Report on the Financial Statements

We were engaged to audit the accompanying financial statements of B & H Foto 401(k) Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 11, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) (Schedule H, Line 4i) as of December 31, 2013 is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of B & H Foto 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan sponsor is B & H Foto & Electronics Corp. (the "Company").

General

The Plan is a multiple employer defined contribution plan covering all eligible employees of B & H Foto & Electronics Corp. and Gradus Group, LLC (the "Company") who are age 21 or older. An employee is eligible to participate in the Plan and receive discretionary matching contributions and profit-sharing contributions after completing one year of service and have worked at least 1,000 hours. An employee who was not eligible to participate in the Plan on its effective date will become eligible on the first day of the quarter nearest the time when such employee meets these requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Massachusetts Mutual Life Insurance Company ("Mass Mutual") has custodial responsibility for the Plan's assets on behalf of the Plan. The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

Eligible employees ("participants") may make voluntary contributions to their individual accounts of between 1% and 100% of their compensation on a pretax basis as limited by statutory regulations under the Internal Revenue Code (the "IRC"), as amended. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. The Company may make a discretionary matching contribution in an amount determined by the Company's Board of Directors on behalf of each participant who is actively employed on the last day of the Plan year. Such contributions are allocated to the participants' accounts in accordance with the participants' elections. There were no discretionary contributions from the Company for the year ended December 31, 2013.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' investment options

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan administrator. Participants may change their investment options at any time throughout the year via the self-directed website.

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Vesting by each participant in employer matching contributions is based on years of service. A participant is vested 20% after one year of service and 20% for each additional year of service thereafter. A participant is fully vested after five years of credited service.

Forfeitures
Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions. The Plan did not have any forfeitures in 2013.

Notes receivable from participants
Participants who are active employees may borrow an amount not to exceed the lesser of $50,000 or 50% of their account balance. The minimum amount that each participant may borrow is $1,000. A participant may have only one outstanding loan at a time. Interest will be charged at a nondiscretionary reasonable rate to be fixed over the term of the loan as determined by the Plan administrator. Interest rates range from 4.25% to 8.00%. Repayment of principal and interest on the loan is required to be paid ratably through payroll deductions, and must be completed within five years, except for loans for the purchase of a primary residence. Loans are secured by the participant's vested benefits.

Payment of benefits
Participants may receive benefits upon retirement, disability, death or termination of employment. A participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 - Summary of accounting policies
Basis of accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participations at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events
The Plan has evaluated subsequent events through July 29, 2014, the date the financial statements were available to be issued.

Note 3 - Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	2013	2012
Guaranteed Interest Account with Mass Mutual Life Insurance Company, at contract value (fair value at December 31, 2013 and 2012 was $4,395,475 and $4,036,100, respectively)	$4,001,416	$3,530,281
RetireSMART Moderate Growth	1,888,146	1,292,833
RetireSMART Moderate	1,602,378	1,356,025
New Horizons (T. Rowe Price)	1,103,811	*
Select Focus Value (Harris)	908,272	*
Select Blue Chip Growth (TRP)	*	739,359

* Investments represent less than 5% of net assets available for benefits as of December 31, 2013 and 2012.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: The Plan's interest in the pooled separate account funds is valued based on information reported by the investment advisor using the audited financial statements of the pooled separate account funds at year end. The net asset value is based on the value of the underlying assets owned by the funds, minus its liabilities, and then divided by the number of shares outstanding.

Guaranteed investment contract ("GIC"): These investments are principally valued using a market value formula approach. The market value of the GIC is determined to be the estimated liquidation value of the contract. The liquidation value is derived considering factors such as: (1) the observable interest rate being earned by investments underlying the contract, (2) the unobservable “assumed interest rate” obtained by MassMutual on new investments where a proxy is the Barclay’s Capital U.S. Aggregate Index (excluding Treasuries) with an adjustment made to duration, and (3) the unobservable comparison between investments supporting the contract and current market rates where historic investments are either a premium or discount to current market rates, i.e. the “experience rate.” Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013:

	Guaranteed Investment Contract
Balance, beginning of year	$ 4,036,100
Purchases	591,492
Sales	(120,358)
Change in unrealized depreciation	(111,759)
Balance, end of the year	$ 4,395,475

Unrealized gains (losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Interest Rate Range*	Weighted Average
Guaranteed Investment Contract	$4,395,475	Market Value Formula	Assumed Interest Rate	.69% – 4.13%	1.40%
			Experience Rate	1.15% – 6.76%	3.09%

***** Duration adjusted Barclay's Capital Index for assumed interest rate for past 5 years. Experience rate ranges are based on the December 31, 2013 fair value inventory. The value the Plan would receive upon liquidation of the GIC is determined based on the liquidation value formula in the contract.

Note 5 - Guaranteed investment contract with Mass Mutual

As of December 31, 2013 and 2012, the Plan held a benefit-responsive investment contract with Mass Mutual. Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $4,395,475 and $4,036,100, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 4%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield earned by the Plan and average interest rate credited to participants for each of the years ended December 31, 2013 and 2012 was 2.52%.

Note 6 - Rollovers contributions

An aggregate of $93,945 and $313,307 was rolled into the Plan during the years ended December 31, 2013 and 2012, respectively, and is included in rollovers on the statement of changes in net assets available for benefits.

Note 7 - Related-party transactions and party-in-interest transactions

Certain Plan investments are pooled separate accounts managed by Mass Mutual. Mass Mutual is the investment manager of the Plan; therefore, such transactions qualify as party-in-interest transactions. Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts are deducted from income earned on a daily basis and not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investment.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services for the Plan at no cost.

These party-in-interest transactions are not deemed prohibited because they are covered by statutory and administrative exemptions from the IRC and the rules of prohibited transactions of ERISA.

Note 8 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9 - Tax status

The Company has adopted a prototype nonstandardized 401(k) profit sharing plan which received a favorable opinion letter on March 31, 2008 in which the Internal Revenue Service (the "IRS") stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. Although the Plan had been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 10 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with changes in the value of certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2013 and 2012, and investment income and interest income on notes receivables from participants for the year ended December 31, 2013, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodian of the Plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of B & H Foto 401(k) Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 11, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) (Schedule H, Line 4i) as of December 31, 2013 is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of B & H Foto 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan sponsor is B & H Foto & Electronics Corp. (the "Company").

General

The Plan is a multiple employer defined contribution plan covering all eligible employees of B & H Foto & Electronics Corp. and Gradus Group, LLC (the "Company") who are age 21 or older. An employee is eligible to participate in the Plan and receive discretionary matching contributions and profit-sharing contributions after completing one year of service and have worked at least 1,000 hours. An employee who was not eligible to participate in the Plan on its effective date will become eligible on the first day of the quarter nearest the time when such employee meets these requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Massachusetts Mutual Life Insurance Company ("Mass Mutual") has custodial responsibility for the Plan's assets on behalf of the Plan. The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

Eligible employees ("participants") may make voluntary contributions to their individual accounts of between 1% and 100% of their compensation on a pretax basis as limited by statutory regulations under the Internal Revenue Code (the "IRC"), as amended. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. The Company may make a discretionary matching contribution in an amount determined by the Company's Board of Directors on behalf of each participant who is actively employed on the last day of the Plan year. Such contributions are allocated to the participants' accounts in accordance with the participants' elections. There were no discretionary contributions from the Company for the year ended December 31, 2013.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' investment options

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan administrator. Participants may change their investment options at any time throughout the year via the self-directed website.

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Vesting by each participant in employer matching contributions is based on years of service. A participant is vested 20% after one year of service and 20% for each additional year of service thereafter. A participant is fully vested after five years of credited service.

Forfeitures
Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions. The Plan did not have any forfeitures in 2013.

Notes receivable from participants
Participants who are active employees may borrow an amount not to exceed the lesser of $50,000 or 50% of their account balance. The minimum amount that each participant may borrow is $1,000. A participant may have only one outstanding loan at a time. Interest will be charged at a nondiscretionary reasonable rate to be fixed over the term of the loan as determined by the Plan administrator. Interest rates range from 4.25% to 8.00%. Repayment of principal and interest on the loan is required to be paid ratably through payroll deductions, and must be completed within five years, except for loans for the purchase of a primary residence. Loans are secured by the participant's vested benefits.

Payment of benefits
Participants may receive benefits upon retirement, disability, death or termination of employment. A participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 - Summary of accounting policies
Basis of accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participations at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events
The Plan has evaluated subsequent events through July 29, 2014, the date the financial statements were available to be issued.

Note 3 - Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	2013	2012
Guaranteed Interest Account with Mass Mutual Life Insurance Company, at contract value (fair value at December 31, 2013 and 2012 was $4,395,475 and $4,036,100, respectively)	$4,001,416	$3,530,281
RetireSMART Moderate Growth	1,888,146	1,292,833
RetireSMART Moderate	1,602,378	1,356,025
New Horizons (T. Rowe Price)	1,103,811	*
Select Focus Value (Harris)	908,272	*
Select Blue Chip Growth (TRP)	*	739,359

* Investments represent less than 5% of net assets available for benefits as of December 31, 2013 and 2012.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: The Plan's interest in the pooled separate account funds is valued based on information reported by the investment advisor using the audited financial statements of the pooled separate account funds at year end. The net asset value is based on the value of the underlying assets owned by the funds, minus its liabilities, and then divided by the number of shares outstanding.

