In June 2013, the Plan Sponsor acquired Goold Health Systems ("Goold"). As part of the acquisition, employees of Goold were given the opportunity to rollover their account balances into the Plan.

(b) Contributions

Participants may voluntarily make qualified retirement contributions to the Plan which are deductible by the participants for federal income tax purposes under Section 401(k) of the Internal Revenue Code ("IRC"). Participants may also contribute certain amounts representing distributions from other qualified defined benefit or defined contribution plans. In order to participate, employees must make a minimum contribution of 1% of compensation, as defined in the plan agreement subject to certain IRC limits. The participant deferral percentage is limited to 50% of eligible compensation.

Plan Sponsor matching contribution is 50% of the first 5% of each participant's contributions per pay period. Plan Sponsor and participant contributions may not exceed the maximum amount deductible for federal income tax purposes.

Newly eligible and rehired employees are automatically enrolled in the Plan at a deferral rate of 5% of their compensation unless the employee elects not to participate within thirty days.

(c) Participant accounts

Each participant's account is credited (charged) with the participant's contributions, Plan Sponsor contributions, and allocations of investment earnings and administrative expenses. Allocations are based on participant contributions, compensation or account balances as defined in the plan agreement. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account balance.

Notes to the Financial Statements

December 31, 2013 and 2012

(d) Vesting

Participants are immediately vested in their elective salary deferral plus actual earnings thereon. Vesting in the Plan Sponsor's contributions is based on years of continuous service. Participants begin vesting after one year of service in incremental rates of 50% and become fully vested after two years of service.

(e) Notes receivable from participants

Each participant may borrow from his or her fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his or her vested account balance. The loans are secured by the balances in the respective participants' accounts and bear interest at rates ranging from 3.25% to 9.25%, which are commensurate with local prevailing rates as determined by the plan administrator. Loan terms range from one to five years or over a reasonable period of time that may be longer than five years for the purchase of a primary residence. Principal and interest are collected ratably through payroll deductions.

(f) Payment of benefits

Upon termination of service due to death, permanent disability, or retirement, a participant may elect to receive a lump-sum payment or partial withdrawals up to their entire account balance. For termination of service due to other reasons, a participant will be entitled to receive only the vested interest in his or her account as a lump-sum distribution up to his or her vested account balance. If the vested balance of a participant's account is less than \$1,000, the total vested balance is distributed as an automatic lump sum payment in cash.

(g) Forfeited accounts

Forfeitures are created when participants terminate employment prior to becoming fully vested in the Plan Sponsor contribution portion of their accounts. Such forfeitures may be used first to pay Plan expenses; any remaining forfeitures may be used to reduce future Plan Sponsor contributions. At December 31, 2013 and 2012, forfeited nonvested accounts totaled approximately \$15,000 and \$58,000, respectively. During 2013 and 2012, approximately \$9,000 was used to pay administrative fees. During 2013 and 2012, current year forfeitures and amounts remaining from the prior year of approximately \$130,000 and \$65,000, respectively, were used to fund employer contributions.

(h) Hardship withdrawals

The Plan permits distributions in the event of a hardship, as defined in the plan agreement. These distributions are taxable and subject to a federal tax penalty equal to 10% of the hardship distribution amount if the participant is younger than age 59½. Hardship withdrawals are limited to the participant's elective account balance. If a participant receives a hardship withdrawal from the Plan, the participant will be unable to make contributions to the Plan for a period of six months.

EMDEON 401(K) SAVINGS PLAN

Notes to the Financial Statements

December 31, 2013 and 2012

(i) Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Fees incurred by the plan for the investment management services or recordkeeping are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment from the Plan.

(j) Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

(b) Investment valuation and income recognition

Investments are stated at fair value or contract value as reported by the trustee. See Note 4 for discussion on fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

(c) Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

EMDEON 401(K) SAVINGS PLAN

Notes to the Financial Statements

December 31, 2013 and 2012

(d) Payment of benefits

Benefits are recorded when paid.

