative account balances, and administrative expenses.

Benefits - Plan benefits accumulate and vest over the participant's service period. Plan benefits are available to participants in accordance with the hardship withdrawal provisions of the Plan. Plan benefits are due to participants at termination from the Plan due to employment termination, retirement or death. Normal retirement age for participants is age 65. The benefit to which a participant is entitled is the benefit provided from the participant's vested account. Plan benefits payable to participants may be received in accordance with several benefit distribution options including lump-sum or annuity.

Forfeitures - Nonvested balances of terminated participant's accounts are forfeited and are used to reduce future Plan expenses.

Plan Termination - Although no such intention has been expressed, the Company has the right under the Plan provisions to discontinue its contributions and/or to terminate the Plan, subject to the provisions of ERISA. In the event of contribution discontinuance or plan termination, participants would become 100% vested in their respective accounts. Upon plan termination, the Plan net assets would be liquidated and distributed in accordance with ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Plan's records are maintained on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Plan Year - The Plan year is the calendar year.

Federal Income Tax Status - The Plan received a determination letter dated October 30, 2002, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The plan has been amended since receiving the determination letter. The company and the Plan's tax counsel believe that the plan as currently designed and as being operated, is in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified and tax-exempt as of the financial statement date, and accordingly, no provision for income taxes has been included in the Plan's financial statements.

Investment Valuation and Income Recognition - The Plan's investments in common collective trusts, registered investment company funds and pooled separate accounts are stated at estimated fair value as determined by Principal. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Earnings, losses, net realized gains and losses, adjustment from fair value to contract value, and unrealized appreciation and depreciation of investments are recognized in the Statement of Changes in Net Assets Available for Benefits as net investment earnings (losses).

Plan Expenses - Plan administrative expenses are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan utilizes several investment instruments. Investment securities, in general, are exposed to various risks, including but not limited to, interest rates, credit, inflation, economic conditions, and market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Subsequent Events - The plan has evaluated subsequent events through July 25, 2014, the date the financial statements were available to be issued.

5. FORFEITURES

As of December 31, 2013 and 2012, forfeited nonvested accounts totaling $4,236 and $9,192, respectively, are included in the Plan's net assets available for benefits, and will be utilized to pay future Plan expenses. For the year ended December 31, 2013, $965.20 was used to reduce Plan expenses paid by the Company, and $13,135 was used to offset employer contributions.

6. TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan holds investments in pooled separate accounts totaling $5,355,291 and $5,222,173 at December 31, 2013 and 2012 respectively. These pooled separate accounts are managed by affiliates of the Investment Manager of the Plan. During the year ended December 31, 2013, the Plan recorded net investment earnings (losses) of $1,016,909 from these pooled separate accounts.

7. FAIR VALUE MEASUREMENTS

FASB (ASC No. 820), Fair Value Measurements and Disclosures, establishes a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurements. In accordance with ASC No. 820, the Plan classifies all of its investments into one of the following measurement categories:

Level 1 - refers to securities valued using quoted prices from active markets for identical assets
Level 2 - refers to securities not traded on an active market but for which observable market inputs are readily available
Level 3 - refers to securities valued based on significant unobservable inputs

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Separate Accounts and Collective Investment Trust: Valued at the net asset value ("NAV") of the account based on the market value of the underlying investments at the end of the year.

Mutual funds: Valued at the quoted market price of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As required by ASC No. 820, at December 31, 2013 and 2012, the Plan's portfolio investments were classified as follows, based on fair values:

8. COMMON COLLECTIVE TRUST

Investment Contracts

The Common Collective Trust (Stable Value Fund - the "Fund") that the Plan is invested in is comprised of investment contracts. Investment contracts can be structured as nonparticipating, participating or a combination thereof. Conventional Guaranteed Investment Contracts ("GICs") issued by insurance companies are primarily nonparticipating, wherein the contract holder does not participate in any gains and losses incurred due to performance of the underlying portfolio relative to the book value at times of withdrawals. Conversely, synthetic investment contracts, or wrap contracts, issued by insurance companies or banks, are primarily participating, wherein the contract holder participates in gains and losses incurred due to the performance of the underlying portfolio relative to book value at times of withdrawal. Gains and losses are amortized through future crediting rate re-sets. Participating structures are the most common structure utilized in the Fund.

GIC contracts are typically issued with a fixed crediting rate and a fixed maturity date that does not change over the life of the contract. Wrap contracts typically re-set on a monthly or quarterly basis as negotiated with the wrap issuer and do not have a final stated maturity date. The wrap contracts in this Fund are predominately re-set on a monthly basis with a one month look back for the portfolio statistics. The wrap contract issuer guarantees a minimum 0% crediting rate although a wrap does not absorb any loss for credit defaults in an underlying portfolio. From time to time the crediting rate may be significantly greater or less than current market interest rates.

A number of factors can influence future crediting rates, which may include, but are not limited to: portfolio cash flows, underlying portfolio performance, current market interest rates for reinvestment, duration posture, change in credit ratings, default or bankruptcy by an asset or wrap issuer, the unexpected receipt of principal and interest payments, extraordinary withdrawals and certain wrap contract terms.

The gross crediting rate formula is also subject to re-negotiation by the contract issuer and/or the contract holder. Events which may warrant the use of a different crediting rate formula or variables utilized in the formula illustrated above include, but are not limited to: depressed market value to book ratios, credit events or pricing pressures within the wrapped portfolio that impacts market valuation.

Events Limiting Contract Value Treatment

Market value events may limit the ability of the Fund to transact at contract value with the issuer. Market value events are events or conditions that occur which are outside of the normal operation of the Fund and lead to any Fund disbursements which have or will have a material adverse effect on the operations of the Fund and a financial effect on the investment contract or wrap issuer's interest hereunder.

Such events may include, but are not limited to: Fund administration is amended or changed, merger or consolidation of investors, group terminations or layoffs, implementation of an early retirement program, termination or partial termination of the Fund, failure to meet certain tax qualifications, participant communication that is designed to influence participants not to invest in the Fund, transfers to competing options without meeting the equity wash provisions of the Fund, and plan sponsor withdrawals without the appropriate notice to the Fund and/or issuer.

In the normal course of business, such events or conditions would not limit the ability of the Fund to transact at contract value with the participants in the Fund. The Fund is managed to maintain a certain amount of liquidity to provide for the day-to-day liquidity needs of participants as well as the occasional market value event.

Termination Events by the Issuer

An issuer can terminate an investment contract upon the event of default by the contract holder, Adviser or Trustee if the issuer determines in its reasonable discretion, such event has had, or is likely to have a material adverse effect on the issuer's interest with respect to the contract.

Such events may include, but are not limited to: management of the portfolio is not in accordance with investment guidelines, a breach of any material obligation under the wrap agreement, any representation or warranty made by the contract holder becomes untrue in any material way, a replacement of the Adviser without prior consent of the issuer, the Fund is terminated or ceases to qualify as a group trust or plans cease to meet the appropriate tax qualifications, or the wrap becomes a prohibited transaction within the meaning of Section 406 of ERISA.