Guaranteed investment contract ("GIC"): These investments are principally valued using a market value formula approach. The market value of the GIC is determined to be the estimated liquidation value of the contract. The liquidation value is derived considering factors such as: (1) the observable interest rate being earned by investments underlying the contract, (2) the unobservable “assumed interest rate” obtained by MassMutual on new investments where a proxy is the Barclay’s Capital U.S. Aggregate Index (excluding Treasuries) with an adjustment made to duration, and (3) the unobservable comparison between investments supporting the contract and current market rates where historic investments are either a premium or discount to current market rates, i.e. the “experience rate.” Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Asset allocation/lifestyle	$ -	$ 3,799,793	$ -	$ 3,799,793
Emerging market equity	-	48,930	-	48,930

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013:

	Guaranteed Investment Contract
Balance, beginning of year	$ 4,036,100
Purchases	591,492
Sales	(120,358)
Change in unrealized depreciation	(111,759)
Balance, end of the year	$ 4,395,475

Unrealized gains (losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Interest Rate Range*	Weighted Average
Guaranteed Investment Contract	$4,395,475	Market Value Formula	Assumed Interest Rate	.69% – 4.13%	1.40%
			Experience Rate	1.15% – 6.76%	3.09%

***** Duration adjusted Barclay's Capital Index for assumed interest rate for past 5 years. Experience rate ranges are based on the December 31, 2013 fair value inventory. The value the Plan would receive upon liquidation of the GIC is determined based on the liquidation value formula in the contract.

Note 5 - Guaranteed investment contract with Mass Mutual

As of December 31, 2013 and 2012, the Plan held a benefit-responsive investment contract with Mass Mutual. Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $4,395,475 and $4,036,100, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 4%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield earned by the Plan and average interest rate credited to participants for each of the years ended December 31, 2013 and 2012 was 2.52%.

Note 6 - Rollovers contributions

An aggregate of $93,945 and $313,307 was rolled into the Plan during the years ended December 31, 2013 and 2012, respectively, and is included in rollovers on the statement of changes in net assets available for benefits.

Note 7 - Related-party transactions and party-in-interest transactions

Certain Plan investments are pooled separate accounts managed by Mass Mutual. Mass Mutual is the investment manager of the Plan; therefore, such transactions qualify as party-in-interest transactions. Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts are deducted from income earned on a daily basis and not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investment.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services for the Plan at no cost.

These party-in-interest transactions are not deemed prohibited because they are covered by statutory and administrative exemptions from the IRC and the rules of prohibited transactions of ERISA.

Note 8 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9 - Tax status

The Company has adopted a prototype nonstandardized 401(k) profit sharing plan which received a favorable opinion letter on March 31, 2008 in which the Internal Revenue Service (the "IRS") stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. Although the Plan had been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 10 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with changes in the value of certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2013 and 2012, and investment income and interest income on notes receivables from participants for the year ended December 31, 2013, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodian of the Plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of B & H Foto 401(k) Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 11, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) (Schedule H, Line 4i) as of December 31, 2013 is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of B & H Foto 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan sponsor is B & H Foto & Electronics Corp. (the "Company").

General

The Plan is a multiple employer defined contribution plan covering all eligible employees of B & H Foto & Electronics Corp. and Gradus Group, LLC (the "Company") who are age 21 or older. An employee is eligible to participate in the Plan and receive discretionary matching contributions and profit-sharing contributions after completing one year of service and have worked at least 1,000 hours. An employee who was not eligible to participate in the Plan on its effective date will become eligible on the first day of the quarter nearest the time when such employee meets these requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Massachusetts Mutual Life Insurance Company ("Mass Mutual") has custodial responsibility for the Plan's assets on behalf of the Plan. The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

Eligible employees ("participants") may make voluntary contributions to their individual accounts of between 1% and 100% of their compensation on a pretax basis as limited by statutory regulations under the Internal Revenue Code (the "IRC"), as amended. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. The Company may make a discretionary matching contribution in an amount determined by the Company's Board of Directors on behalf of each participant who is actively employed on the last day of the Plan year. Such contributions are allocated to the participants' accounts in accordance with the participants' elections. There were no discretionary contributions from the Company for the year ended December 31, 2013.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' investment options

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan administrator. Participants may change their investment options at any time throughout the year via the self-directed website.

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Vesting by each participant in employer matching contributions is based on years of service. A participant is vested 20% after one year of service and 20% for each additional year of service thereafter. A participant is fully vested after five years of credited service.