(e) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) Events occurring after reporting date

The Plan Sponsor has evaluated events and transactions that occurred between December 31, 2013 and July 8, 2014, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Summary of information certified by trustee

The following information was certified as complete and accurate by Fidelity Management Trust Company, trustee, as of and for the years ended December 31, 2013 and 2012.

	<u>2013</u>	<u>2012</u>
Investments	\$ <u>135,092,416</u>	\$ <u>98,448,787</u>
Notes receivable from participants	\$ <u>3,143,878</u>	\$ <u>2,232,989</u>
Net change resulting from investment activity	\$ <u>23,225,895</u>	\$ <u>10,244,175</u>
Interest on notes receivable from participants	\$ <u>86,705</u>	\$ <u>65,677</u>
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	\$ <u>(32,020)</u>	\$ <u>(46,713)</u>

(4) Fair value measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

EMDEON 401(K) SAVINGS PLAN

Notes to the Financial Statements

December 31, 2013 and 2012

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for asset measurement at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- (i) *Mutual funds and money market fund:* Valued at the net asset value of shares held by the Plan at year-end in an active market.
- (ii) *Collective trust fund:* The collective trust fund invests in short-term bonds, fixed income securities or bonds funds and money market funds. The fund attempts to maintain a constant net asset value of \$1 per unit, although there is no guarantee that it will be able to maintain that value. The value of the Plan's interest in the collective trust fund is based upon the current value of and net investment gain or loss relating to the units of participation held by the Plan. The collective trust fund provides for daily redemptions by the Plan at reported net asset values per share with no advance notice required.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Investments and investment income

The fair value of investments that represent 5% or more of the Plan's net assets as of December 31, 2013 and 2012 are as follows:

	<u>2013</u>	<u>2012</u>
Pimco Total Return Fund	**	\$ 5,698,211
Fidelity Contrafund	\$ 9,252,611	\$ 6,195,435
Fidelity Diversified International Fund	**	\$ 5,540,498
Fidelity Freedom 2030 Fund	**	\$ 5,492,785
Fidelity Freedom K 2030 Fund	\$ 8,840,928	**
Fidelity Freedom K 2035 Fund	\$ 7,849,983	**
Fidelity Retirement Money Market Fund	**	\$ 5,522,930

** Investment does not represent more than 5% of the Plan's net assets.

Net appreciation in the fair value of the Plan's investments (including investments purchased, sold and held during the year) was attributable solely to mutual fund accounts.

(6) Excess contributions

Participant contributions for 2012 are net of payments of \$249,187, which were refunded in March 2013, to certain active participants to return to them excess deferral contributions, as required to satisfy the relevant nondiscrimination provisions of the Plan.

(7) Income tax status

The Plan Sponsor adopted a prototype profit sharing plan which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008, which stated that the prototype plan was designed in accordance with the applicable sections of the IRC. The Plan has not received a determination letter from the IRS stating that the Plan is qualified under Section 401(a) of the IRC. The Plan has also been amended since receiving the opinion letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and is therefore, qualified and exempt from taxation.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Notes to the Financial Statements

December 31, 2013 and 2012

(8) Related party transactions

Certain Plan investments are shares of a money market fund, mutual funds and the collective trust fund which are managed by Fidelity Management Trust Company, the trustee of the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Administrative fees of \$36,688 and \$37,853 were paid by the Plan to Fidelity Management Trust Company in 2013 and 2012, respectively. These administrative fees are for participant transactional items such as: loan origination fees, hardship withdrawal fees and fund transfer fees. The Plan also holds notes receivable from participants which qualify as party-in-interest transactions.

(9) Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2013 and 2012:

(10) Risks and uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

EMDEON 401(K) SAVINGS PLAN

Notes to the Financial Statements

December 31, 2013 and 2012

(1) Description of plan

The following description of the Emdeon 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

Emdeon Business Services LLC (the "Plan Sponsor") established the Plan on November 15, 2006. The Plan is a defined contribution plan which was established to provide retirement benefits for employees of the Emdeon Inc. and its subsidiaries ("Emdeon"). The Plan covers substantially all employees ("participants"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In June 2013, the Plan Sponsor acquired Goold Health Systems ("Goold"). As part of the acquisition, employees of Goold were given the opportunity to rollover their account balances into the Plan.

(b) Contributions

Participants may voluntarily make qualified retirement contributions to the Plan which are deductible by the participants for federal income tax purposes under Section 401(k) of the Internal Revenue Code ("IRC"). Participants may also contribute certain amounts representing distributions from other qualified defined benefit or defined contribution plans. In order to participate, employees must make a minimum contribution of 1% of compensation, as defined in the plan agreement subject to certain IRC limits. The participant deferral percentage is limited to 50% of eligible compensation.

Plan Sponsor matching contribution is 50% of the first 5% of each participant's contributions per pay period. Plan Sponsor and participant contributions may not exceed the maximum amount deductible for federal income tax purposes.

Newly eligible and rehired employees are automatically enrolled in the Plan at a deferral rate of 5% of their compensation unless the employee elects not to participate within thirty days.

(c) Participant accounts

Each participant's account is credited (charged) with the participant's contributions, Plan Sponsor contributions, and allocations of investment earnings and administrative expenses. Allocations are based on participant contributions, compensation or account balances as defined in the plan agreement. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account balance.

Notes to the Financial Statements

(d) Vesting

Participants are immediately vested in their elective salary deferral plus actual earnings thereon. Vesting in the Plan Sponsor's contributions is based on years of continuous service. Participants begin vesting after one year of service in incremental rates of 50% and become fully vested after two years of service.

(e) Notes receivable from participants

Each participant may borrow from his or her fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his or her vested account balance. The loans are secured by the balances in the respective participants' accounts and bear interest at rates ranging from 3.25% to 9.25%, which are commensurate with local prevailing rates as determined by the plan administrator. Loan terms range from one to five years or over a reasonable period of time that may be longer than five years for the purchase of a primary residence. Principal and interest are collected ratably through payroll deductions.

(f) Payment of benefits

Upon termination of service due to death, permanent disability, or retirement, a participant may elect to receive a lump-sum payment or partial withdrawals up to their entire account balance. For termination of service due to other reasons, a participant will be entitled to receive only the vested interest in his or her account as a lump-sum distribution up to his or her vested account balance. If the vested balance of a participant's account is less than \$1,000, the total vested balance is distributed as an automatic lump sum payment in cash.

(g) Forfeited accounts

Forfeitures are created when participants terminate employment prior to becoming fully vested in the Plan Sponsor contribution portion of their accounts. Such forfeitures may be used first to pay Plan expenses; any remaining forfeitures may be used to reduce future Plan Sponsor contributions. At December 31, 2013 and 2012, forfeited nonvested accounts totaled approximately \$15,000 and \$58,000, respectively. During 2013 and 2012, approximately \$9,000 was used to pay administrative fees. During 2013 and 2012, current year forfeitures and amounts remaining from the prior year of approximately \$130,000 and \$65,000, respectively, were used to fund employer contributions.

(h) Hardship withdrawals

The Plan permits distributions in the event of a hardship, as defined in the plan agreement. These distributions are taxable and subject to a federal tax penalty equal to 10% of the hardship distribution amount if the participant is younger than age 59½. Hardship withdrawals are limited to the participant's elective account balance. If a participant receives a hardship withdrawal from the Plan, the participant will be unable to make contributions to the Plan for a period of six months.

Notes to the Financial Statements

December 31, 2013 and 2012

(i) Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Fees incurred by the plan for the investment management services or recordkeeping are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment from the Plan.

