Participant Accounts

Each participant's account is credited with the participant's contributions, the Employer's discretionary matching contribution, and an allocation of Plan earnings. Allocations are based on participant account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Employer's discretionary and matching contributions plus earnings thereon is based on years of continuous service. Participants vest 25% per year of service, starting after two years of credited service and are 100% vested after five years of credited service. Earlier vesting may occur upon death or disability.

Investment Options

The participant directs the investment of their contributions and the Employer's discretionary contribution into various investment options offered by the Plan.

Payment of Benefits

On termination of service due to disability or death, a participant will become fully vested. Distributions are made in lump sum payments. A participant's beneficiary will receive the participant's account balance in the event of a participant's death.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Forfeited Accounts

Forfeited, non-vested accounts totaled \$150,160 and \$147,000 at December 31, 2013 and 2012, respectively. Forfeited amounts can be used to pay administrative expenses or to offset future Employer contributions. During 2013, forfeited, non-vested accounts were used to reduce administrative expenses by \$9,915. Forfeited, non-vested accounts were not used to reduce employer contributions in 2013.

Basis of Presentation

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

A significant portion of the Plan's administrative expenses are paid by the Employer.

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in interest and dividend income.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the Plan's investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

The Plan administrator has evaluated subsequent events through July 25, 2014, the date the financial statements were available to be issued.

NOTE 3 – INFORMATION PREPARED AND CERTIFIED BY THE PLAN’S TRUSTEE

The information related to investments that is included throughout the Plan’s financial statements and supplemental schedule as of December 31, 2013 and 2012, and for the year ended December 31, 2013, was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan’s independent auditors not to perform any auditing procedures with respect to information in Notes 6 and 10 and supplemental schedule related to the Plan’s investments.

State Street Bank and Trust Company also certified to the completeness and accuracy of \$881,059 of net appreciation in fair value of investments and \$348,021 of dividends for the year ended December 31, 2013.

NOTE 4 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their accounts.

NOTE 5 – INCOME TAX STATUS

The Plan adopted a standardized form of a prototype plan sponsored by New York Life Investment Management Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan’s qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan administrator evaluated the Plan’s tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2010.

NOTE 6 – INVESTMENTS

The fair value of the individual investments that represent 5% or more of the Plan’s net assets as of December 31 are as follows:

Mutual funds	\$ 865,544
Common collective investment trust fund	15,515
Total	<u>\$ 881,059</u>

NOTE 7 – RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Fees paid for the investment management services during the year totaled \$9,915. All fees paid for the investment management services for the year ended December 31, 2013, were paid from forfeited non-vested funds.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 9 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	<u>2013</u>	<u>2012</u>
Net assets available for benefits per financial statements	\$ 9,506,872	\$ 7,386,330
Refundable excess contributions	19,881	42,294
Net assets available for benefits per Form 5500	<u>\$ 9,526,753</u>	<u>\$ 7,428,624</u>

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2013:

Net increase per financial statements	\$ 2,120,542
Beginning of year refundable excess contributions	(42,294)
End of the year refundable excess contributions	19,881
Net increase per Form 5500	<u>\$ 2,098,129</u>

NOTE 10 – FAIR VALUE MEASUREMENTS

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Common collective investment trust fund: Valued at the net asset value (NAV) of shares held by the Plan at year end, as reported to the Plan by the trustee. A fund's NAV reflects an exit price, is the same for all holders of the fund, and provides the basis for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
