CHARLES ROSS AND SON COMPANY
401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Plan Description

The following description of the Charles Ross and Son Company 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible employees of Ross Mixing, Inc. and Ross Engineering, Inc. and Charles Ross and Son Company (a New York corporation), and its wholly-owned subsidiary, Ross Systems and Controls LLC, (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility - Employees must be at least 21 years of age and have completed six months of service, as defined in the Plan document, in order to participate in the Plan.

Contributions - Participants may contribute up to 100% of their annual eligible compensation not to exceed the contribution limits established by the Internal Revenue Service for the contribution period. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participant contributions are recorded in the period during which the Company makes payroll deductions from the participants' earnings.

The Company may make discretionary matching contributions at amounts to be determined annually by the Company. Such contributions, if any, are recorded for the year to which the contribution applies. There were no discretionary profit-sharing contributions made during the year ended December 31, 2013.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Vesting - Participants are immediately vested in their voluntary contributions and rollovers plus actual earnings thereon. Vesting in the Company contributions is based on years of service. A participant becomes 20% vested after two years of service, 40% vested after three years of service, 60% vested after four years of service, 80% vested after five years of service and 100% vested after six years of service.

Participant accounts - Each participant's account is credited with the participant's contributions, allocation of the Company's contribution, if any, an allocation of net Plan earnings, and is charged with an allocation of administrative expenses. Such accounts are invested in available investment options in accordance with the participant's direction and the Plan provisions. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested portion of their account balance. The participant loans are secured by the participant's vested balance and are payable through payroll withholdings. Such loans bear a fixed rate of interest at the prime rate at the time the loan is issued. The loans must be repaid to the Plan within a maximum five year period, unless the loan is used for the purchase of a residence, in which case the loan term may be longer. A participant may have only one loan outstanding at a time.

Payment of benefits - Upon termination of service due to death, disability, retirement or separation, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested account balance. A participant may also elect to receive an annuity payment or installment payments based upon the participant's vested account balance, which are paid over certain periods as defined in the Plan.

NOTE 1 - Plan Description (cont.)

Forfeitures - The Plan allows for forfeitures of nonvested account balances to be used to reduce employer contributions. Effective July 18, 2012, the Plan was amended to allow forfeitures of non-vested account balances to be used to pay administrative expenses. There were no forfeitures applied to reduce employer contributions and approximately $15,000 used to pay administrative expenses during the year ended December 31, 2013. At December 31, 2013 and 2012, the balance of forfeited nonvested accounts, and earnings thereon, available to offset future employer contributions and pay administrative expenses totaled approximately $17,000 and $13,000, respectively.

NOTE 2 - Summary of Significant Accounting Policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as, held during the year.

As described in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 962, *"Reporting of Investment Contracts Held by Health and Welfare Pension Plans and Defined Contribution Pension Plans"*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. No adjustment is reflected in the statements of net assets available for benefits as of December 31, 2013 and 2012, and the statement of changes in net assets available for benefits for the year ended December 31, 2013, as contract value approximates fair value.

Benefit payments - Benefits are recorded when paid.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2013 and 2012.

Administrative fees - To the extent that administrative expenses of the plan are not paid by the Company, such expenses may be paid out of the Plan provided that the payments are consistent with ERISA regulations. These expenses include, but are not limited to, expenses for recordkeeping services and other administrative and direct costs incurred with respect to the Plan.

Evaluation of subsequent events - Plan management has evaluated subsequent events through July 29, 2014, the date the financial statements are available for issuance, for inclusion or disclosure in the financial statements.

NOTE 3 - Certified Financial Information

The Plan's assets are invested in various funds. Investments totaling $9,854,291 and $8,684,013, and cash and cash equivalents totaling $10,306 and $19,842 at December 31, 2013 and 2012, respectively, were certified by Transamerica Financial Life Insurance Company as complete and accurate based on the records that it maintains in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investment income totaling $1,203,970 during the year ended December 31, 2013 was also certified by Transamerica Financial Life Insurance Company as complete and accurate based on the records that it maintains.

NOTE 4 - Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012:

	2013	2012
Transamerica Stable Value Advantage	$ 3,815,109	$ 3,525,265
Vanguard Total Stock Market Index	991,921	**
Blackrock Equity Dividend	978,938	748,053

American Funds Growth Fund of America	**	658,314
Transamerica Partners Stock Index	**	648,275

** Did not meet 5% criteria at respective financial statement date.

NOTE 5 - Fair Value Measurements

"Fair Value Measurements" establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in the active market for identical assets or liabilities (Level 1 measurements) and the lowest priority to the unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from and corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 5 - Fair Value Measurements (cont.)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Pooled separate accounts **-** Valued at the net asset value ("NAV") of shares held by the Plan at year end, which are based on the fair market value of the underlying securities or investments in the funds.

Stable fund **-** Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable duration considering the credit-worthiness of the issuer.

The following describes the investment strategy of the Transamerica Stable Value Fund:

The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis, and there is no set maturity. The effective credited interest rate is set semi-annually and effective on the first day of the semi-annual period. Contract charges may reduce this return.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth Level 2 assets of the Plan at December 31, 2013 and 2012:

	2013	2012

NOTE 6 - Investment Contract with Insurance Company

The Plan entered into a benefit-responsive investment contract with Transamerica Financial Life Insurance Company Stable Fund ("Transamerica"). Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value. No adjustment is reflected in the statements of net assets available for benefits as of December 31, 2013 and 2012, and the statement of changes in net assets available for benefits for the year ended December 31, 2013, as contract value approximates fair value.

	Average Yields	
	2013	2012
Based on Actual Earnings	1.70%	2.00%
Based on Interest Rate Credited to Participants	1.70%	2.00%

NOTE 7 - Reconciliation of Financial Statements to Form 5500

The differences between the information reported in the financial statements and the information reported in the Form 5500 arise primarily from presenting the financial statements on the accrual basis of accounting.

The following is a reconciliation of net assets available for benefits at December 31, 2013 and 2012:

	2013	2012
Net Assets Available for Benefits per the Financial Statements	$10,033,853	$ 8,840,611
Contribution Payable Not Reflected on Form 5500	924	-
Net Assets Available for Benefits per Form 5500	$10,034,777	$ 8,840,611

The following is a reconciliation of the changes in net assets available for benefits during the year ended December 31, 2013:

	Amount
Changes in Net Assets Available for Benefits per the Financial Statements	$ 1,193,242
Contribution Payable Reflected in the Current Year	924
Changes in Net Assets Available for Benefits per Form 5500	$ 1,194,166

NOTE 8 - Tax Status

The prototype Plan sponsor obtained an opinion letter dated May 30, 2008, in which the Internal Revenue Service ("IRS") stated that the restated prototype Plan document was in compliance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has since been amended. However, the Plan administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 - Related Party Transactions

Certain Plan investments are shares of funds managed by Transamerica Asset Management. Plan recordkeeping and administration services are provided by Transamerica Retirement Services Corporation, an affiliated entity. These transactions qualify as party-in-interest transactions. Purchases and sales of these funds are open market transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA and applicable exemptions promulgated thereunder.

NOTE 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
