A participant shall share in the allocations of the matching contributions whether or not the participant is actively employed at the end of the Plan year and regardless of hours of service. In order to share in the allocations of the discretionary profit sharing contributions, a participant must have completed a year of service or 1,000 hours and be actively employed at the end of the Plan year. Participants, who are not actively employed at the end of the Plan year due to death, total and permanent disability or early/normal retirement, will be eligible to share in the allocation of the discretionary profit sharing contribution, regardless of service and employment status. The matching and discretionary profit sharing contributions are invested in various investment options as directed by the participant. No discretionary matching or profit sharing contributions were made for the year ended December 31, 2013.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan investment income. Plan earnings are credited to participants' accounts at the rate attributable to participants' specific account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants are immediately vested in their contributions plus actual investment income thereon. Vesting in the Company's matching and discretionary profit sharing contribution portion of their accounts plus actual investment income thereon is based on years of continuous service. Participants become 100% vested in Company matching contributions after six years of credited service and discretionary profit sharing contributions after seven years of credited service.

(f) Investment Options

The Plan permits participants to direct the investment of their elective deferrals and Company contributions into various investments offered by the Plan.

(1) Description of Plan - Continued

(g) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$750 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 3.25%, which is commensurate with the prime rate at the date of loan origination. Loan terms are required to range from 1-5 years unless the loan is for the purchase of a primary residence. Principal and interest is paid ratably through bi-weekly payroll deductions.

(h) Payment of Benefits

The Plan provides for the payment of benefits upon retirement, total and permanent disability, termination of employment and financial hardship by way of a lump-sum distribution, substantially equal installments, or an annuity equal to the value of the participant's vested interest in his or her account. Benefits are recorded when paid.

(i) Forfeitures

Any nonvested amounts remaining after the distribution of a terminated participant's vested account balance are forfeited. Forfeitures are applied to future employer contributions and serve to reduce the amount the employer will contribute. At December 31, 2013 and 2012, forfeitures of \$2,772 and \$2,673, respectively, were available to offset future employer matching contributions and are included within investments.

(j) Hardship Distribution

The Plan allows participants to withdraw a portion of their elective deferral account, rollover contributions, and the vested portion of the Company's contribution account in the event of immediate and heavy financial need. Any hardship withdrawal is limited to the amount needed to meet the financial need and must qualify with respect to Plan provisions. A participant who receives a hardship withdrawal that includes any elective deferrals is suspended from making any elective deferrals for six months after receiving the hardship withdrawal.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Notes Receivable from Participants

Loans to participants are reported at their unpaid principle balances plus any accrued but unpaid interest.

(c) Investment Valuation and Income Recognition

Investments in registered investment companies are stated at fair value based on quoted market prices.

The Plan's interest in common and collective trust funds is valued by RTC based on information reported by the investment advisor. This common and collective trust has underlying investments in investment contracts which are valued at the estimated fair market value of the underlying investments and then adjusted to contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of investments which consists of realized gains or losses and the unrealized appreciation on those investments.

(d) Investment Contracts

Accounting Standards Codification Topic 962, *Plan Accounting – Defined Contribution Pension Plans* (ASC 962), defines the circumstances in which an investment contract is considered fully benefit-responsive and provides certain reporting and disclosure requirements for fully benefit-responsive investment contracts in defined contribution pension plans. RTC, the custodian of the Plan as of December 31, 2013 and 2012, has identified the Fixed Fund, a common and collective trust fund in which the Plan invests, to be fully benefit-responsive.

ASC 962 requires that fully benefit-responsive investments be reported at fair value. However, contract value is the relevant measure to the Plan because it is the amount that is available for Plan benefits. Accordingly, investment in the Fixed Fund as reflected in the statements of net assets available for benefits is presented at fair value with a corresponding adjustment to reflect the investment at contract value as of December 31, 2012. The average yield of the Fixed Fund earned by the Plan for the period ended December 31, 2012 was 1.09%. The average yield for the Fixed Fund earned by the Plan credited to participants in the Fixed Fund during the period ended December 31, 2012 was 1.72%.

During 2013, the Board of Directors of the Fixed Fund authorized the termination of the Fixed Fund. All Fixed Fund securities were liquidated and the proceeds thereof were invested into money market investments held by the Fixed Fund. At December 31, 2013, there were no investment contracts held by the Fixed Fund.

(e) Use of Estimates

Management of the Plan has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities and additions to and deductions from net assets to prepare these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

(f) Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits.

(g) Administrative Expenses

Significant administrative costs related to the Plan are incurred by the Company and are not reflected in the operations of the Plan.

(3) Investments

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2013 and 2012:

(4) Custodian Certification of Plan Investments (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, RTC, the Plan's investment custodian, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Total investments at fair value and notes receivable from participants, as shown in the statements of net assets available for benefits.
- Net investment income and interest income on notes receivable from participants and related investment activity as shown in the statement of changes in net assets available for benefits.
- The schedule of assets (held at end of period) as shown in the supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in these financial statements.

(5) Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to Form 5500:

(6) Tax Status

The Plan has adopted a prototype plan. The prototype plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The prototype plan has been amended since receiving the opinion letter. However, the plan administrator and the Plan's tax counsel believe that the prototype plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(7) Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to discontinue the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(8) Fair Value Measurements

Accounting Standard Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC Topic 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- a) Quoted prices for similar assets or liabilities in active markets
- b) Quoted prices for identical or similar assets or liabilities in inactive markets
- c) Inputs other than quoted prices that are observable for the asset or liability
- d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Notes to Financial Statements - Continued

(8) Fair Value Measurements - Continued

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques used need to maximize use of observable inputs and minimize use of unobservable inputs.

Following is a description of valuation methodologies used for assets measured at fair value:

Registered Investment Companies: Valued at net asset value of shares held by the Plan at year end.

Common and Collective Trust Funds: Valued at fair value by the expected future cash flows for each contract discounted to present value at December 31, 2012. Valued at the fair value of the underlying investments at December 31, 2013.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2013 and 2012:
