NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2013 AND AS OF DECEMBER 31, 2012

NOTE A - DESCRIPTION OF PLAN

The following description of The Orthomerica Products, Inc. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of Orthomerica Products, Inc. (the "Company") who have six months of service and are at least eighteen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended.

Contributions - Each year, participants may contribute up to 100% of their compensation, as defined in the Plan, subject to certain Internal Revenue Code limitations. Unless the participant elects otherwise, an automatic deferral of 2% will apply. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company provides a discretionary matching contribution equal to 25% of each employee's elective deferral contributions up to 15% of an employee's compensation and may elect to make an additional discretionary contribution each year at the option of the Company's board of directors. However, no such discretionary contributions were made in 2013. Contributions are subject to certain limitations.

Investment Options - Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan is currently invested in a group annuity contract consisting of pooled separate accounts and a guaranteed interest account. The underlying investments held in the pooled separate accounts are primarily held in mutual funds. The guaranteed interest account primarily invests in investment grade fixed income securities and provides for a guaranteed minimum interest rate as specified in the contract.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

Participant Loans - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2013, interest rates range from 4.25% to 6.00%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant or his beneficiary, as applicable, may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or through various installment and annuity options as provided by the Plan.

For termination of service due to other reasons, and if the vested account balance exceeds $5,000, a participant may elect to receive a lump sum distribution or to remain in the Plan. If the vested account balance is less than $5,000 but more than $1,000, the plan administrator will distribute the participant's entire vested account balance, either as a lump-sum distribution or as a direct rollover to an individual retirement account or to another employer's tax qualified plan. If the vested account balance is less than $1,000, the plan administrator will distribute the participant's entire vested account balance as a lump-sum distribution as soon as administratively feasible.

Excess Contributions Payable - Contributions received from participants during 2013 and 2012 are net of excess contributions of $13,232 and $22,013, respectively that were returned to certain participants in 2014 and 2013, respectively, to satisfy the relevant nondiscrimination provisions of the Plan. At December 31, 2013 and 2012, excess contributions payable are reflected as liabilities in the accompanying statements of net assets available for plan benefits.

Forfeitures – Forfeitures may be used to pay plan expenses. At December 31, 2013 and 2012, the balance of the forfeiture account was approximately $14,300 and $8,200, respectively. During 2013, no forfeitures were used to pay plan expenses.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investment contracts are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets of a defined contribution plan attributable to fully-benefit responsive investment contracts because such value is what participants would receive if they were to initiate permitted transactions. The statements of net assets available for plan benefits presents the fair value of the investment contract(s) as well as the adjustment, if necessary, of the fully-benefit responsive investment contracts from fair value to contract value. In addition, the statement of changes in net assets available for plan benefits would normally be prepared on a contract value basis. However, at December 31, 2013 and 2012, no adjustment was necessary because the differences between contract values and fair values were insignificant.

Participant Notes Receivable –Participant loans are measured at their unpaid principal balance, plus any accrued interest. No allowance is deemed necessary as delinquent participant notes receivable are recorded as distributions based upon the terms of the plan document.

Employer Contribution Receivables and Allowance for Doubtful Accounts – Employer contribution receivables are determined to be past due if payment is not made in accordance with the plan document and ERISA requirements and they are written off when they are determined to be uncollectible. The plan administrator evaluates the allowance for doubtful accounts on a regular basis for adequacy. The level of the allowance account, and related bad debts, are based upon management's review of the collectability of the Plan's receivables in light of historical experience, adverse situations that may affect the Company's ability to pay, the estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to revision as more information becomes available. The receivables at December 31, 2013 and 2012 were recovered in 2014 and 2013, respectively; accordingly, no allowance for doubtful accounts was necessary at such dates.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses and Party-In-Interest Transactions – Certain plan investments are in units owned in pooled separate accounts which are primarily managed and invested by Hartford Life Insurance Company ("Hartford"), the custodian of by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were approximately $4,100 for the year ended December 31, 2013.

The Plan's administrative expenses are paid in part by the Plan and in part by the Company, as provided by the plan document. During the year ended December 31, 2013, the Company paid Plan expenses of approximately $8,000. In addition, certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Risks and Uncertainties - The Plan invests in various investment securities primarily through pooled separate accounts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

Subsequent Events – The Plan has evaluated subsequent events through July 28, 2014, the date the financial statements were available to be issued.

NOTE C – INVESTMENTS AND INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The following is a summary of the investment information regarding the Plan as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Mass Mutual Life Insurance Company ("Mass Mutual") on behalf of Hartford, and as directed by the plan administrator, is unaudited. NOTE D - FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures section of the FASB Accounting Standards Codification (ASC) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the Fair Value Measurements and Disclosures section of the FASB ASC are described as follows:

Level 1 Fair Value Measurements - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;

- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies (which were the same at December 31, 2013 and 2012) used for investments measured at fair value:

Pooled Separate Accounts - These separate accounts invest mainly in mutual funds and fixed securities. Although the underlying investments may have Level 1 pricing inputs, the net asset value of the pooled separate accounts are not publicly quoted and accordingly these investments are classified within Level 2 of the valuation hierarchy.

Guaranteed Interest Account - The guaranteed interest account is a fixed account invested in the general asset account of Hartford and reported at fair value based upon information reported by Hartford. The contract value is the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity. The contracts are classified within Level 2 of the valuation hierarchy.

The preceding methods described may produce fair value calculations that may not be indicative of net realizable values or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair values of certain financial instruments could result in different fair value measurements at the reporting dates.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

	Fair Value Measurements as of December 31, 2013

NOTE E - INVESTMENT CONTRACT WITH INSURANCE COMPANY

Guaranteed Interest Account - Through the group annuity contract entered into with Hartford during 2009, the Plan offers a fixed account investment option. The objective of this fund is to maintain a competitive fixed interest rate and a minimum guaranteed rate of return. The fixed account is invested in the general asset account of Hartford and is guaranteed by Hartford's claims paying ability. Hartford's general account is primarily invested in investment grade fixed income securities. Hartford credits the fixed account value with interest at a rate declared each calendar quarter, but not less than the minimum interest rate of 3% as specified in the contract. The actual annualized yield on this account approximated the minimum interest rate of 3%. The contract has certain restrictions that impact the participants' ability to collect the full contract value. The agreement does not allow transfers and surrenders from the fixed account if the transactions in any 12 month period exceed one-sixth of the fixed account values under the agreement as of the most recent month-end value from one year prior, unless Hartford consents.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for Plan benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for Plan benefits at fair value with an adjustment to contract value, if necessary, in arriving at net assets available for Plan benefits. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the Company's contribution portion of their accounts.

NOTE G - TAX STATUS

The Plan was formed using a prototype plan, the SunGard Volume Submitter Profit Sharing Plan with CODA. The prototype plan sponsor obtained a favorable determination letter dated March 31, 2008; however, such letter is only applicable to them. The plan administrator has adopted all Plan provisions within the prototype document. The Plan has been amended since receiving the determination letter; however the plan administrator believes that the Plan is designed and is currently being operated in

compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a liability if an uncertain position has been taken that more than likely would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.
