Note 1. Plan Description

The following description of the R. J. O'Brien & Associates, LLC Profit Sharing and Savings Plan (the Plan) provides only general information. The Plan is designed as a qualified cash or deferred arrangement pursuant to Section 401(k) of the Internal Revenue Code (IRC). Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all U.S. employees, as defined in the Plan, of R. J. O'Brien & Associates, LLC and affiliates (collectively, the Company) who have completed 30 days of employment and have attained age 21. Eligible employees may begin participating as of the first day of the following month, subsequent to meeting eligibility requirements. The Fiduciary Committee is responsible for the oversight of the Plan, determines the appropriateness of the Plan's investment offering and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute between 1 percent and 50 percent of their annual compensation, as defined by the Plan, as a pre-tax contribution, Roth contribution or a combination of both. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants age 50 or older before the end of the plan year may also contribute catch-up contributions to the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated investment option until changed by the participant. The Company may make matching contributions to all contributing participants of the Plan equal to a percentage of the elective contributions made by the participants to the Plan. The Company may also make a discretionary additional matching contribution to participants that make catch-up contributions to the Plan at the end of the plan year. The Company matching contributions are set at 50 percent of the participants' pre-tax contributions, including catch-up, and Roth contributions, not to exceed 6 percent of compensation. For the year ended December 31, 2013, the Company made $903,323 of employer matching contributions. No additional Company discretionary contributions were made to the Plan for the year ended December 31, 2013. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company matching contribution, (b) the Company's discretionary contribution, if any, and (c) plan earnings or losses, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant compensation, earnings, or account balances, as defined. Transaction-based fees associated with optional services rendered are charged directly to the participant account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant may direct the investment of their account in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Note 1. Plan Description (Continued)

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after three years of credited service, with no vesting prior thereto. Participants who attain normal retirement age of 65, or who terminate employment due to death or disability are 100 percent vested in their account balances.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. No more than one loan may be made by a participant in any single year and not more than one loan may be outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 8.5 percent, which is commensurate with the prevailing prime rate plus 1 percentage point at loan origination. Participants are charged directly to their account a one-time origination fee and an annual maintenance fee. The term of any loan granted shall not exceed 5 years, except when used for the purchase of a principal residence then the term shall not exceed 10 years. Principal and interest are paid ratably through semi-monthly or monthly payroll deductions, as applicable to the participant.

Payment of benefits: On termination of service due to death, disability, or retirement, or for any other reason, a participant will receive the value of the participant's vested interest in his or her account as a lump sum.

Forfeited accounts: At December 31, 2013 and 2012, forfeited nonvested accounts totaled $27,844 and $7,428, respectively. These accounts can be used to reduce future Company matching and discretionary contributions, if any, or to pay administrative expenses of the Plan. During 2013, the Plan paid $21,068 of certain administrative expenses from forfeited nonvested accounts.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invested in investment contracts, through its investment in a common/collective trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent loans are treated as distributions based upon the terms of the plan document.

Excess contributions payable: Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions.

Payment of benefits: Benefits are recorded when paid.

Operating expenses: Investment management and administrative expenses of the Plan are paid by the Plan as provided in the plan document. Certain other administrative expenses are paid by the Company on behalf of the Plan, without reimbursement, and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Recent accounting pronouncements: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update are effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of this update was not significant to these financials.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through July 29, 2014, the date the financial statements were available to be issued.

Note 3. Investments

Note 4. Information Certified or Provided by Putnam Fiduciary Trust Company and State Street Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Putnam Fiduciary Trust Company, the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained the certifications from the trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets:

Notes receivable from participants	505,593	551,797

Putnam Fiduciary Trust Company also certified to the completeness and accuracy of $4,189,339 of net appreciation in fair value of investments, $806,790 of interest and dividends related to the aforementioned investments, and $22,492 of interest related to the notes receivable from participants for the year ended December 31, 2013.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB guidance are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust: Valued at the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the common/collective trust's underlying investments held by the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common/collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2013 and 2012:

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2013 and 2012, respectively:

December 31, 2013	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust:

December 31, 2012	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust:				
Putnam Stable Value Fund	$ 1,380,570	n/a	Daily*	None*

* Participants can redeem at the stated unit value as of the close of business on any business day.

The common/collective trust invests in high-quality guaranteed investment contracts (GICs) and similar contracts issued by insurance companies, banks and other financial institutions. The trust also invests up to 75 percent of its assets in security-backed investment contracts (SBICs), including separate account products issued by insurance companies.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Levels 1, 2, or 3.

Note 6. Related-Party Transactions and Party-In-Interest Transactions

Certain plan investments at December 31, 2013, are units of a common/collective trust issued and managed by Putnam Fiduciary Trust Company, the Plan's trustee. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the third-party administrator of $31,753 which was not covered by revenue sharing.

Certain administrative services, principally the maintenance of the Plan's accounting records, are performed by the employees of the Company at no charge to the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Tax Status

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2010.

The IRS has determined and informed the Company by a letter dated May 3, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently operating in compliance with applicable requirements of the IRC, and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:
