Note 1 - Description of the Plan

The following description of the Employee Savings Plan of Continental Graphics Corporation (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a non-standardized prototype defined contribution 401(k) plan covering certain employees of Continental Graphics Corporation and its subsidiary Inmedius, Inc. (collectively, the Company). An employee becomes eligible to participate on the first day of the month following or coincident with the date they attain age 21 and complete 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration - Charles Schwab Bank (Schwab) is the custodian of the Plan. Schwab Retirement Plan Services Company is the Plan's record keeper.

Contributions - Contributions to the Plan are in the form of salary reductions which participants have elected to defer in lieu of current compensation. Participants may elect to contribute, subject to statutory limitations, up to 100% of their eligible compensation. Participants age 50 or older are allowed to make catch-up contributions. Participants may elect to change contribution percentages to be effective the next pay period after the request is received or as soon as administratively possible. The allocation of both their contributions and employer contributions to the funds may be changed at any time and become effective on the day of the change or the next business day based on the day and time the request for a change is made in relation to the stock market close of business. The Plan allows active employees to contribute to the Plan from pre-tax compensation, after tax compensation or a combination of both. The Plan also accepts certain rollover contributions from other tax-qualified retirement plans.

Full time employees are eligible for the Company's matching contribution. Part time employees are eligible for the Company's matching contribution in any year they complete 1,000 or more hours of service in a consecutive 12-month period. The Company matches 50% of the employee's contribution up to 8% of the employee's annual eligible compensation. The Company does not match catch-up contributions.

Participant Accounts - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, any Company contributions, and allocations of Plan earnings (losses) from the funds in which the account is invested, and charged with an allocation of investment-related expenses and participant-specific charges, if applicable. Allocations are based on participant earnings, account balances or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of the Plan (Continued)

Vesting - Participants are fully vested in their rollover and elective contributions including accumulated earnings. A participant is 100% vested in Company contributions after one year of credited service and also upon death, disability or upon reaching early or normal retirement age. Generally, a participant must work at least 1,000 hours during a consecutive 12-month period to earn a year of service for vesting purposes.

Forfeitures - Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and may be used to pay administrative expenses or reduce future Company contributions. At December 31, 2013 and 2012, forfeited amounts held under the Plan totaled $939 and $1,730, respectively. In 2013, employer contributions were reduced by $1,840 from forfeited accounts.

Withdrawals - Participants may elect to withdraw all or a portion of their pre-tax and after tax contribution accounts and rollover accounts at any time on or after the day the participant attains age 59-1/2. If a participant is under age 59-1/2, withdrawals from pre-tax and after tax contribution accounts are subject to certain hardship rules as provided by the Plan. If a participant takes a hardship withdrawal, the participant's salary deferrals are suspended for six months from the date of the hardship withdrawal.

Notes Receivable from Participants - Participants may borrow a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their total vested account balance at the time of the loan issuance and may have only one loan outstanding at any time. Loans receivable from participants must be repaid within five years or within ten years if the loan is for the purchase of a primary residence. The interest rate for the loan is established at the time the loan is originated based on prevailing commercial rates. Interest rates on outstanding loans ranged from 4.25% to 7.50% at December 31, 2013, with loans maturing at various dates through April 2023.

Benefit Payments - On termination of service, if the participant's vested balance (excluding rollover contributions) is $5,000 or less, the balance will be distributed to the participant in a lump sum as soon as administratively feasible. Upon a participant's death or retirement due to total and permanent disability, a participant's account balance becomes fully vested and non-forfeitable and will be distributed in a lump sum as soon as administratively feasible. If a participant makes no distribution election, annual distributions of the required minimum amount will begin after age 70-1/2.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan's investments are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

Valuation of Investments and Income Recognition - The Plan's investments are stated at fair value. Fair value of the financial instrument is the price that would be received to sell an asset or paid to transfer a liability ("exit price") in an orderly transaction between market participants at the measurement date. The Plan's investments are valued as follows:

- **Mutual Funds** - The Plan's investments in mutual funds, which are registered investment companies, and the money market fund are valued at the net asset value (NAV) of shares held by the Plan at year end as quoted in an active market.

- **Self-directed Brokerage Accounts** - The Plan's investments in self-directed brokerage accounts include stocks, bonds, mutual funds, exchange-traded funds and fixed income investments such as corporate and government bonds and are valued using quoted market prices of the investments.

