1. Plan Description

The following description of the Plan is provided for financial reporting purposes only. Participants of the Plan should refer to the plan document and summary plan description for a more complete description of the Plan's provisions.

General

The Plan was established June 1, 1988, and amended November 12, 2013 and is a defined contribution plan as defined by Section 401 of the Internal Revenue Code ("IRC") covering all eligible employees of Pezold Management Associates, Inc. (the "Plan Sponsor"), Pezold Air Charter, LLC, Bealls Communication Group, LLC, Computer Networking Solutions, LLC, Valley Hospitality Services, LLC, and Geo-Energy Solutions, LLC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Eligibility

Employees who are at least twenty-one years of age may become participants following one year of service with at least 1,000 hours worked. Plan entry dates are January 1 and July 1.

Contributions

Participants may contribute up to 15% of pretax annual compensation, as defined in the plan document, not to exceed certain dollar limits established by the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan provides for a discretionary employer matching contribution of up to 50% of the first 2.5% of eligible compensation. These contributions may be suspended or discontinued at any time.

The Plan Sponsor may also make an annual discretionary profit sharing contribution to the Plan. Contributions are allocated to eligible participants' accounts based upon participant compensation as a percentage of total compensation. Participants must be actively employed at the end of the Plan year to receive the profit sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Plan Sponsor's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Pezold Management Associates, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2013 and 2012

Vesting and Forfeitures

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Plan Sponsor's contribution portion of their account plus earnings is based on years of service, as defined in the plan document, in accordance with the following schedule:

<u>Years of Service</u>	<u>% Vested</u>
0-2	0
2-3	20
3-4	40
4-5	60
5-6	80
6+	100

The nonvested balance is forfeited upon termination of service. Participants become fully vested upon death, termination of the Plan, or total disability.

At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$7,165 and \$27,175, respectively. These accounts are used to reduce future employer contributions. For the years ended December 31, 2013 and 2012, employer contributions were reduced by \$27,179 and \$8,050, respectively, from forfeited nonvested accounts.

Payment of Benefits

Prior to separation from service with the Plan Sponsor, a participant may request a distribution of rollover contributions. In the event of a financial hardship, certain participant funds, as defined in the plan document, may be requested for distribution. In-service distributions may also be requested by participants who are at least age 59 1/2.

Upon attainment of normal retirement at age 65, total disability, or death, the amount credited to a participant's account is payable in a lump sum or installments. Upon termination of employment for reasons other than retirement, total disability, or death, the participant's account balance will be distributed in a manner based on the value of the account. If a separated participant's account does not exceed \$1,000, the benefit will be distributed in a lump sum within a reasonable time after termination of employment. If the participant's account balance exceeds \$1,000, the participant may elect to receive the benefit in a lump sum or installments in accordance with the plan document.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan have been prepared in accordance with the provisions of Financial Accounting Standards Board ("FASB"), Accounting Standards Codification (the "FASB ASC"), which is the source of authoritative, non-governmental accounting principles generally accepted in the United States of America ("GAAP"). All references to authoritative accounting guidance contained in our disclosures are based on the general accounting topics within the FASB ASC.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's interest, dividends and gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements

The Plan follows guidance issued by the FASB on fair value measurements, which establishes a framework for measuring fair value, clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. This guidance applies whenever fair value is the applicable measurement. The three general valuation techniques used to measure fair value are the market approach, cost approach, and income approach.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan Sponsor and are excluded from these financial statements. Investment related expenses are included in the net appreciation in fair value of investments.

Notes to Financial Statements

Subsequent Events

The Plan has evaluated subsequent events through July 31, 2014, the date the financial statements were available to be issued.

3. Information Certified by the Custodian

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2013 and 2012, was obtained or derived from information supplied to the Plan Sponsor and certified as complete and accurate by Transamerica Life Insurance Company ("Transamerica"), the custodian of the Plan.

4. Investments

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, as follows:

	<u>2013</u>	<u>2012</u>
Unallocated Insurance Contract		
Transamerica Stable Value Fund	\$ 1,744,565	\$ 1,636,149

Transamerica Partners Core Bond II	-	231,282

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$516,405 and \$336,008, respectively, for the years ended December 31, as follows:

	<u>2013</u>	<u>2012</u>

Notes to Financial Statements

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into Levels 1, 2, and 3. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets. |
| Level 2 | Inputs to the valuation methodology to include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar asset or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: These securities are directly invested in mutual fund, equity securities, or fixed securities. These securities are valued at the calculated unit value based on the observable underlying investments.

Collective trust funds: Valued at the NAV of units of a collective trust held by the Plan at year-end. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Unallocated insurance contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

In 2012 the Plan incorrectly reported the valuation methodology of the investments. The accompanying financial statements for the year ended December 31, 2012 have been revised to reflect the proper valuation methodology of the investments as level 2. This change did not impact net assets available for benefits or the net increase in net assets available for benefits for the year ended December 31, 2012.

6. Stable Value Fund

The Plan participates in a stable value fund with Transamerica, which is a fully benefit-responsive investment contract. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The stable value fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Pezold Management Associates, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2013 and 2012

Because the stable value fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund. The stable value fund is presented on the face of the statement of net assets available for benefits at fair value which approximates contract value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was \$1,852,981 and \$1,744,565, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.45%. Such interest rates are reviewed on a Semi-Annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: the Plan's failure to qualify under Section 401(a) or Section 401(k) of the IRC; the establishment of a defined contribution plan that competes with the Plan for employee contributions; any change in law, regulation or administrative rulings applicable to the Plan that could have a material adverse effect on the stable value fund's cash flow; any communication given to unitholders by the Plan Sponsor, any other Plan fiduciary or Transamerica that is designed to induce or influence unitholders not to invest in the stable value fund or to transfer assets out of the stable value fund any transfer of assets from the stable value fund to a competing investment option; or withdrawals initiated by the Plan Sponsor. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The stable value fund does not permit Transamerica to terminate the agreement prior to the scheduled maturity date. The average yields earned by the stable value fund for the years ended December 31, are as follows:

	<u>2013</u>	<u>2012</u>
Average yields:		
Based on actual earnings	1.45%	1.65%
Based on interest rate credited to participants	1.45%	1.75%

7. Related Party and Party-in-Interest Transactions

At December 31, 2013 and 2012, certain Plan investments are units in pooled separate accounts, collective trust funds, and unallocated insurance contract of Transamerica. Transamerica provides custodial, reporting, and related services to the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments.

**Pezold Management Associates, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2013 and 2012**

8. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Plan Sponsor contribution portion of their account.

9. Tax Status of Plan

The Internal Revenue Service has determined and informed the Plan Sponsor by a letter dated April 17, 2002, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. The Plan Sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

In accordance with GAAP, the Plan Sponsor is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Sponsor has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan Sponsor believes the Plan is no longer subject to income tax examinations for years prior to 2010. The Plan is also subject to routine audits by the Department of Labor, generally for six years after the statutory due date of the annual information return. There are currently no audits in progress for any tax period.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
