Board of Directors of Pharmaceutical Technologies, Inc.
Omaha, Nebraska

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pharmaceutical Technologies, Inc. 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the Pharmaceutical Technologies, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Pharmaceutical Technologies, Inc. (the Company) for the benefit of its employees, excluding certain non-resident aliens and union employees covered by a collective bargaining agreement. Employees become eligible for participation after 6 months or service and the attainment of 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and the applicable current Internal Revenue Code provisions.

Contributions and investment options: Each year, participants may contribute from 1% to 100% of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions and the Company's contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

The Company contributes a matching contribution equal to 25% of the first 6% of compensation each participant contributes to the Plan during each plan year. The Company may make a discretionary profit-sharing contributions to Plan participants employed on the last day of the calendar year. No such contributions were made in 2013 or 2012.

Participant accounts: Each participant's account is credited with the participant's contributions, Company contributions and Plan earnings. Participants are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of participants' accounts is based on years of continuous service.

The vesting of Company contributions begins after two years of service, based on the following:

Credited Years of Service	Percentage of Vested Interest
Less than 2	0
2	20
3	40
4	60
5	80
6	100

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes receivable are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the time of issuance. Principal and interest are paid ratably through payroll deductions. A participant may have only one loan outstanding at any time.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in the participant's account, or annual installments over a predetermined period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If a participant terminates employment and has a vested balance less than $5,000, the Plan will distribute the vested portion, in lump sum, as soon as administratively practicable following the termination of employment.

Forfeited accounts: Forfeited nonvested accounts totaled $162 and $6,198 at December 31, 2013 and 2012, respectively. These accounts will be used to reduce future Company contributions. During 2013, Company contributions of $11,352 were reduced from forfeited nonvested accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Other expenses are paid by the Plan and are reflected in the Plan's financial statements.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan agreement.

Subsequent events: The Plan has evaluated subsequent events through July 28, 2014, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Massachusetts Mutual Life Insurance Company

The following is a summary of the Plan's information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following:

	2013	2012
Statements of Net Assets Available for Benefits:		
Pooled separate accounts at fair value	**$ 4,719,424**	$ 3,593,041

Note 5. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Section Code (ASC) 820 provides a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Guaranteed interest account: This investment is principally valued using a market value approach. The market value of the guarantee interest account is determined to be the estimated liquidation value of the contract. The liquidation value is derived considering factors such as the observable interest rate being earned by investments under the contract, the unobservable assumed interest rate and the unobservable comparison between investments supporting the contract and current market rates.

Pooled separate accounts: Primarily valued at net asset value per share based on the observable market prices of underlying investments. There were no unfunded commitments at December 31, 2013 and 2012 for all pooled separate accounts. Additionally, all pooled separate accounts have daily redemption frequencies.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012, respectively:

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 financial instruments for the year ended December 31, 2013:

Guaranteed Interest Account		
Beginning balance	$	284,554
Purchases		27,453
Net appreciation in fair value of investments *		11,967
Transfers		150,351
Sales		(86,800)
Ending balance	$	387,525

*Includes interest credited.

Unrealized gains/(losses) from the guaranteed interest account are not included in the statement of changes in net assets available for benefits as this instrument is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents the valuation technique used to measure the fair value of the Plan's Level 3 financial instrument, and the significant unobservable inputs and the values for those inputs:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Significant Input Values	Weighted Average
Guaranteed interest account - Dec. 31, 2013	$387,525	Liquidation Value	Assumed Interest Rate	0.69 - 4.13%	2.62%
			Duration (years)	9.67	
			Experience Rate	1.15 - 6.76%	
Guaranteed interest account - Dec. 31, 2012	284,554	Liquidation Value	Assumed Interest Rate	0.69 - 5.15%	2.57%
			Duration (years)	9.77	
			Experience Rate	0.94 - 6.59%	

Note 6. Investment Contract With Massachusetts Mutual Life Insurance Company

In 2000, the Plan entered into a benefit-responsive investment contract with Massachusetts Mutual Life Insurance Company (Mass Mutual). Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Mass Mutual. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed interest contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest contract. The guaranteed interest contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $387,525 and $284,554, respectively. The crediting interest rate is based on a formula agreed upon with the issuer and established for a six month period where all assets invested in the guaranteed interest account are credited with that rate.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: *(a)* temporary absence, *(b)* change in position or other occurrence qualifying as a temporary break in service under the Plan, *(c)* transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the Company, *(d)* cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Company's business, *(e)* removal from the Plan of one or more groups or classification of participants, *(f)* partial or complete Plan termination, *(g)* Plan disqualification.

The average yields earned by the guaranteed interest contract are as follows:

Average yields:	2013
Based on actual earnings	2.62%
Based on interest rate credited to participants	2.62%

Note 7. Related-Party Transactions and Party-In-Interest Transactions

The guaranteed interest account is managed by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the Plan's custodian and recordkeeper, therefore, these transactions qualify as party-in-interest transactions.

Plan expenses related to recordkeeping fees were paid to Massachusetts Mutual Life Insurance Company during 2013.

Plan expenses related to investment management were paid to Mesirow Financial Investment Management, Inc. during 2013.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

Note 9. Income Tax Status

Effective October 1, 2009, the Plan adopted a non-standardized form of a prototype plan sponsored by Massachusetts Mutual Life Insurance Company. The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008 as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has since been amended, and the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2010.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.
