CONNOR CO. EMPLOYEES SAVINGS AND PROFIT SHARING 401(k) PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Connor Co. (Company) Employees Savings and Profit Sharing 401(k) Plan & Trust (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service (except for employees who are members of the Teamsters and are covered by Central States Health and Welfare Pension Fund). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(b) Contributions

Participants may contribute from 1 to 100 percent of pretax annual compensation, as defined in the Plan. There is also a matching contribution by the Company equal to 50 percent of the first 5 percent of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. The Company made profit sharing contributions of $1,272,544 for the year ended December 31, 2013. Contributions are subject to certain Internal Revenue Service (IRS) limitations. Participants direct the investment of their contributions and amounts contributed by the Company into various investment options offered by the Plan.

(c) Participant Accounts

Each participant's account is credited with the participant's voluntary contributions, the Company's matching contribution, allocations of the Company's discretionary contribution, and an allocation of Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Years of Service	Vested Interest
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

(e) Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in installments over a period of not more than the participant's assumed life expectancy or the assumed life expectancy of the participant and the beneficiary. Any distribution to a participant who has a benefit which exceeds $5,000 shall require such participant's consent if such distribution commences prior to the later of his normal retirement age or age 62. Distribution cannot be delayed past April 1 following the year that the participant attains age 70 ½.

(f) Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts that represent the participant matching contribution made by the Company may be used to reduce future Company contributions to the Plan. Forfeited amounts that represent discretionary contributions made by the Company are reallocated to the Plan participants. At December 31, 2013 and 2012, unallocated forfeited nonvested accounts totaled $-0-.

For the year ended December 31, 2013, the Plan applied $1,770 of forfeitures to reduce Company contributions to the Plan.

For the year ended December 31, 2013, $12,809 of forfeitures was reallocated to Plan participants.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value as required by authoritative accounting literature. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Expenses

Administrative expenses and fees are paid by the Company.

NOTE 3 - INVESTMENTS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Mutual funds and money market fund, at fair value, and the contract value for the fully benefit-responsive investment contract, as shown in the accompanying statements of net assets available for benefits of $33,959,595 as of December 31, 2013 and $27,024,766 at December 31, 2012.

b. Total investment income as shown in the accompanying statement of changes in net assets available for benefits of $5,902,839 for the year ended December 31, 2013.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31:

Investments at fair value	**2013**	**2012**
Invesco Equity Income Fund	$ 4,357,716	$ 3,104,390
Schwab - S&P 500 Index Fund	4,403,631	3,244,763
WHG Large Cap Value Instl Equity Fund	5,815,103	4,034,053
PIMCO Total Return Fund	3,090,126	3,915,077
American Funds Capital World Growth & Income Fund	4,991,953	3,709,164
Schwab Investor Money Market Fund	*	1,679,832
John Hancock Disciplined Value Mid Cap Fund	6,084,597	4,061,571
Investments at contract value		
Morley Stable Value Fund	2,989,002	3,275,670

*This investment did not represent 5 percent or more of the Plan's net assets as of December 31.

NOTE 3 - INVESTMENTS (CONTINUED)

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated as follows:

Common/collective trust	$ 31,534
Mutual funds	4,413,964
Total	$ 4,445,498

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets:
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2013 and 2012:

	Fair Value		Unfunded	Redemption	Redemption
Investment Type	**2013**	**2012**	**Commitments**	**Frequency**	**Notice Period**
Common/Collective Trust	$ 3,005,648	$ 3,338,499	$ -	Daily	N/A

The collective fund's objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the fund invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. However, there is no assurance that this objective can be achieved.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Total**

Total assets at fair value	$ 30,970,593	$ 3,005,648	$ -	$ 33,976,241

	Assets at Fair Value as of December 31, 2012

Total assets at fair value	$ 23,749,096	$ 3,338,499	$ -	$ 27,087,595

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 6 - PLAN TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated December 24, 1997, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The effects of an uncertain tax position are recognized in the financial statements when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of common/collective trust funds, money market funds, and mutual funds managed by Charles Schwab, who is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - SUBSEQUENT EVENTS

Management evaluated subsequent events through July 15, 2014, the date the financial statements were available to be issued.
