BAY FEDERAL CREDIT UNION 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2013 and 2012

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Bay Federal Credit Union 401(k) Plan and Trust (“the Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General: The Plan is a defined contribution plan covering all employees of Bay Federal Credit Union (the Employer), who are over the age of 20 and have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2010, the safe harbor plan instituting a Qualified Automatic Contribution Arrangement (“QACA”) that was put into effect as of January 1, 2009, was discontinued. The QACA matched up to 4% of participants’ eligible compensation and automatically enrolled employees who were not already Plan participants unless they formally elect to not participate in the Plan prior to their Plan eligibility date. Participants become fully vested in matching contributions under the new plan after completing two years of service.

Contributions: The Employer can match and make discretionary payments to the Plan at the option of the Board of Directors. Participants may elect to contribute up to the maximum amount allowable, not to exceed \$17,500 (\$23,000 if over 50 years of age) in 2013 and \$17,000 (\$22,500 if over 50 years of age) in 2012.

Participant Accounts: Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contribution, the Employer’s matching contribution, and Plan earnings, and charged with withdrawals and Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investments: Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of CUNA Mutual Pension Saver Accounts, including Guaranteed Investment Contracts, Fixed Deposit Administration Account, and the following mutual fund categories: Target Date/Asset Allocation, Bonds, Large-Cap Stocks, Mid/Small-Cap Stocks, International Stocks, REIT Index, Socially Responsible, Technology, and Health Sciences.

Plan Administration Costs: The Employer absorbs certain Plan administration costs, including the annual fee paid to the custodian, CUNA Mutual Group (“CUNA”), and the cost of the annual financial statement audit.

Vesting: Participants are immediately vested in the Employer’s safe harbor contributions and their own contributions, plus actual earnings thereon. For the portion of their accounts which represent the Employer’s matching contributions prior to January 2009, plus actual earnings thereon, vesting is based on years of continuous service whereby participants are 100% vested after five years of credited service, at the rate of 20% per year. For the 2009 QACA safe harbor matching contributions, vesting is based on years of continuous service whereby participants become 100% vested after completing two years of credited service.

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2013 and 2012

NOTE 1. DESCRIPTION OF THE PLAN (Continued)

Forfeited Accounts: At December 31, 2013 and 2012, unallocated non-vested accounts totaled \$0 and \$650, respectively. Amounts forfeited by terminated participants will be used to reduce future employer contributions. During the years ended December 31, 2013 and 2012, forfeitures of \$8,911 and \$6,799 were used to reduce employer contributions.

Participant Loans: Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum of \$50,000, or 50% of their vested account balance, whichever is less. The current rate of interest on loans is the Internal Revenue Service's Applicable Federal Rate which is appropriate for the term of the loan; that rate changes from month to month. Interest rates ranged from .18% to 2.57% in 2013 and from .23% to 5.09% in 2012. The balance in the participant's account secures the loans. All balances are due and payable in their entirety upon a participant's termination, retirement or death.

Distributions: The Plan may make distributions to the participants in the event of termination of employment, retirement, attainment of age 59 ½, death, disability, or financial hardship.

On termination of service before retirement a participant will only be entitled to that portion of the vested interest in their account. If the vested interest is over \$1,000, the participant may leave his/her funds in the Plan until he/she elects to have a distribution. If the terminated participant's vested account is not over \$1,000, the Plan may distribute that portion in a lump-sum amount without the participant's consent.

The participant may choose to receive payment in the form of a lump-sum distribution of the participant's vested account balance, installments, or any other form of payment that is permitted under the Plan.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2013 and 2012

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013, or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits: Benefits are recorded when paid.

Reclassifications: Certain reclassifications have been made to the 2012 notes to conform to the 2013 presentation with regards to mutual funds in the fair value hierarchy table.

Risks and Uncertainties: The Plan provides for various investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Years Ended December 31, 2013 and 2012

NOTE 4. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value hierarchy for valuation inputs gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1: Valuation for assets traded in active exchange markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets.

