1. Description of the Plan

The following description of the **Southwest Traders, Inc. 401(k) Plan** ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by **Southwest Traders, Inc.** ("the Company") on June 1, 1994 to enable eligible employees to share in the Company's earnings and permits employees to make pre-tax contributions to the Plan; thereby, providing employees with an opportunity to accumulate funds for their retirement. The Plan covers substantially all employees of the Company and is administered by the Company. The Plan Custodian, Transamerica Life Insurance Company, has the authority and responsibility for the management and investment of Plan assets.

Participants in the Plan may choose to have their deferral and employer match contributions allocated among 34 investment options. There are no non-participant directed funds.

Eligibility

The Plan covers all employees who have reached age 18 and have completed three months of service. Participants are eligible to participate in the Plan on the first day of January, April, July and October following eligibility.

Contributions

Each participant may contribute up to 17% of their annual pre-tax compensation subject to an annual limitation imposed by Internal Revenue Service regulations.

The Company may make discretionary contributions to the 401(k) component of the Plan. The Company made no contributions to the Plan for the year ended December 31, 2012.

Vesting

The portions of the participant's account attributable to elective deferral contributions and rollover contributions are 100% vested and non-forfeitable.

Employer contributions vest 20% after two years of service, as defined in the Plan agreement, and an additional 20% for each year of service thereafter until fully vested.

Forfeitures

Unvested employer contributions forfeited by terminated employees are used to reduce future employer contributions. For the year ended December 31, 2012, the Plan did not use forfeited funds to reduce employer contributions. Unallocated forfeitures as of December 31, 2012 were $29,951.

Allocations

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants

The Plan allows participants to borrow against a portion of their vested account balances. Loans may not be made for less than $1,000 and may not exceed the lesser of $50,000 or 50% of a participant's vested account balance. Loan repayment periods may not exceed five years, except loans used to acquire a principal residence. In such case, a reasonable repayment period in excess of five years shall be established by the Plan. Loans bear a reasonable rate of interest determined by the Plan. Principal and interest must be paid through a definite repayment schedule, which provides for payments to be made not less frequently than quarterly.

Benefit payments

Upon termination of service due to death, disability, or retirement, a participant (or beneficiary) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or annual installments over a period. For termination of service for other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution.

Participants may withdraw any or all of their vested account balances at any time during the Plan year provided certain hardship conditions, as defined in the Plan agreement, have been met.

Plan termination

While the Company has not expressed any intent to terminate the Plan, in the event of such a termination, the Plan agreement provides that the participants' accounts become fully vested and non-forfeitable upon termination of the Plan. The funds shall remain on deposit until a

Plan termination, cont'd

method of distribution is elected in accordance with the provisions of the Plan agreement upon a participant's termination of service, retirement, or death, whichever occurs first.

Plan expenses

Direct costs and expenses related to the operation and administration of the Plan are paid from Plan assets and may be reimbursed by the Company.

2. Summary of Significant Accounting Policies

A summary of the Plan's significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

Basis of accounting

The Plan uses the accrual basis of accounting in conformity with U.S. generally accepted accounting principles ("U.S. GAAP").

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from these estimates.

Fair value measurements

The Financial Accounting Standards Board ("FASB") establishes authoritative guidance on fair value measurements which provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Level 1 – Valuation is based upon quoted prices in active markets for identical assets or liabilities.

Level 2 – Valuation is based upon other significant observable inputs (including quoted prices for similar assets or liabilities in active markets, identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, etc.).

Fair value measurements, cont'd

Level 3 – Valuation is based upon significant unobservable inputs, including the reporting entity's own assumptions in determining the fair value of investments.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the years ended December 31, 2012 and 2011.

Pooled separate accounts: Valued at estimated fair value as determined by the issuer of the pooled separate account based on fair market value of the underlying investments.

Stable value fund: Valued at fair value, which represents contributions, reinvested income, less any withdrawals, plus accrued interest.

Life insurance policy: Valued at fair value. The fair value of the policy equals its cash surrender value.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

Investment valuation and income recognition

Pooled separate accounts are stated at fair value based on the net asset value of units held by the Plan at the respective year end. The Plan's stable value fund is valued at fair value, which represents contributions, reinvested income, less any withdrawals, plus accrued interest. The Plan's life insurance policy is stated at the cash surrender value, which approximates fair value.

Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date. Realized gains and losses on investments are recognized upon the sale of the related investments and unrealized appreciation or depreciation is recognized at year end when the carrying values of the related investments are adjusted to their estimated fair market value. Purchase and sales of securities are reflected on a trade-date basis.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation or depreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments. Earnings or losses on investments are allocated on a pro rata basis to individual participant accounts based on the type of investment and the ratio of each participant's individual account balance to the aggregate of participant account balances. The portion of interest included in each loan payment made by a participant is recognized as interest income in the participant's individual account.

Notes receivable from participants

Notes receivable from participants are valued at the amount of unpaid principal, which approximates fair value. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan agreement.

3. Information Certified by the Plan's Custodian (Unaudited)

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Custodian

All Plan assets are held by the Plan's Custodian, who is responsible for the maintenance of all accounting records and the preparation of reports of activity related to those assets. The Custodian has certified to the Plan Administrator the completeness and accuracy of the financial information and data presented below.

The following investments represent 5% or more of the Plan's net assets available for benefits as of December 31:

Description of Investment	**2012**	2011
Vanguard Target 2020	**$ 783,755**	$ 973,111
Vanguard Target 2025	**$ 535,602**	$ 513,783
Vanguard Target 2030	**$ 412,677**	$ 395,870
Vanguard Target 2040	**$ 389,712**	$ 371,893
Vanguard Target 2035	**$ 355,526**	$ 354,186
Vanguard Target 2045	**$ 243,498**	$ 275,838

Notes receivable from participants were $316,654 and $190,599 as of December 31, 2012 and 2011, respectively.

Interest income on notes receivable from participants

Interest income on notes receivable from participants was $12,286 for 2012.

Net appreciation in market value of investments

During 2012 the fair values of the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $481,636.

4. Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes

4. Tax Status, Cont'd

that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

5. Party-In-Interest Transactions

Certain Plan assets are invested in Custodian accounts. Two officers of the Company serve as the Plan's Trustees and are participants in the Plan. An employee of the Company serves as the Plan's administrator and is a participant in the Plan. These transactions qualify as party-in-interest transactions.

6. Pending Distributions

There were no Plan assets allocated to participants who had elected to withdraw from the Plan as of December 31, 2012.

7. Delinquent Filer

For the 2012 plan year, the Plan was delinquent in meeting its filing requirements related to Form 5500. As a result of the deficiency, it is possible that the Department of Labor could commence an audit of the Plan, which may jeopardize the tax-exempt status of the Plan or result in significant fines and penalties. The Plan Administrator and management of the Plan Sponsor believe that if the Department of Labor were to commence an audit, the outcome would not have a material impact on the Plan's financial statements or supplemental schedule.

8. Reconciliation of the Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 to Form 5500:

	2012
Net assets available for benefits per the financial statements	$ 4,342,875
Subtract: Life Insurance Policy	14,200
Net assets available for benefits per Schedule H of the Form 5500	$ 4,328,675
