LOGIC PD 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan

The following description of the Logic PD 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under Section 401(k) of the Internal Revenue Code (IRC) whereby contributions to the Plan consist of participant salary reduction deferrals, discretionary matching Company contributions, and discretionary non-elective Company contributions. The Plan sponsor, administrator, and employer is Logic PD, Inc. (the Company). The Plan sponsor and administrator appointed Fidelity Management Trust Company, as the Trustee and recordkeeper of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Substantially all employees who have completed one month of service and are at least 18 years of age are eligible to participate in the Plan.

Contributions

Participants may contribute up to the maximum allowed by the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). In addition, participants are also able to make Roth contributions to the Plan. If the participant is 50 years of age or older, they may elect to defer additional amounts that are not to exceed \$5,500 (catch-up contributions) for the year ended December 31, 2013.

The Company's matching contribution for the year end December 31, 2013 was equal to 50% of the first 6% of the participant's salary, with a maximum match of 3% of the participant's salary.

Each Plan year, the Company will determine whether to make a separate profit sharing contribution. The Company did not make a separate profit sharing contribution to the Plan for the year ended December 31, 2013.

Participant Accounts

Participants can designate the investment of their accounts from various funds with pre-selected investment objectives.

Each participant's account is credited with the participant's salary reduction deferral, Roth, catch-up contributions, rollover contributions and an allocation of the Company's contributions, if any, and Plan earnings. Individual accounts are charged with an allocation of administrative expenses. Earnings from the fund are allocated on the basis of participant account balances invested in the respective funds.

LOGIC PD
401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan (cont.)

Investment Options

All investments in the Plan are participant directed. The Plan offers various investment options consisting of mutual funds.

Vesting

Participants are immediately vested in their salary reduction deferrals, Roth, catch-up contributions, rollover contributions, safe harbor matching contributions, and the earnings thereon.

Vesting in the Company's matching contributions is based on years of continuous service as follows: 20% after one year, 40% after two years, 60% after three years, 80% after four years, and 100% after five years. Vesting in the Company's discretionary profit sharing contributions, if any, is based on years of continuous service as follows: 20% after two years, 40% after three years, 60% after four years, 80% after five years, and 100% after six years. Each participant also becomes 100% vested on termination of service due to death, disability, termination of the Plan, or upon normal retirement age as defined by the Plan.

Forfeited Non-Vested Accounts

As of December 31, 2013 and 2012, forfeited nonvested accounts totaled \$25,709 and \$1,234, respectively. These accounts are used to reduce Company matching contributions or to pay expenses in future Plan years. During the year ended December 31, 2013, the Plan used \$4,083 from forfeited nonvested accounts to pay Plan administration expenses.

Payment of Benefits

On termination of service, a participant (or in case of death, the participant's beneficiary) will receive a single lump sum equal to the value of his or her vested account balance if this balance does not exceed \$1,000 or may choose a) lump sum payment, b) a rollover to another IRA or qualified plan, c) part lump sum, and part installments or d) installment payments if this balance exceeds \$1,000. Participants experiencing financial hardship may withdraw a portion of their account balance as defined in the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested salary reduction deferral account balance. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the administrator. The interest rate the administrator determines must be commercially reasonable and once determined, will remain constant throughout the term of the loan. Interest rates at December 31, 2013 ranged from 5.5% to 7.25%. Principal and interest is paid ratably through payroll deductions. Notes receivable from participants are recorded at amortized cost plus accrued interest.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA.

LOGIC PD
401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan (cont.)

Administrative Expenses

Substantially all of the Plan's administrative expenses have been paid by the Company.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 Fair Value of Financial Instruments for details on inputs, valuation techniques, and fair value measurement level within the fair value hierarchy.

Net appreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

NOTE 4 - Fair Value of Financial Instruments

The Plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported, and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- > quoted prices for similar assets or liabilities in active markets;
- > quoted prices for identical or similar assets or liabilities in inactive markets;
- > inputs other than quoted prices that are observable for the asset or liability;
- > inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

There have been no changes in the methodologies used as of December 31, 2013 and 2012. The Plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - Plan Tax Status

The Plan obtained a determination letter on March 31, 2008, in which the Internal Revenue Service (IRS) determined that the Plan, as then designed, met the requirements of Section 401(a) of the IRC and was exempt from federal income tax under Section 501(a) of the IRC. The Plan has been amended since receiving the determination letter. The Plan Sponsor has submitted a request to the IRS for a new determination letter. The IRS has acknowledged receipt of the request but has not issued a new determination letter as of July 16, 2014. The Plan administrator and the Plan's tax counsel believe that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt at the financial statement date.

NOTE 5 - Plan Tax Status (cont.)