Level 2: Valuation for assets traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or comparable assets.

Level 3: Valuation for assets that are derived from other valuation methodologies, including option pricing models, discounted cash flow models, and similar techniques, and not based on market exchange, dealer, or broker traded transactions. These valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets.

The following table presents information about assets measured at fair value on a recurring basis as of December 31, 2013 and 2012:

At December 31, 2013				
	Total	(Level 1)	(Level 2)	(Level 3)
Mutual Funds	\$ 9,671,811	\$ --	\$ 9,671,811	\$ --

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2013 and 2012

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

At least annually, management determines if the current valuation techniques used in the fair value measurements are still appropriate and evaluates and adjusts the unobservable inputs used in the fair value measurements based on current market conditions and third-party information. There were no changes in the valuations techniques used during the current year.

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the investment contract with insurance company for the years ended December 31, 2013 and 2012:

	2013	2012
Beginning balance	\$ 932,066	\$ 1,023,044
Total gains or losses included in changes in net assets available for benefits	19,243	22,163
Purchases and issuances	112,499	78,137
Settlements	<u>(88,765)</u>	<u>(191,278)</u>
Ending balance	<u>\$ 975,043</u>	<u>\$ 932,066</u>
Change in unrealized gains or losses for the period included in earnings for assets held at the end of the reporting period.	<u>\$ 317</u>	<u>\$ 259</u>

NOTE 5. CERTIFIED INFORMATION

The financial information included in the Plan's financial statements as it relates to investment assets, investment transactions, investment income, and the schedule of assets held for investment purposes at end of year have been derived from information certified as complete and accurate by CMFG Life Insurance Company, the custodian of the Plan, in accordance with Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

BAY FEDERAL CREDIT UNION 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2013 and 2012

NOTE 7. TAX STATUS

The Plan obtained its latest determination letter on July 16, 2010 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Financial Accounting Standards Board (FASB) issued guidance that clarifies the accounting for uncertainty in income taxes recognized in the Plan's financial statements. In addition, the guidance prescribes a comprehensive model for recognizing, measuring, presenting, and disclosing in the financial statements tax positions taken or expected to be taken on a tax return, including positions that the Plan is not subject to income taxes. In addition, it provides guidance on derecognition, classification, interest and penalties, accounting for interim periods, disclosure, and transition. Only tax positions that meet the more likely than not recognition threshold at the effective date may be recognized upon adoption of guidance.

As of December 31, 2013, the Plan has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Plan's tax years 2010 through 2013 remain open and could be subject to examination by tax jurisdictions.

NOTE 8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are invested with CMFG Life Insurance Company and CUNA Mutual Insurance Society which are both part of CUNA. CUNA is the custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred for investment management services, if any, were paid by the Plan.

Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation and financial reporting of the Plan. The Company pays these individuals salaries and also pays other administrative expense on behalf of the Plan. Certain fees, to the extent not paid by the Company, are paid by the Plan.

These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory and administrative exemptions from the Code and ERISA's rules on prohibited transactions.

BAY FEDERAL CREDIT UNION 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2013 and 2012

NOTE 9. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into benefit-responsive investment contracts with CUNA Mutual Insurance Society ("the Issuer") which were composed of a Deposit Administration Account and a Guaranteed Investment Account. The Issuer maintains contributions to these accounts in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

Because the guaranteed investment contracts are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

Contract value, as reported to the Plan by CUNA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The fair value of the Deposit Administration Account at December 31, 2013 and 2012 was \$957,586, and \$918,334, respectively. The average yield and crediting interest rates for this account in 2013 and 2012 were 1.75% and 2.15% respectively. The fair value of the Guaranteed Investment Account at December 31, 2013 and 2012 was \$17,457 and \$13,732, respectively. The average yield and crediting interest rates for this account in 2013 and 2012 were 2.89% and 2.97% respectively.

There are no reserves against contract value for credit risk of the Issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events limit the Plan's ability to transact at contract value with the Issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.