- **Collective Trust Fund** - The collective trust fund held as of December 31, 2012 was composed of a mix of stocks, bonds and stable value funds. The fund was valued based on the NAV per share/unit at the close of each business day.

Purchases and sales of securities are recorded on a trade-date basis, and dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis of accounting. Net appreciation or depreciation in fair value of investments consists of gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis.

Payment of Benefits - Benefits are recorded when paid.

Expenses - Necessary and proper expenses of the Plan are paid from the Plan's assets, except for those expenses the Company is required by law or chooses to pay.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The Plan has evaluated subsequent events through July 28, 2014, the date the financial statements were available to be issued.

Recently Adopted Accounting Guidance - In December 2011 and January 2013, the Financial Accounting Standards Board issued guidance requiring expanded disclosures, including both gross and net information, for derivatives, repurchase and reverse repurchase agreements, and securities borrowing and securities lending transactions that are either offset in the reporting entity's financial statements or those that are subject to an enforceable master netting arrangement or similar agreement. The Plan adopted the new guidance in 2013. The new guidance affects disclosures only and therefore had no impact on the statements of net assets and changes therein. Plan management has determined that adoption of the accounting guidance has no impact on the Plan.

Note 3 - Fair Value of Financial Assets and Financial Liabilities

Accounting Standards Codification (ASC) 820 established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Values are based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. An active market is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 Values are based on (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in non-active markets, or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.

Level 3 Values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

The methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Fair Value of Financial Assets and Financial Liabilities (Continued)

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments by classes of assets on the basis of the nature and risk of the investments measured at fair value on a recurring basis at December 31, 2013 and 2012. As required by ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's policy is to recognize significant transfers between levels, if any, at the beginning of the reporting period.

Note 4 - Information Certified by the Custodian

Schwab is the custodian of the Plan. The following summary of unaudited information included in the Plan's financial statements and supplemental schedule of assets (held at end of year) was certified by Schwab as of December 31, 2013 and 2012 and for the year ended December 31, 2013. The information was furnished to the Plan administrator, and the Plan administrator has obtained certifications from Schwab that the following information is complete and accurate:

- Investments at fair value as of December 31, 2013 and 2012.
- Investment income for the year ended December 31, 2013.
- Notes receivable from participants as of December 31, 2013 and 2012.
- Interest income on notes receivable from participants for the year ended December 31, 2013.
- Information contained in the supplemental schedule of assets (held at end of year).

Note 5 - Significant Investments

The following table presents the fair value of investments that represent 5% or more of the Plan's net assets at December 31:

	2013	2012
Schwab Retirement Advantage Fund	$ 9,489,861	$ 9,662,070

Note 6 - Tax Status

The Plan is based on a prototype non-standardized defined contribution plan that received an advisory letter dated May 23, 2008 in which the Internal Revenue Service (IRS) stated the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since the date of the advisory letter, however, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes the Plan's tax-exempt status has not been affected, and no provision for income taxes has been included in the Plan's financial statements.

Note 6 - Tax Status (Continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator analyzed the tax positions taken by the Plan and concluded that as of December 31, 2013 and 2012, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2007.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination of the Plan, any Company contributions and earnings thereon would become fully vested, and both participant and Company contributions (including any income earned) would be distributed to the participants.

Note 8 - Related-Party Transactions

The Plan invested in certain mutual funds sponsored by affiliates of Schwab. Therefore, these transactions qualify as exempt party-in-interest transactions.

Note 9 - Subsequent Event

As a result of a resolution of the Board of Directors of the Company dated March 3, 2014, effective January 1, 2015, the Company will begin making additional enhanced Company contributions to the Plan for employees hired on or after January 1, 2006 as follows:

- 3% of eligible compensation for those under 40
- 4% of eligible compensation for those age 40-49
- 5% of eligible compensation for those age 50 and over

In addition, effective January 1, 2015, the Company will be increasing the employer matching percentage for all eligible Company employees from 50% to 75% of each employee's contributions up to 8% of the employee's annual eligible compensation.

These additional enhanced Company contributions and the increased employer matching percentage are being implemented as a result of the freezing of employee contributions and pay-based benefit accruals for participants in the Continental Graphics Employee Pension Plan effective January 1, 2016.