United States generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan. The financial statements effect of a tax position is recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 6 - Parties-In-Interest

Certain Plan investments are shares of mutual funds managed by the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7 - Reconciliation of Financial Statements to Schedule H Form 5500

The financial statements have been prepared using the accrual method of accounting while the Plan's form 5500 has been prepared on the modified cash-basis method of accounting. The reconciliation between the financial statements and form 5500 for the year ended December 31, 2013 is as follows:

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan

The following description of the Logic PD 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under Section 401(k) of the Internal Revenue Code (IRC) whereby contributions to the Plan consist of participant salary reduction deferrals, discretionary matching Company contributions, and discretionary non-elective Company contributions. The Plan sponsor, administrator, and employer is Logic PD, Inc. (the Company). The Plan sponsor and administrator appointed Fidelity Management Trust Company, as the Trustee and recordkeeper of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Substantially all employees who have completed one month of service and are at least 18 years of age are eligible to participate in the Plan.

Contributions

Participants may contribute up to the maximum allowed by the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). In addition, participants are also able to make Roth contributions to the Plan. If the participant is 50 years of age or older, they may elect to defer additional amounts that are not to exceed \$5,500 (catch-up contributions) for the year ended December 31, 2013.

The Company's matching contribution for the year end December 31, 2013 was equal to 50% of the first 6% of the participant's salary, with a maximum match of 3% of the participant's salary.

Each Plan year, the Company will determine whether to make a separate profit sharing contribution. The Company did not make a separate profit sharing contribution to the Plan for the year ended December 31, 2013.

Participant Accounts

Participants can designate the investment of their accounts from various funds with pre-selected investment objectives.

Each participant's account is credited with the participant's salary reduction deferral, Roth, catch-up contributions, rollover contributions and an allocation of the Company's contributions, if any, and Plan earnings. Individual accounts are charged with an allocation of administrative expenses. Earnings from the fund are allocated on the basis of participant account balances invested in the respective funds.

401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan (cont.)

Investment Options

All investments in the Plan are participant directed. The Plan offers various investment options consisting of mutual funds.

Vesting

Participants are immediately vested in their salary reduction deferrals, Roth, catch-up contributions, rollover contributions, safe harbor matching contributions, and the earnings thereon.

Vesting in the Company's matching contributions is based on years of continuous service as follows: 20% after one year, 40% after two years, 60% after three years, 80% after four years, and 100% after five years. Vesting in the Company's discretionary profit sharing contributions, if any, is based on years of continuous service as follows: 20% after two years, 40% after three years, 60% after four years, 80% after five years, and 100% after six years. Each participant also becomes 100% vested on termination of service due to death, disability, termination of the Plan, or upon normal retirement age as defined by the Plan.

Forfeited Non-Vested Accounts

As of December 31, 2013 and 2012, forfeited nonvested accounts totaled \$25,709 and \$1,234, respectively. These accounts are used to reduce Company matching contributions or to pay expenses in future Plan years. During the year ended December 31, 2013, the Plan used \$4,083 from forfeited nonvested accounts to pay Plan administration expenses.

Payment of Benefits

On termination of service, a participant (or in case of death, the participant's beneficiary) will receive a single lump sum equal to the value of his or her vested account balance if this balance does not exceed \$1,000 or may choose a) lump sum payment, b) a rollover to another IRA or qualified plan, c) part lump sum, and part installments or d) installment payments if this balance exceeds \$1,000. Participants experiencing financial hardship may withdraw a portion of their account balance as defined in the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested salary reduction deferral account balance. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the administrator. The interest rate the administrator determines must be commercially reasonable and once determined, will remain constant throughout the term of the loan. Interest rates at December 31, 2013 ranged from 5.5% to 7.25%. Principal and interest is paid ratably through payroll deductions. Notes receivable from participants are recorded at amortized cost plus accrued interest.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA.

LOGIC PD
401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan (cont.)

Administrative Expenses

Substantially all of the Plan's administrative expenses have been paid by the Company.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 Fair Value of Financial Instruments for details on inputs, valuation techniques, and fair value measurement level within the fair value hierarchy.

Net appreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

NOTE 4 - Fair Value of Financial Instruments

The Plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported, and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- > quoted prices for similar assets or liabilities in active markets;
- > quoted prices for identical or similar assets or liabilities in inactive markets;
- > inputs other than quoted prices that are observable for the asset or liability;
- > inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

There have been no changes in the methodologies used as of December 31, 2013 and 2012. The Plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - Plan Tax Status

The Plan obtained a determination letter on March 31, 2008, in which the Internal Revenue Service (IRS) determined that the Plan, as then designed, met the requirements of Section 401(a) of the IRC and was exempt from federal income tax under Section 501(a) of the IRC. The Plan has been amended since receiving the determination letter. The Plan Sponsor has submitted a request to the IRS for a new determination letter. The IRS has acknowledged receipt of the request but has not issued a new determination letter as of July 16, 2014. The Plan administrator and the Plan's tax counsel believe that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt at the financial statement date.

NOTE 5 - Plan Tax Status (cont.)

United States generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan. The financial statements effect of a tax position is recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 6 - Parties-In-Interest

Certain Plan investments are shares of mutual funds managed by the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7 - Reconciliation of Financial Statements to Schedule H Form 5500

The financial statements have been prepared using the accrual method of accounting while the Plan's form 5500 has been prepared on the modified cash-basis method of accounting. The reconciliation between the financial statements and form 5500 for the year ended December 31, 2013 is as follows:
