Independent Auditor's Report

To the Participants and Committee of Trustees
Inwood National Bank 401(k) Plan
Dallas, Texas

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Inwood National Bank 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Charles Schwab Bank, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental schedule, Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year), as of December 31, 2013, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of Inwood National Bank 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan whereby eligible employees of Inwood National Bank, N.A. (the Company) are permitted to make contributions that are tax-deferred under Section 401(k) of the Internal Revenue Code (the Code). The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 29, 2013, the Plan was amended to allow automatic distributions from the Plan for any participants who terminated employment, and had a total vested benefit under the Plan of $5,000, or less.

Eligibility: Employees become eligible for participation at the age of eighteen and upon completing three months of continuous service, as defined by the Plan. Employees may begin participating the first day of the quarter following satisfaction of the minimum age and service requirements.

Contributions: Each year, participants may elect to contribute a portion of pretax compensation from 1% to 90%, subject to certain maximum limitations imposed by the Internal Revenue Code. Participants are automatically enrolled to contribute 3% of their pretax compensation upon becoming eligible unless elected otherwise. Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan Sponsor may make discretionary matching contributions equal to 50% of the participant's deferral contributions, not to exceed 15% of employees' pretax compensation. The Company may also make additional discretionary contributions. The plan elected to use approximately $10,000 of forfeitures as additional employer discretionary contributions during the year.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions, (b) the Company's discretionary contributions and (c) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's vested account.

Investment options: Participants must direct their contributions to selected investments as made available and determined by the Plan sponsor. Participants may change their investment options any time throughout the year via internet or direct phone access to Charles Schwab Bank, the trustee. The Plan currently offers a collective investment trust and various mutual funds for participants to invest in. Additionally, the Plan offers a brokerage account option to participants. The participants are responsible for selecting the investments within their brokerage account.

Vesting: Participant contributions plus actual earnings are immediately vested and nonforfeitable. Employer contributions vest to participants based upon years of continuous service. Participants are vested in employer contributions based upon the following schedule:

Years of Service	Vesting Percentage
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Forfeitures: Forfeitures of nonvested Company matching and discretionary contributions by participants who withdraw from the Plan are retained by the Plan and may be used by the Plan to reduce the Company's matching contribution, to pay Plan expense, or as additional employer match. At December 31, 2013 and 2012, unused forfeited nonvested employer contributions amounted to approximately $10,000 and $11,000, respectively. Amounts forfeited during 2013 were approximately $9,000. The Plan used forfeitures of approximately $10,000 as additional employer matching contributions during the year.

Payment of benefits: On termination of service due to death, disability or retirement, payments of benefits are made in an amount equal to the value of the participant's vested interest in their account in a lump-sum distribution, unless a participant elects to delay the distribution as specified in the provisions of the Plan. If a participant's account balance is $5,000 or less, the participant will automatically receive a single lump sum distribution of their entire account balance. Amounts rolled over from another qualified plan will be excluded in determining whether the $5,000 threshold has been exceeded. The Plan also allows participants to make hardship withdrawals, subject to certain limitations as defined.

Notes receivable from participants: Notes receivable are available to all participants at an interest rate comparable to rates offered by commercial lending institutions with periodic repayment through payroll deductions over a period not generally extending beyond five years unless the note receivable is used to purchase a principal residence. Notes receivable balances outstanding at December 31, 2013 are due at varying dates through November 2018 and bear interest of 4.25%. Participants may borrow from their participant accounts a minimum of $1,000 to a maximum of the lesser of $50,000 or 50% of their vested account balance. Only one loan may be outstanding at a time.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are presented on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective investment trust. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective investment trust as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent loans are treated as an asset on the Statements of Net Assets Available for Benefits, and continue to accrue interest until they are considered to be in default. Notes receivable are considered to be in default according to terms of the Plan. Notes in default are classified as distributions on the Statement of Changes in Net Assets Available for Benefits.

Payment of benefits: Benefits are recorded when paid.

Income taxes: Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2010.

Administrative expenses: Certain administration functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Plan.

