HUCK FINN CLOTHES, INC. 401(K) PLAN

Notes To Financial Statements

Note 1: Description Of Plan

The following description of Huck Finn Clothes, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan was adopted January 1, 2003, and is a defined contribution 401(k) plan established to provide retirement benefits for employees of Huck Finn Clothes, Inc. and PHC Distribution Co., Inc (the Companies). The Plan provides for the participation of all employees over the age of 21 who have completed one year of eligibility service. A year of eligibility service is accomplished after completing 1,000 hours of service during any calendar year. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants can contribute up to 90% of eligible compensation subject to the maximum amount allowed by Internal Revenue Code limitations. Eligible employees who have attained age 50 before the close of the Plan year shall be eligible to make catch-up contributions in accordance with Internal Revenue Code provisions. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make matching contributions to the Plan at the discretion of the Board of Directors.

Participants' accounts - Each participant's account is credited or charged, as applicable, with the participant's contribution, earnings (losses), transfers, payments, withdrawals, or other distributions made to or from such accounts during the period. Allocations are based on participant earnings or account balances in accordance with terms of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. In accordance with the provisions of the Plan, each participant has the right to direct the investment of the contributions and any rollover/transfers, if applicable, into the Plan.

Vesting - Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. A participant's vested interest in the Companies' discretionary contributions is based on the number of years of continuing service. A participant is 100% vested after six years of credited service.

Forfeited accounts - No employer contributions have been made to the Plan; therefore, there are no forfeited nonvested accounts.

Payment of benefits - On termination of service or separation of service, due to death, disability, or retirement, a participant or their beneficiary will be entitled to receive a distribution of their total vested account balance. Benefits will be paid in accordance with terms of the Plan.

Note 1: Description Of Plan (Continued)

Plan termination - Although they have not expressed any intention to do so, the Companies have the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, each participant's account will become fully vested and be distributed in accordance with the Plan Agreement.

Participant loans - Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and are made in accordance with the terms of the Plan.

Note 2: Summary Of Significant Accounting Policies

Investment valuation and income recognition - The Plan's investments are held by an independent trust company. Dividend income is recorded when earned on the ex-dividend date. Interest income is recorded when earned on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis with the gain or loss on sales of securities based on the actual cost of securities.

Accounting principles generally accepted in the United States of America establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available. The three levels of the fair value hierarchy in accordance with accounting principles generally accepted in the United States of America are described below:

(a) Level 1: Unadjusted quoted prices in active markets for identical, unrestricted assets, or liabilities that the Plan has the ability to access at the measurement date;

(b) Level 2: Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets, or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

(c) Level 3: Significant unobservable prices or inputs (including the Plan's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

Note 2: Summary Of Significant Accounting Policies (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes receivable from participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Income taxes - The Plan is exempt from federal income tax under the Internal Revenue Code. Tax positions are evaluated and recognized in the financial statements when it is more-likely-than-not the position will be sustained upon examination by the tax authorities.

The Plan has adopted a prototype plan through Automated Data Processing, Inc. which has an opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The application of these accounting principles involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. The Plan periodically evaluates estimates and assumptions used in the preparation of the financial statements and makes changes on a prospective basis when adjustments are necessary.

Presentation - Certain reclassifications, when applicable, are made to the prior year financial statement presentation to correspond to the current year's format. Reclassifications, when made, have no effect on net assets available for benefits and changes in net assets available for benefits.

Note 3: Investments

The statements of net assets available for benefits, the investment activities included in the statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012, and the accompanying notes in the financial statements (other than the assignment of levels) were prepared in part or entirely from information certified by State Street Bank and Trust, the Custodian, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $324,715 and $258,464 at December 31, 2013 and 2012, respectively, and related investment income of $59,618 and $28,674 for the years ended December 31, 2013 and 2012, respectively.

Note 3: Investments (Continued)

During the years ended December 31, 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the years) appreciated in value as follows:

	2013	2012
Investments at fair value as determined by quoted market price:		
Mutual funds	$ 29,308	$ 13,056
Investments at fair value as otherwise determined:		
Common collective trusts	16,827	8,794
Net Appreciation	$ 46,135	$ 21,850

Note 4: Fair Value Measurements

The following is a description of the valuation methodologies used for assets at fair value at December 31, 2013 and 2012:

Mutual funds: Valued at quoted market prices.

Common collective trusts: The Plan invests in several common collective trusts. These trusts are valued at the quoted net asset value (NAV) of units held by the Plan at the reporting date. Units held in the common collective trusts may be redeemed at any time.

Money market: Valued at a constant dollar per share.

The objective of the SSgA Aggressive Strategic Balanced Fund is to seek an investment return that approximates as closely as practicable, before expenses, the performance of its custom benchmark index over the long term.

Note 4: Fair Value Measurements (Continued)

The objective of the SSgA Moderate Strategic Balanced Fund is to seek an investment return that approximates as closely as practicable, before expenses, the performance of its custom benchmark index over the long term.

The objective of the SSgA Conservative Strategic Balanced Fund is to seek an investment return that approximates as closely as practicable, before expenses, the performance of its custom benchmark index over the long term.

The objective of the SSgA Russell Small Cap Index Fund is to seek an investment return that approximates as closely as practicable, before expenses, the performance of the Russell Small Cap Completeness Index over the long term.

The objective of the SSgA S&P 500 Index Fund is to seek an investment return that approximates as closely as practicable, before expenses, the performance of the S&P 500 Index over the long term.

The Plan also holds an investment in the SSgA S&P Mid Cap Index Fund, the objective of which is to seek an investment return that approximates as closely as practicable, before expenses, the performance of the S&P Mid Cap 400 Index over the long term.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

All assets have been valued using a market approach. There were no changes in the valuation techniques during the current year.

Note 6: Related Party Transaction

Certain fees for administrative services may be paid by the Companies.

Note 7: Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8: Commitments And Contingencies

The Plan follows the guidance for uncertainty in income taxes. As of December 31, 2013, the Plan believes that it has appropriate support for the income tax positions taken and to be taken on its returns based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. The Plan has concluded that there are no significant uncertain tax positions requiring disclosure, and there are no material amounts of unrecognized tax benefits. The Plan is no longer subject to federal, state, or local income tax examination by tax authorities for years before 2010.

Note 9: Subsequent Events

Subsequent events have been evaluated through July 23, 2014, which is the date the financial statements were available to be issued.
