NOTE 1. DESCRIPTION OF PLAN

The following description of the First Co Bancorp, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all full-time employees of First Co Bancorp, Inc. and Subsidiaries (Company) who have one hour of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On February 23, 2012, the Company adopted a prototype plan from American Funds Distributors, Inc. The specific provisions of the new plan document are essentially the same as the previous plan document.

Contributions:

Each year, participants may contribute any percentage of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective investment fund as investment options for participants. The Company contributes 50 percent of the first 6 percent of total compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

Participant Accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. DESCRIPTION OF PLAN (CONT'D)

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of credited service. To receive credit for one year of vesting, a participant must have completed at least 1,000 hours of service in a calendar year. A participant is 100 percent vested after six years of credited service.

Payment of Benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In addition, hardship distributions are permitted if certain criteria are met.

Forfeited Accounts:

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $14 and $280, respectively. These accounts will be used to reduce future employer contributions. Also, in 2013 and 2012, employer contributions were reduced by $13,108 and $24,500, respectively, from forfeited nonvested accounts.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of benefits:

Benefits are recorded when paid.

Refunds of excess contributions:

At December 31, 2013 and 2012, refunds of excess contributions totaled $13,525 and $14,600, respectively. These amounts came from excess contributions from highly compensated employees. The corrective refunds were distributed after year-end in order to pass discrimination tests.

Administrative expenses:

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying statement of changes in net assets available for benefits as administrative expenses. The Company pays the annual audit fee and any fees for plan amendments.

NOTE 3. INVESTMENTS

On February 23, 2012, the assets of the Plan were transferred to Capital Bank & Trust Company, who is the new trustee of the Plan.

The December 31, 2013 and 2012 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the years ended, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $13,979,374 and $10,944,193 at December 31, 2013 and 2012, respectively, and related income of $2,039,984 for the year ended December 31, 2013 and $555,178 for the period February 23, 2012 through December 31, 2012.

During the years ended December 31, 2013 and 2012, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by $1,541,447 and $822,060 respectively, as follows:

NOTE 4. FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4. FAIR VALUE MEASUREMENT (CONT"D)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available. The levels of the fair value hierarchy are as follows:

Level 1 Fair Value Measurements

The fair value of mutual funds is the net asset value (NAV) of shares held by the Plan at year end and is based upon quoted market prices.

Level 2 Fair Value Measurements

The fair value for investments in this category is based on quoted market prices in markets that are not active or for which all significant inputs are observable, both direct and indirect.

Level 3 Fair Value Measurements

The fair value of the collective investment fund is described in Note 5.

There have been no changes in the valuation methodologies used for assets measured at fair value at December 31, 2013 and 2012.

NOTE 4. FAIR VALUE MEASUREMENT (CONT'D)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012.

Gains and losses (realized and unrealized) included in changes in net assets for the periods above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2013 and 2012, there were no significant transfers into or out of Level 3.

NOTE 5. COLLECTIVE INVESTMENT FUND THAT INVESTS IN STABLE VALUE PRODUCTS

In 2012, the Plan purchased shares in Federated Capital Preservation Fund, a collective investment fund that invests in stable value products, including guaranteed investment contracts, synthetic guaranteed investment contracts, and money market instruments. The fund's investment objective is stability of principal and high current income. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The fund seeks to maintain a stable value of $10 per unit of participation. The fund cannot guarantee that the value of its units will always remain at $10. For example, changes in current laws, regulations, or accounting practices could adversely impact the fund's ability to maintain a stable value of $10 per unit.

As described in Note 2, because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

Contract value, as reported to the Plan by Federated, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the fund at December 31, 2013 and 2012 was $2,000,012 and $1,673,658, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0 percent. Such interest rates are reviewed on a monthly or quarterly basis according to each synthetic guaranteed investment contract.

In certain circumstances, the amount withdrawn from the fund would be payable at fair value rather than at contract value. These circumstances include, but are not limited to, the following: mergers, mass layoffs, plan termination, implementation of early retirement incentive programs, or other events within the control of the fund or the plan sponsor resulting in a material and adverse financial impact on the issuer's obligations under the guaranteed investment contract.

NOTE 5. COLLECTIVE INVESTMENT FUND THAT INVESTS IN STABLE VALUE PRODUCTS (CONT'D)

The guaranteed investment contracts into which the fund has entered limit the circumstances under which the issuer may unilaterally terminate the contract on short notice. These circumstances include, but are not limited to, the following: 1) the fund loses its qualified status under the Internal Revenue Code or is otherwise terminated; 2) the trustee fails to meet its material obligations under the contract, attempts to assign the contract, or engages in fraud or misrepresentation that materially affects the risk profile of the contract; or 3) if the fixed-income securities underlying the synthetic guaranteed investment contract fail to meet certain criteria as specified in the synthetic guaranteed investment contract. If one of these events were to occur, the issuer could terminate the synthetic guaranteed investment contract at the market value of the underlying fixed-income securities (or in the case of a traditional guaranteed investment contract, at the hypothetical market value based upon a contractual formula).

	2013	2012
Average yields:		
Based on actual earnings	1.21%	1.59%
Based on interest rate credited to participants	1.46%	1.95%

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 7. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following table reconciles net assets available for benefits per the Plan's financial statements to the Form 5500:

	2013	2012

Total contributions receivable	(300)	-
Total refund of excess contributions	13,525	14,600
Total net assets per the Form 5500	$ 13,973,617	$ 10,915,214

The following table reconciles the change in net assets per the financial statements to the Form 5500:

	2013	2012
Increase in net assets per the financial statements	$ 3,059,778	$ 1,455,609
Increase in contributions receivable	(300)	-
Increase (decrease) in refund of excess contributions payable	(1,075)	14,600
Net income per the Form 5500	$ 3,058,403	$ 1,470,209

NOTE 8. TAX STATUS

The Company has adopted a prototype plan from American Funds Distributors, Inc. The Internal Revenue Service has determined and informed American Funds Distributors, Inc. by a letter dated March 31, 2008, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10. SUBSEQUENT EVENTS

The effect of subsequent events on the financial statements has been evaluated through the report date, which is the date the financial statements were available to be issued.
