ASH GROVE HOURLY 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The following description of the Ash Grove Hourly 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions. The Plan was restated on January 1, 2010.

General – The Plan is a defined contribution savings plan established by Ash Grove Cement Company (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All employees of the Company covered by a collective bargaining agreement are eligible to participate after 90 days of service. The Company serves as the plan administrator and controls and manages the operations and administration of the Plan.

Principal Life Insurance Company ("Principal") serves as a custodian and recordkeeper for the Plan. Delaware Charter Guarantee & Trust Company dba Principal Trust Company, an affiliate of Principal, serves as the custodian for the mutual fund investments, the collective investment trusts, and individually directed brokerage accounts. Employees of the Company serve as trustees.

Contributions – Contributions to the Plan can be made by both the Company and the participant. Participants are allowed to make tax-deferred contributions up to 50% of eligible compensation subject to certain Internal Revenue Code (IRC) limits. All participant and Company contributions are to be invested at the discretion of the participant. Effective October 1, 2005, new employees are automatically enrolled into the Plan once the eligibility requirements have been met. The automatic deferral rate is 4% of their eligible compensation, unless the participant specifies a different rate, or opts not to contribute.

Company contributions are discretionary and are based on a percentage of employee pretax contributions. The Company may make a discretionary matching contribution equal to a percentage of employee pretax contributions, not to exceed 4% of employee annual compensation. For the year ended December 31, 2013, the Company matched 25% of employee pretax contributions, up to the first 4% contributed.

Vesting and Forfeitures – Participants immediately vest in their voluntary contributions and earnings thereon. Participants become 100% vested in Company contributions and earnings thereon after three years of service. If a participant terminates employment because of retirement, death, or disability, as defined by the Plan, the participant becomes 100% vested regardless of the years of service.

When a participant's employment is terminated prior to full vesting, the nonvested portion of the participant's account is forfeited and redistributed, first to pay Plan expenses, and then to reduce future Company contributions. At December 31, 2013 and 2012, there were \$3 and \$7,889 in forfeited assets, respectively. During 2013, the Plan used forfeitures of \$8,639 to pay Plan expenses.

Participant Accounts – A separate account is maintained for each participant. Allocations to participant accounts for employee contributions are made when the contributions are received by the custodian. Allocations to participant accounts for investment income, changes in fair value of investments, and Plan expenses are made when such amounts are

earned or incurred. Allocations are based on participant earnings or account balance, as defined by the Plan.

Notes Receivable from Participants – Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Only one loan may be granted during any one-year period and only one loan may be outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the loan administrator. Principal and interest are paid ratably through payroll deductions. The maximum repayment terms for a loan is 5 years, unless the loan is for the purchase of a principal residence, in which case the maximum term is 10 years. Participants are charged a \$40 set up fee when a loan is initiated, and a quarterly maintenance fee of \$8.

Payment of Benefits – Benefits are payable in the event of retirement, death, termination of employment, or other defined hardship. Terminated participants may elect to receive a lump-sum distribution, annuity contracts, or monthly, quarterly, semiannual, or annual installments for not more than the participant's life expectancy. Lump-sum distributions and installments are made in cash. If the value of the vested account is more than \$5,000, and the reason for termination is not death or permanent and total disability, the participant may elect to defer distribution to a date between age 55 and April 1 following the year the participant attains age 70½.

In-Service Distributions – Hardship withdrawals are available to Plan participants for the various reasons as described in the Plan Document. Hardship withdrawals are limited to the participant's account balance that is 100% vested. Upon making such a withdrawal, the participant is suspended from making deferrals for six months.

Participants' who have reached the age of 59½ may withdraw all or a portion of their vested funds.

Administrative Expenses – The Plan paid \$23,277 in expenses primarily related to loan fees, administrative expenses, and early withdrawal fees in 2013. The Company, on behalf of the Plan, pays all remaining administrative expenses for the Plan. Participants who maintain an individually directed account are charged an annual fee of \$75, and are charged a fee for each investment purchase or sale.

Transfers to Other Plans – Assets in the amount of \$503,997 were transferred to the Ash Grove Cement Company 401(k) Savings Plan during the year ended December 31, 2013.