(j) Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

(b) Investment valuation and income recognition

Investments are stated at fair value or contract value as reported by the trustee. See Note 4 for discussion on fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

(c) Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Notes to the Financial Statements

December 31, 2013 and 2012

(d) Payment of benefits

Benefits are recorded when paid.

(e) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) Events occurring after reporting date

The Plan Sponsor has evaluated events and transactions that occurred between December 31, 2013 and July 8, 2014, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Summary of information certified by trustee

The following information was certified as complete and accurate by Fidelity Management Trust Company, trustee, as of and for the years ended December 31, 2013 and 2012.

	<u>2013</u>	<u>2012</u>
Investments	\$ <u>135,092,416</u>	\$ <u>98,448,787</u>
Notes receivable from participants	\$ <u>3,143,878</u>	\$ <u>2,232,989</u>
Net change resulting from investment activity	\$ <u>23,225,895</u>	\$ <u>10,244,175</u>
Interest on notes receivable from participants	\$ <u>86,705</u>	\$ <u>65,677</u>
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	\$ <u>(32,020)</u>	\$ <u>(46,713)</u>

(4) Fair value measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

EMDEON 401(K) SAVINGS PLAN

Notes to the Financial Statements

December 31, 2013 and 2012

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for asset measurement at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- (i) *Mutual funds and money market fund:* Valued at the net asset value of shares held by the Plan at year-end in an active market.
- (ii) *Collective trust fund:* The collective trust fund invests in short-term bonds, fixed income securities or bonds funds and money market funds. The fund attempts to maintain a constant net asset value of \$1 per unit, although there is no guarantee that it will be able to maintain that value. The value of the Plan's interest in the collective trust fund is based upon the current value of and net investment gain or loss relating to the units of participation held by the Plan. The collective trust fund provides for daily redemptions by the Plan at reported net asset values per share with no advance notice required.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Investments and investment income

The fair value of investments that represent 5% or more of the Plan's net assets as of December 31, 2013 and 2012 are as follows:

	<u>2013</u>	<u>2012</u>
Pimco Total Return Fund	**	\$ 5,698,211
Fidelity Contrafund	\$ 9,252,611	\$ 6,195,435
Fidelity Diversified International Fund	**	\$ 5,540,498
Fidelity Freedom 2030 Fund	**	\$ 5,492,785
Fidelity Freedom K 2030 Fund	\$ 8,840,928	**
Fidelity Freedom K 2035 Fund	\$ 7,849,983	**
Fidelity Retirement Money Market Fund	**	\$ 5,522,930

** Investment does not represent more than 5% of the Plan's net assets.

Net appreciation in the fair value of the Plan's investments (including investments purchased, sold and held during the year) was attributable solely to mutual fund accounts.

(6) Excess contributions

Participant contributions for 2012 are net of payments of \$249,187, which were refunded in March 2013, to certain active participants to return to them excess deferral contributions, as required to satisfy the relevant nondiscrimination provisions of the Plan.

(7) Income tax status

The Plan Sponsor adopted a prototype profit sharing plan which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008, which stated that the prototype plan was designed in accordance with the applicable sections of the IRC. The Plan has not received a determination letter from the IRS stating that the Plan is qualified under Section 401(a) of the IRC. The Plan has also been amended since receiving the opinion letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and is therefore, qualified and exempt from taxation.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Notes to the Financial Statements

December 31, 2013 and 2012

(8) Related party transactions

Certain Plan investments are shares of a money market fund, mutual funds and the collective trust fund which are managed by Fidelity Management Trust Company, the trustee of the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Administrative fees of \$36,688 and \$37,853 were paid by the Plan to Fidelity Management Trust Company in 2013 and 2012, respectively. These administrative fees are for participant transactional items such as: loan origination fees, hardship withdrawal fees and fund transfer fees. The Plan also holds notes receivable from participants which qualify as party-in-interest transactions.

(9) Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2013 and 2012:

(10) Risks and uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