Forfeitures
Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions. The Plan did not have any forfeitures in 2013.

Notes receivable from participants
Participants who are active employees may borrow an amount not to exceed the lesser of $50,000 or 50% of their account balance. The minimum amount that each participant may borrow is $1,000. A participant may have only one outstanding loan at a time. Interest will be charged at a nondiscretionary reasonable rate to be fixed over the term of the loan as determined by the Plan administrator. Interest rates range from 4.25% to 8.00%. Repayment of principal and interest on the loan is required to be paid ratably through payroll deductions, and must be completed within five years, except for loans for the purchase of a primary residence. Loans are secured by the participant's vested benefits.

Payment of benefits
Participants may receive benefits upon retirement, disability, death or termination of employment. A participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 - Summary of accounting policies
Basis of accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participations at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events
The Plan has evaluated subsequent events through July 29, 2014, the date the financial statements were available to be issued.

Note 3 - Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	2013	2012
Guaranteed Interest Account with Mass Mutual Life Insurance Company, at contract value (fair value at December 31, 2013 and 2012 was $4,395,475 and $4,036,100, respectively)	$4,001,416	$3,530,281
RetireSMART Moderate Growth	1,888,146	1,292,833
RetireSMART Moderate	1,602,378	1,356,025
New Horizons (T. Rowe Price)	1,103,811	*
Select Focus Value (Harris)	908,272	*
Select Blue Chip Growth (TRP)	*	739,359

* Investments represent less than 5% of net assets available for benefits as of December 31, 2013 and 2012.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: The Plan's interest in the pooled separate account funds is valued based on information reported by the investment advisor using the audited financial statements of the pooled separate account funds at year end. The net asset value is based on the value of the underlying assets owned by the funds, minus its liabilities, and then divided by the number of shares outstanding.

Guaranteed investment contract ("GIC"): These investments are principally valued using a market value formula approach. The market value of the GIC is determined to be the estimated liquidation value of the contract. The liquidation value is derived considering factors such as: (1) the observable interest rate being earned by investments underlying the contract, (2) the unobservable “assumed interest rate” obtained by MassMutual on new investments where a proxy is the Barclay’s Capital U.S. Aggregate Index (excluding Treasuries) with an adjustment made to duration, and (3) the unobservable comparison between investments supporting the contract and current market rates where historic investments are either a premium or discount to current market rates, i.e. the “experience rate.” Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2013 and 2012:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013:

	Guaranteed Investment Contract
Balance, beginning of year	$ 4,036,100
Purchases	591,492
Sales	(120,358)
Change in unrealized depreciation	(111,759)
Balance, end of the year	$ 4,395,475

Unrealized gains (losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Interest Rate Range*	Weighted Average
Guaranteed Investment Contract	$4,395,475	Market Value Formula	Assumed Interest Rate	.69% – 4.13%	1.40%
			Experience Rate	1.15% – 6.76%	3.09%

***** Duration adjusted Barclay's Capital Index for assumed interest rate for past 5 years. Experience rate ranges are based on the December 31, 2013 fair value inventory. The value the Plan would receive upon liquidation of the GIC is determined based on the liquidation value formula in the contract.

Note 5 - Guaranteed investment contract with Mass Mutual

As of December 31, 2013 and 2012, the Plan held a benefit-responsive investment contract with Mass Mutual. Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $4,395,475 and $4,036,100, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 4%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield earned by the Plan and average interest rate credited to participants for each of the years ended December 31, 2013 and 2012 was 2.52%.

Note 6 - Rollovers contributions

An aggregate of $93,945 and $313,307 was rolled into the Plan during the years ended December 31, 2013 and 2012, respectively, and is included in rollovers on the statement of changes in net assets available for benefits.

Note 7 - Related-party transactions and party-in-interest transactions

Certain Plan investments are pooled separate accounts managed by Mass Mutual. Mass Mutual is the investment manager of the Plan; therefore, such transactions qualify as party-in-interest transactions. Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts are deducted from income earned on a daily basis and not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investment.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services for the Plan at no cost.

These party-in-interest transactions are not deemed prohibited because they are covered by statutory and administrative exemptions from the IRC and the rules of prohibited transactions of ERISA.

Note 8 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9 - Tax status

The Company has adopted a prototype nonstandardized 401(k) profit sharing plan which received a favorable opinion letter on March 31, 2008 in which the Internal Revenue Service (the "IRS") stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. Although the Plan had been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 10 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with changes in the value of certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2013 and 2012, and investment income and interest income on notes receivables from participants for the year ended December 31, 2013, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodian of the Plan.
