NOTE 1 - DESCRIPTION OF PLAN

The following description of the Engineered Glass Products, LLC Savings Plan ("the Plan") is provided for general information only. Participants should refer to the plan agreement for more complete information regarding plan provisions.

General: The Plan is a defined contribution plan sponsored by Engineered Glass Products, LLC ("the Company"), which covers all salaried employees and members of other groups of employees authorized by the Board of Directors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility: Under the provisions of the Plan, employees covered under the Plan are eligible to participate after completing three months of service and attaining the age of 21.

Contributions: Participants may make contributions to the Plan from 1% to 40% of their compensation through pre-tax salary deferrals, subject to IRS tax limitations. The Company matches 100% of non-union employees' contributions up to $700 per year. The Company matches 50% of union employees' contributions up to $700 per year. The Company, at its discretion, may make an additional profit sharing contribution to the Plan during the plan year for non-union employees. In 2013, the Company approved a discretionary contribution in the amount of $278,336.

A participant who terminates before the end of the period for which contributions are allocated shall not share in the allocation of employer matching contributions if the termination of employment was the result of retirement, disability, death, or involuntary termination as determined by the Company.

Participant Accounts: Individual account balances are maintained for each participant. Each participant's account is credited with the participant's contribution and their allocations of Company contributions and plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of their account to any of the investment options available under the Plan.

Vesting: Participants are 100% vested at all times in the value of their contributions and 100% vested in the Company's matching contribution as of the last day of the period (December 31). The Company's profit sharing contribution is subject to the following vesting schedule:

Number of Completed Years of Service	Vested Percentage
2 years	20%
3 years	40
4 years	60
5 years	80
6 years	100

Payment of Benefits: Under the terms of the Plan, participants are eligible for benefits upon reaching their early retirement date (the age of 55 and 5 years of continuous service) or normal retirement date (the age of 65). A participant may be eligible for a withdrawal due to financial hardship in certain circumstances. Upon the retirement, death, or total and permanent disability of a participant, the total value in that participant's accounts will be paid.

The value of the participant's accounts can be paid as a single lump sum or in monthly, quarterly, semiannual, or annual installments over a period not exceeding ten years. If a participant's employment with the Company terminates for any reason other than as stated above, the participant is entitled to the value of his or her participant 401(k) account and the vested portion of his or her employer contribution account.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined at the time of the loan by the plan administrator. Principal and interest are paid through automatic deduction from the employee's bank account.

Forfeited Accounts: Forfeitures of employer contributions and the earnings on those contributions resulting from participants who leave the Company prior to vesting are retained in an unallocated forfeiture account. The Company has the option to offset future employer contribution amounts or to reduce administrative expenses of the Plan with the forfeitures. At December 31, 2013 and 2012, forfeited accounts totaled $9,169 and $256, respectively. No forfeited amounts were used during 2013 to reduce the 2012 employer contributions to the Plan.

Administrative Expenses: Certain administrative expenses of the Plan, including trust, management, and legal fees, are paid by the Plan. Certain professional fees are paid by the Company. Investment management fees and certain operating expenses charged to the Plan for investments in the pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, these management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates. It is at least reasonably possible that a significant change may occur in the near term in the estimated fair value of the Plan's investment in the investment contract with Minnesota Life Insurance Company.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investments, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Investment Contract: The fair value of the Plan's guaranteed return investment contract has been determined by the insurance company issuer to approximate contract value based upon the broad application of the measurement principles of an income approach (Level 3 inputs), as the terms of the contract provide for all distributions at contract value, frequent resetting of contractual interest rates to market rates of interest, no significant liquidity restrictions and no defined maturities. In addition, management has determined that no adjustment from contract value is required for credit quality considerations. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. The terms of this investment contract and those of investment contracts held by employee benefit plans generally prohibit the sale or transfer of the contract by the plan/contract holder. See Note 4 for further details.

Pooled Separate Accounts: The fair values of participation units held in pooled separate accounts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (Level 2 inputs). Each of the pooled separate accounts invests in a single, open-ended mutual fund which is generally identified in the name of the pooled separate account. The investment strategies of these pooled separate accounts are consistent with each of the mutual funds identified in the name of the fund. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The table below presents a reconciliation of Plan investments measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the year ended December 31, 2013, including the reporting classifications for the applicable gains and losses included in the statement of changes in net assets available for benefits:

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) (Investment Contract)
Beginning balance, January 1, 2013	$ 1,798,484
Total gains or losses included in change in net assets available for benefits:	
Interest income on investment contracts held at end of year	36,348
Purchases	268,520
Sales and settlements	(139,851)
Ending balance, December 31, 2013	$ 1,963,501

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in a fully benefit-responsive contract. No adjustments from fair value to contract value are presented in the 2013 and 2012 statements of net assets available for benefits, as the fair value of the investment contract has been estimated to approximate its contract value.

NOTE 3 - UNAUDITED INFORMATION - CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Minnesota Life Insurance Company, the custodian of the Plan. This information has not been audited by independent accountants.

(Continued)

NOTE 3 - UNAUDITED INFORMATION - CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS (Continued)

The following table presents the fair values of investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2013 and 2012:

	2013	2012
Minnesota Life Insurance Company Pooled Separate Accounts:		
Vanguard Interm-Term Bond Index I	$ 424,271	$ 415,864
T. Rowe Price Large Cap Growth	624,892	411,212
Vanguard Windsor II Adm	565,463	577,728
Dodge & Cox International Stock	472,406	347,212
Invesco SmallCap Value Y	476,489	307,030
Minnesota Life Insurance Company Investment Contract:		
Guaranteed Return Account	$1,963,501	$1,798,484

During the year ended December 31, 2013, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $791,687. Interest income, excluding interest income on notes receivable from participants, was $36,348 during 2013.

NOTE 4 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds a fully benefit-responsive investment contract with Minnesota Life Insurance Company ("Issuer"). The Issuer maintains the contributions in its general account. The account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances which would allow the Issuer to terminate the contract include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

(Continued)

NOTE 4 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

The crediting interest rate of the contract is based on an agreed-upon formula with the Issuer, as defined in the contract agreement, but cannot be less than 1.5% percent. Such interest rates are reviewed on a quarterly basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract. The resulting gain or loss in the fair value of the investment contract relative to its contract value, if any, would be reflected in the Statement of Net Assets Available for Benefits as *Adjustment from fair value to contract value for fully benefit-responsive investment contracts.* No adjustment is reflected in the Plan's 2013 or 2012 statement of net assets available for benefits, as the fair values of the investment contracts have been estimated to approximate their contract values.

Average yields:

	2013	2012
Based on annualized earnings [1]	1.94%	2.20%
Based on interest rate credited to participants [2]	1.94%	2.20%

[1] Computed by dividing the annualized one-day actual earnings of the contract on the last day of the plan year by the fair value of the contract investments on the same date.

[2] Computed by dividing the annualized one-day earnings credited to participants on the last day of the plan year by the fair value of the contract investments on the same date.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions and earnings thereon.

NOTE 6 - TAX STATUS

The Plan is stated on a prototype document that has received a favorable opinion letter from the IRS dated March 31, 2008. Since the Plan is using a prototype document that has received a favorable opinion letter, the Plan is not required to file for an individual determination letter. The Plan has been amended since the adoption of the prototype plan; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The party-in-interest investments consist of pooled separate accounts and an investment contract issued by Minnesota Life Insurance Company, the plan custodian. Notes receivable from participants also qualify as party-in-interest transactions. Certain administrative expenses of the Plan, including trust, management, and legal fees, are paid by the Plan. Certain professional fees are paid by the Company.

The Plan adopted Principal's volume submitter plan document, which had been approved by the Internal Revenue Service on March 31, 2008.
