1. Description of Plan

The following description of the Rogers Towers 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Rogers Towers, P.A. (the Company) who have completed six months of service and are at least 20 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In June 2012, the Plan was amended to add an automatic enrollment feature. As a result, beginning October 1, 2012, employees were automatically enrolled in the Plan deferring 3% from their eligible compensation once they meet the eligibility requirements unless they formally decline participation in writing.

Contributions

Each year, the Company will remit contributions to the Plan in the following amounts:

(a) The total amount of participants' elective deferrals including pre-tax and Roth contributions up to a maximum permitted by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollover distributions from other qualified defined benefits or defined contributions plans.

(b) A matching contribution equal to 25% of the salary deferred by the participants, not to exceed 6% of the participant's salary.

(c) A discretionary contribution on behalf of each non-highly compensated participant and non-key employee equal to a uniform percentage of participants' compensation, to be determined each year by the Company.

(d) A discretionary profit sharing contribution determined each year by the Company.

Participant Accounts

Each participant's account is credited with the participant's elective contributions, and allocations of (a) the Company's nondiscretionary match, (b) the Company's discretionary contributions (based on eligibility) and, (c) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. All contributions to the Plan are participant-directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (Continued)

Vesting

Participants are immediately vested in their contributions and the Company matching contributions plus actual earnings thereon. Vesting in the Company discretionary profit sharing contributions and related earnings is based on years of continuous service. Participants vest 20% per year beginning with the second year, and are 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the vested balance in the participant's account and bear interest at a rate of 4.25%, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Loan terms have a minimum of one year and may not exceed five years, unless the loan is used for the purchase of a primary residence. Principal and interest are paid through payroll deduction.

Payment of Benefits

On termination of services for any reason, a participant (or beneficiary) may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $14,186 and $23,814, respectively. These accounts will be used to reduce future Company profit sharing contributions. During the year ended December 31, 2013, $23,814 of forfeited non-vested accounts was used to reduce the Company profit sharing contribution.

2. Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the financial statements. The financial statements and accompanying notes are representations of the Plan's management. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the presentation of the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year, net of investment management fees.

Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain Plan expenses are deducted from participants' accounts and the remaining expenses are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through the date of the report of independent certified public accountants, the date the financial statements were available to be issued.

3. Information Certified by the Plan's Custodian

The investments and notes receivable from participants included in the statements of net assets available for benefits at December 31, 2013 and 2012, and the related investment income and interest income on notes receivable from participants included in the statement of changes in net

assets available for benefits for the year ended December 31, 2013, as well as the information in Note 4, and the supplemental schedule of assets (held at end of year) have been derived from information certified as complete and accurate by Wells Fargo Bank, N.A. (Wells Fargo), the custodian of the Plan, in accordance with Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Investments

The following table presents individual investments that represent 5% or more of the Plan's net assets at December 31:

	2013	2012
Common/collective trust:		
Wells Fargo Stable Return Fund **	$ 7,808,016	$ 5,994,595

American Capital World Growth & Income Fund	*	1,252,383
MFS Value Fund	*	1,243,086

** Contract value

* Less than 5% of the Plan's net assets

During 2013, the Plan had net appreciation (including gains and losses on investments bought and sold as well as held during the year) in the fair value of its investments as follows:

Mutual funds	$ 2,435,126
Common/collective trusts	962,359
	$ 3,397,485

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

5. Fair Value Measurements (Continued)

Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2013 and 2012. Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the net asset value (NAV) of the units reported on the active market on which the individual securities are traded.

Common/collective trusts: Valued at NAV provided by the custodian. The NAV is based on the fair value of the underlying assets owned by the trust, minus its liabilities, divided by the number of units outstanding. There were no unfunded commitments to purchase investments at December 31, 2013 and 2012, respectively. Participant-directed redemptions have no restrictions and are recorded at the end of every business day. The fair value of Wells Fargo Stable Return Fund has been estimated based on the fair value of the underlying investment contracts in the fund as reported by the issuer of the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2013:

There were no transfers between Level 1 and Level 2 investments during the years ended December 31, 2013 and 2012.

6. Party-In-Interest Transactions

Certain Plan investments are managed by Wells Fargo. Wells Fargo is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $49,494 for the year ended December 31, 2013.

7. Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their Company contributions.

8. Tax Status

The Plan adopted the Wells Fargo Bank, N.A. Defined Contribution Volume Submitter Plan and Trust effective December 1, 2010. The Internal Revenue Service (IRS) has informed Wells Fargo by letter dated March 26, 2010, that the Wells Fargo prototype plan adopted by the Plan, as then designed, was in accordance with applicable sections of the IRC. Although the Plan has been amended since adoption, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.
