Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Akron Children's Hospital Retirement Security Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described below in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by AIG Federal Savings Bank, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Trustee as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the Plan administrator by the Trustee is complete and accurate.

1. Description of the Plan

The Akron Children's Hospital Retirement Security Plan (the "Plan") is a defined contribution plan that covers substantially all Children's Hospital Medical Center of Akron ("Children's" and "Plan Administrator") employees hired after December 31, 2006. The Plan was established January 1, 2007. Participants become fully vested in the Plan after three years of credited service. Children's has agreed to make discretionary contributions for any participant at least 21 years old, employed on the last day of the year, working a minimum of 1,000 hours and not part of a defined excluded classification of employees. The Plan is 100% funded by Children's. Children's will contribute a percentage of pay based on a combination of age and years of eligible service for every year that the eligible employee remains employed through December 31. The contributions are placed in participant-directed investment accounts. Children's has the right under the Plan to discontinue such contributions at any time and to terminate the Plan.

The Plan is subject to the provisions of the Employees Retirement Income Security Act of 1974 ("ERISA").

Should the Plan terminate at some future time, all amounts credited to the participant's accounts shall become 100% vested and shall not be subject to forfeiture. Distribution of the assets will be directed by the Administrator based on provisions in the plan documents.

Information about the Plan agreement, the vesting and benefit provisions is contained in the *Summary Plan Description ("SPD")*. Copies of the *SPD* are available from the Human Resources Department at Children's.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Fees

Investment management expenses, trustee fees, and other administrative expenses are paid by the Plan. Certain other costs are paid by Children's.

2. Significant Accounting Policies (continued)

Investment Valuation and Investment Income

Investments in mutual funds and money market funds have readily determinable fair values and are measured at fair value in the December 31, 2013 and 2012 Statements of Net Assets Available for Benefits. Fair values of investments in mutual funds and money market funds are based on quoted market prices.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts held in the guaranteed investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Contract value, as reported to the Plan by the Custodians, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses.

Investment income or loss and net realized and unrealized gains and losses are reflected in the Statements of Changes in Net Assets Available for Benefits.

Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported based on historical cost.

Fair Value of Financial Assets and Liabilities

Fair value estimates are made at a specific point in time based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The framework for measuring fair value is comprised of a three-level hierarchy based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

- Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

- Level 2 – inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

2. Significant Accounting Policies (continued)

- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Children's believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
The Plan has evaluated subsequent events through July 21, 2014, the date the financial statements were available to be issued.

3. Investments

The Plan's investments are held by AIG Federal Savings Bank ("AIG"). The Plan's investments (including investments bought, sold, as well as held during the year) appreciated in fair value as determined by quoted market prices as follows for the years ended December 31:

	2013	2012
Net appreciation (depreciation) in fair value:		
Mutual funds - U.S. equities	$ 1,308	$ 416
Mutual funds - International equities	141	57
Mutual funds - Fixed income securities	(28)	3
Total net appreciation of investments	$ 1,421	$ 476

3. Investments (continued)

The fair value of the following individual investment represents 5% or more of the Plan's net assets as of December 31:

	2013	2012
Vanguard Lifestyle Moderate Growth	$ 7,722	$ 5,477

4. Assets and Liabilities Measured at Fair Value

Assets measured at fair value on a recurring basis as of December 31:

	2013		
	Level 1	Level 2	Total
Mutual funds - U.S. equities	$ 10,174	$ -	$ 10,174
Mutual funds - International equities	948	-	948
Mutual funds - Fixed income securities	620	-	620
Guaranteed investment contracts	-	427	427
Money market funds	46	-	46
Total assets at fair value	$ 11,788	$ 427	$ 12,215

	2012		
	Level 1	Level 2	Total
Mutual funds - U.S. equities	$ 6,513	$ -	$ 6,513
Mutual funds - International equities	481	-	481
Mutual funds - Fixed income securities	245	-	245
Guaranteed investment contracts	-	222	222
Money market funds	44	-	44
Total assets at fair value	$ 7,283	$ 222	$ 7,505

Valuation methodologies used for assets and liabilities measured at fair value are as follows:

- Mutual funds: Securities and mutual funds listed or traded on securities exchanges are valued at the closing price on the exchange where the security is principally traded. These securities are classified as Level 1 because quoted prices in active markets are available.

- Money market funds: Money market funds are valued at net asset value ("NAV"). NAV is equal to the market value of each money market fund's investments and other assets, less liabilities, divided

bmf

4. Assets and Liabilities Measured at Fair Value (continued)

by the number of fund shares. These short-term investments are composed of highly liquid investments with maturities of three months or less and are classified as Level 1, and are not likely to be sold at amounts different from NAV per share. The investment objectives related to cash and money market funds is stability and liquidity.

- Guaranteed investment contracts: These fixed income accounts are valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer, and are classified as Level 2.

5. Income Tax Status

The Internal Revenue Service has determined on March 31, 2008 that the Prototype Non-Standardized 401(a) Profit Sharing Plan, which was adopted by the Plan, is a qualified plan under Section 401 of the Internal Revenue Code ("IRC") and is exempt from tax under present income tax laws. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving this determination. However, the Plan Administrator believes the Plan still complies with the Internal Revenue Service Code Section above.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, and for the years then ended, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. Transactions with Parties in Interest

AIG, who serves as the Trustee, receives investment management fees. There are also fees deducted directly from investment earnings of the Plan.

7. Guaranteed Investment Contracts

The Plan has entered into a benefit responsive guaranteed investment contract with AIG. The account is maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issued is contractually obligated to repay the principal and specified interest rates that are guaranteed to the Plan.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issue or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 were $427 and $222, respectively. The crediting interest rates are based on a formula agreed upon with the issuers. Minimum interest rate guarantees for the Custodian is as follows:

	Minimum interest rate	
	2013	2012
Custodians:		
AIG	2%	2%

Certain events limit the ability of the Plan to transact at contract value with the issuer. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance companies to terminate the agreement prior to the scheduled maturity date.

	AIG
2013 Average Yields:	2.6%
Based on actual earnings and interest rate credited to participants	
2012 Average Yields:	2.9%
Based on actual earnings and interest rate credited to participants

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

9. Trustee Certification of Investments

AIG has certified that the following information used in preparation of these financial statements is complete and accurate as of and for the years ended December 31:

	2013	2012
Investments, at fair value	$ 12,215	$ 7,505
Dividends	$ 293	$ 273
Net appreciation in fair value of investments	$ 1,421	$ 476

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2013	2012
Net assets available for benefits per financial statements	$ 16,138	$ 10,823
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	(19)	6
