Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Impact Confections 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Delaware Charter Guarantee and Trust Company (d/b/a Principal Trust Company), the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Member of the RSM International network of independent accounting, tax and consulting firms.

Other Matter

The supplemental Schedule H - Part IV, Line 4i - Schedule of Assets (Held at Year End) as of December 31, 2013, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of Impact Confections 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan whereby eligible employees of Impact Confections, Inc. (the Company or the Plan Sponsor), are permitted to make contributions that are tax-deferred under Section 401(k) of the Internal Revenue Code (the IRC). The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees become eligible for participation at the age of eighteen and upon completing 30 days of service, as defined by the Plan.

Vesting: Participant contributions plus actual earnings thereon are immediately fully vested and nonforfeitable. Employer contributions vest to participants based upon years of service. Participants are vested in employer contributions based upon the following schedule:

Years of Service	Vesting Percentage
Any service less than 1 year	None
1 year, but less than 2	25%
2 years, but less than 3	50%
3 years, but less than 4	75%
4 years or more	100%

Contributions: Each year, participants may elect to contribute up to 50% of pretax compensation subject to certain maximum limitations imposed by the IRC ($17,500 for 2013). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of 50 before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC ($5,500 for 2013). Participants may also contribute amounts representing distributions from other qualified plans.

The Plan requires matching contributions equal to a percentage of the participant's deferral contributions, as determined by the Company. In 2013, the Company made a matching contribution equal to 50% of the participant's deferral contributions, up to 4% of the employees' pretax compensation.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions and (b) plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Investment options: Participants must direct their contributions to selected investments as made available and determined by the Plan Sponsor. Participants may change their investment options any time throughout the year via internet or direct phone access to the trustee.

Payment of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or receive annual installments; however, withdrawals of funds from his or her account must begin upon attaining age 70½ . For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Participants may borrow from their participant accounts a minimum of $1,000 to a maximum of the lesser of $50,000 or 50% of their vested account balance. Participants are limited to two loans outstanding at any given time. Terms on the notes range from 1-5 years or up to 30 years if used for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate that is commensurate with the rates offered by commercial lending institutions. As of December 31, 2013, interest rates on outstanding notes were 5.25%. Notes outstanding as of December 31, 2013 are due through May 2019. Principal and interest is paid ratably through weekly payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are presented on the accrual basis of accounting. The Plan follows accounting standards established by the Financial Accounting Standards Board (FASB) to ensure consistent reporting of net assets and changes in net assets. References to Generally Accepted Accounting Principles (GAAP) in these footnotes are to the FASB Accounting Standards Codification (ASC or the Codification).

Use of estimates: The preparation of financial statements in conformity with GAAP requires the Plan’s management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Risks and uncertainties: The Plan utilizes various funds as investment instruments. Pooled separate accounts are primarily invested in stocks and mutual funds, which are exposed to various risks, such as interest rate and credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain asset management fees are paid by the Plan and allocated to participants' accounts on a quarterly basis.

Note 2. Summary of Significant Accounting Policies (Continued)

Income taxes: Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2010.

Recent accounting pronouncements: In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements* (ASU 2012-04). The amendments in this update cover a wide range of topics in the ASC, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition or disclosure through July 18, 2014, the date on which the financial statements were available to be issued.

Note 3. Guaranteed Interest Accounts

The Plan entered into guaranteed interest account contracts with the trustee, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal), under which the Plan deposits a portion of its annual contributions. Principal maintains the contributions in an unallocated fund to which it adds interest at a fixed rate according to when the contributions were deposited. The rates are guaranteed annually but are subject to change. When changed, the new rate applies to funds deposited from the date of the change. These contracts are non benefit-responsive and are included in the financial statements at fair value. As of December 31, 2013, the contract value of the guaranteed interest accounts approximated fair value, so therefore no adjustment was required. These contracts pay contract value for a benefit event such as termination, death, disability or retirement. However, this value is subject to a surrender charge when funds are withdrawn prior to maturity for a non-benefit event.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. As of December 31, 2013 and 2012, contract value approximates fair value. Contract interest rates on guaranteed interest accounts ranged from 0.04% to 1.69% and from 0.14% to 3.41% for the years ended December 31, 2013 and 2012, respectively.

Certain events limit the Plan's ability to transact at contract value with the issuers. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion or equity was provisions, (c) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestiture or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA of 1974. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

Note 4. Information Certified and Provided by Principal

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by Principal and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Principal that information provided to the Plan Administrator by Principal related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2013	2012
Investments, at fair value:		
Pooled separate accounts	**$ 2,926,702**	$ 2,402,353
Guaranteed interest accounts	**41,563**	75,719
	$ 2,968,265	$ 2,478,072
Notes receivable from participants	**$ 202,073**	$ 168,306

Principal also certified to the completeness and accuracy of the following investment income information (including investments bought, sold, and held during the year) for the year ended December 31, 2013:

	Interest and Dividends	Net Appreciation in Fair Value of Investments
Pooled separate accounts	$ -	$ 414,783
Guaranteed interest accounts	4,204	-
	$ 4,204	$ 414,783

Note 4. Information Certified and Provided by Principal (Continued)

Principal also certified to the completeness and accuracy of interest income on notes receivable from participants of $9,226 for the year ended December 31, 2013.

Single plan assets representing 5% or more of the Plan's net assets as of December 31, 2013 and 2012 are separately identified as follows:

	2013	2012
Investments in pooled separate accounts:		
Principal Lifetime 2030 Separate Account	**$ 426,968**	$ 502,554
Principal Bond & Mortgage Separate Account	**415,187**	361,613
Principal Money Market Separate Account	**390,191**	311,941
Principal Large Cap S&P 500 Index Separate Account	**228,465**	193,910
Principal Diversified International Separate Account	**217,469**	*
Principal Mid-Cap Value I Separate Account	**170,572**	*
Principal Equity Income Separate Account	**167,879**	*
Principal International I*	*	136,135
Notes receivable from participants	**202,073**	168,306

*Investment represents less than 5% of the Plan's net assets for the respective year.

Note 5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, the guidance establishes a fair value hierarchy for valuation inputs that give the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Accordingly, the fair value of these assets is established using Level 3 inputs.

Pooled separate accounts: Pooled separate accounts (other than Principal U.S. Property) invest in stocks and mutual funds and are primarily valued at the net asset value (NAV) per share based on quoted market values of the underlying investments. The Principal U.S. Property Separate Account invests primarily in commercial real estate and includes mortgage loans which are backed by the associated properties. The NAV is used as a practical expedient to determine fair value. Accordingly, the fair value of these assets is established using Level 2 inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

Description	Level 1	Level 2	Level 3	Total

Note 5. Fair Value Measurements (Continued)

During the year ended December 31, 2013, the Plan did not make any transfers between Levels 1, 2 or 3.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2013 and 2012:

Investment	**Fair Value 2013**	Fair Value 2012	Unrestricted Commitment	Redemption Frequency	Redemption Notice Period

(a) This asset class is generally composed of a combination of fixed income and equity investment options. These investment options may include balanced, asset allocation, target-date, and target-risk investment options. Although typically lower risk than investment options that invest solely in equities, all investment options in this category have the potential to lose value.

(b) This asset class is generally composed of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities. All investment options in this category have the potential to lose value.

(c) This asset class is composed of investment options that invest in stocks, or shares of ownership in companies with their principal place of business or office outside the U.S. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(d) This asset class is generally composed of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(e) This asset class is generally comprised of short-term fixed-income investment options that are largely liquid and are designed to not lose much value. These investment options may include stable value, money market, short-term bond, and guaranteed interest accounts. They are considered to be among the least risky forms of investment options. However, they typically have a lower rate of return than equities or longer-term fixed income investment options over long periods of time. Depending on the objectives of the investment options, they may experience price fluctuations and may lose value.

Note 5. Fair Value Measurements (Continued)

(f) This asset class is generally composed of investment options that invest in stocks, or shares of ownership in small to medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(g) Appropriate investments in other styles or asset classes offered through vehicles such as mutual funds, exchange-traded funds (ETFs), commingled trusts, and insurance company separate accounts may be considered for diversification purposes, depending on the specific needs of the Plan and its participants.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Guaranteed Interest Accounts
Balance, beginning of year	$ 75,719
Interest earned	4,204
Purchases	62,823
Sales	(101,183)
Balance, end of year	**$ 41,563**

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

	2013				
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed interest accounts	$ 41,563	Market Value Adjustment	Guaranteed Interest Rates	0.04% - 1.68%	1.10%
			Current Rate on 12/31/13	0.61% - 0.88%	0.63%

In estimating fair value of the investments in Level 3, the Plan's 401(k) Plan Committee may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Committee evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Note 6. Party-In-Interest Transactions

Parties-in-interest are defined by the DOL as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. As such, transactions conducted by Principal qualify as party-in-interest transactions.

Note 7. Plan Termination

While it has expressed no intention to do so, the Company has the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their entire account balances and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 8. Tax Status

The Plan has adopted a non-standardized form of a prototype plan sponsored by Principal Life Insurance Company. The prototype plan has received an opinion letter dated March 31, 2008 from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.
