BICKMORE RISK SERVICES 401(K) RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

NOTE 1: DESCRIPTION OF PLAN

The following description of the Bickmore Risk Services 401(k) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1994, to provide eligible employees of the Bickmore Risk Services, Inc. (the Company) with retirement benefits in accordance with section 401(k) of the Internal Revenue Code (the IRC). All employees are eligible to participate in the Plan after attaining age 21 and after completing six months of service with the Company.

Contributions

Employees may defer a portion of their pre-tax compensation and contribute it to the Plan, not to exceed \$17,500 in 2013. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Each participant may elect to have their individual account invested in any combination of funds held by the Plan custodian.

In 2009 and prior, the Company made a "safe harbor" contribution equal to 3% of each participant's compensation. In addition, the Company may make discretionary matching and profit sharing contributions. The Company's contributions are segregated into individual participant accounts. The Company made matching contributions of \$278,549 and \$227,753 for the years ended December 31, 2013 and 2012, respectively. The Company did not make profit sharing contributions during 2013 or 2012.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and an allocation of Plan earnings and forfeitures of terminated participants' nonvested accounts. Allocations are based on each participant's contributions, earnings, or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is limited to the benefit that can be provided from the participant's account. Participants select the investments into which their contributions are invested.

Vesting

Participants are always fully vested in their own contributions and in the Company's "safe harbor" contributions and all earnings thereon. Participants vest in the discretionary matching and profit sharing contributions at the rate of 20% per year, beginning the second year of service.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of employment due to retirement, death, disability, or separation from service, the balances in the participants' accounts will be distributed to the participants or to their beneficiaries in either a lump sum, equal installments in the form of nontransferable annuity, or some combination of the foregoing, at the election of the beneficiary.

Administrative Expenses

The Company, as Plan sponsor, pays certain administrative expenses on behalf of the Plan. Participant's accounts are adjusted for fees pertaining to termination processing, and are charged for expenses incurred by the custodian in the performance of their duties.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

In preparing the financial statements in accordance with accounting principles generally accepted in the United States of America, management makes estimates and assumptions which affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair Value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisors, custodians, and insurance company. See Note 5 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 5: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

- Level 1) Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2) Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3) Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time. In the event of Plan termination, all accounts become fully vested and non-forfeitable. Plan assets would first be used to pay any expenses properly charged to the Plan. The remainder would then be distributed to participants in a lump sum.

NOTE 7: TAX STATUS

The Company received a favorable determination letter dated November 22, 2002, from the Internal Revenue Service as to the qualified status of the Plan. The Plan has been amended since receiving the letter. However, the Company is of the opinion that the Plan complies in operation with the applicable requirements of the IRC and ERISA, and that the trust, which forms part of the Plan, is exempt from income tax. Accordingly, no provision has been made for federal or state income taxes.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognizes tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

NOTE 8: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