Subsequent events: The Plan Administrator has evaluated events and transactions for potential recognition or disclosure through July 24, 2014, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided By Charles Schwab Bank

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the assets listed below.

Assets that represent 5% or more of the Plan's net assets as of December 31, 2013 and/or December 31, 2012 are separately identified as follows:

	2013	2012

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurement and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012, and there were no transfers between levels during the year ended December 31, 2013.

Mutual funds: Mutual funds are valued based on the quoted market prices in the active market in which they are traded.

Collective investment trust: The Plan's interest in the collective trust is reported at fair value based on the unit values of the funds. Unit values are determined by the institution sponsoring such funds by dividing each fund's net assets at fair value by its units outstanding at each valuation date.

Money market funds: Money market funds are carried at cost which approximates fair value.

Brokerage accounts: Brokerage accounts include investments in mutual funds, money market accounts and common stocks. The fair value of mutual funds and money market funds held in brokerage accounts is determined as described above. The fair value of common stocks included in brokerage accounts is valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

The following table sets forth additional disclosure of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2013 and 2012:

	Fair Value		Unfunded	Redemption	Redemption
Investment	**2013**	2012	Commitment	Frequency	Notice Period
Collective investment trust (a)	**$ 2,015,465**	$ 1,935,517	-	Immediate	12 months

(a) This category consists of a stable value fund which seeks current income by investing primarily in insurance contracts issued by insurance companies and financial institutions and security-backed contracts that offer stability of principal. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of underlying assets.

At December 31, 2013 and 2012, an investment option available to participants was the Wells Fargo Stable Value Fund C (the "Fund"), a large stable value collective trust fund. At December 31, 2013, the Fund was 100% invested in the Wells Fargo Stable Return Fund G, sponsored by Wells Fargo Bank, N.A., whose investments include investment contracts issued by insurance companies and other financial institutions. The contract value of the Fund is based on the underlying unit values reported by the collective trust fund investment. The Fund is included in the financial statements at contract value and fair value as reported to the Plan by wells Fargo. Contract value represents the contributions made under the contract, plus earnings, less participant withdrawals.

The Fund requires a 12-month notice from plan sponsors for withdrawal of the Plan's assets from the Fund. This requirement, sometimes referred to as a '12-month put,' minimizes the impact from the actions of one or more plan sponsors from adversely impacting other plan investors, reduces the need for excess liquidity to accommodate potential withdrawals, thereby allowing the Fund manager to more fully invest the Fund's assets and optimize yield and makes wrap contracts, which are essential to the stable value product, more accessible and less expensive than they would otherwise be. Providers of these contracts view the 12-month notice as an important element for a healthy stable value fund. Stable value crediting rates tend to lag market rates when there is a significant move up or down in interest rates. The risk is managed by introducing a requirement that Plan participants may not transfer their assets from the Stable Return Fund directly into a "competing" investment option, such as a money market fund. In order to transfer assets in their account from the Stable Return Fund to a competing option, participants must first transfer the assets into a non-competing option for at least 90 days.

The yield earned by the Fund at December 31, 2013 and 2012 was 1.36% and 0.94%, respectively. This represents the annualized earnings of all investments in the Fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the Fund at December 31, 2013 and 2012, respectively.

The yield earned by the Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund at December 31, 2013 and 2012 was 1.52% and 1.95%, respectively. This represents the annualized earnings credited to the participants in the Fund, divided by the fair value of all investments in the Fund at December 31, 2013 and 2012, respectively.

Note 5. Party-In-Interest Transactions

Parties-in-interest are defined under DOL Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. As such, transactions conducted by the Company, Charles Schwab Bank, the Plan's trustee, and the Plan's record keeper, July Business Services, qualify as party-in-interest transactions.

Note 6. Income Tax Status

The Plan has adopted a non-standardized form of a prototype plan sponsored by July Business Services. The prototype plan has received an opinion letter, dated March 31, 2008, from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 7. Plan Termination

While it has expressed no intention to do so, the Company has the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their entire account balances and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 8. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