Termination of the Plan – Although the Company has not expressed any intent to do so, it has the right under the Plan to amend or terminate the Plan at any time subject to the provisions set forth in the Plan and under ERISA. In the event of Plan termination, participants become fully vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The

investment contract held by the Plan is not considered fully-benefit responsive and, as such, is presented at fair value.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in pooled separate accounts are expressed as a unit value as described below. Purchases and sales are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts, collective investment trusts and mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Based on such treatment of delinquent participant loans, no allowance for doubtful accounts is considered necessary.

Contributions – Employer and employee contributions are reported in the year services are rendered to the Company by the Plan participants.

Payment of Benefits – Benefit payments are reported in the year paid.

Date of Management's Review – Subsequent events have been evaluated through July 18, 2014, which is the date the financial statements were available to be issued, and there were no material events requiring recognition or disclosure.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Pooled Separate Accounts – Principal calculates a unit value (similar to a net asset value “NAV”) of a separate account daily. It is the sum of the market value of the underlying investments as determined by quoted market prices, less operating expenses accrued but not deducted, if any.

Collective Investment Trusts – Principal calculates a net asset value based on the market value of its underlying investments. The common and collective trusts (“CCT”) invest in mutual funds, and pooled separate accounts. The net asset values of the mutual funds and pooled separate accounts are used to determine the net asset value of the collective investment trusts, less operating expenses, if any.

Mutual Funds, Money Market Accounts and Common Stocks – Valued at the closing price reported on the active market on which the individual securities are traded. Common stocks are held in the individually directed brokerage accounts.

Guaranteed Interest Accounts – Valued at the sum of the estimated fair values of each contract of the guaranteed investment contract fund because they are not fully benefit responsive. Fair value represents the amount plan participants or plan sponsors would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity.

Individually Directed Brokerage Accounts – Consist of common stocks and mutual funds and are valued as discussed above.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value as follows at December 31, 2013 and 2012:

		Fair Value Measurements Using:

(a) These are investments in entities that use NAV per share to determine fair value. They are valued daily, can be redeemed daily with no restrictions, and without prior notice. There are no unfunded commitments.

The following table provides further details of Level 3 fair value measurements for the year ended December 31, 2013:

	Guaranteed Interest Accounts

The following table includes quantitative information about significant unobservable inputs used to derive the fair value of the Level 3 asset.

Instrument	Fair Value	Principal Valuation		
		Technique	Unobservable Inputs	Range of rates
Guar. interest accounts	\$ 3,440,384	Market Value Adjustment (Market Approach)	Composite Int Rates Rate at Dec 31, 2013	0.44% - 1.73% 0.85%

Management assesses the reasonableness of the methodology by reviewing a variety of factors including review of existing contracts, the fund investment profile and financial strength ratios, economic conditions, industry and market developments, and overall credit ratings.

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan provides the Guaranteed Interest Account, a group annuity contract by Principal, as an investment option for participants. The objective of this investment option is to guarantee the return of principal plus compound interest earned over a defined term backed by Principal. There are no specific securities in the general account that back the liabilities of this group annuity contract. Principal is obligated to pay interest at crediting rates, which are announced in advance and guaranteed per the terms of the contract. The investment contract is not considered fully-benefit responsive and, as such, is included in the financial statements at fair value. Fair value is calculated using the Market Value Adjustment formula specified in the group annuity contract and is based on the composite interest rates and new money crediting rates. There are no reserves against fair value for credit risk of the contract issuer or otherwise.

5. INVESTMENTS

The following table represents the net appreciation (depreciation) in the fair value of the investments during the year ended December 31, 2013:

Pooled separate accounts	\$2,434,896
Collective investment trusts	1,757,482
Individually directed brokerage accounts	(1,049)
Mutual funds	<u>190,703</u>
Total net appreciation	<u>\$4,382,032</u>

The following represents the fair value of investments that represent 5% or more of net assets available for benefits of the Plan at December 31:

	2013	2012
Principal Life Insurance Guaranteed Interest Accounts	\$ 3,440,384	\$ 3,754,720
Large Cap S&P 500 Index Account	3,549,968	2,648,584
International Emerging Markets Account	*	1,492,240
Principal Trust Target 2020 Fund	4,056,646	3,677,647
Principal Trust Target 2030 Fund	4,469,460	3,462,789
Principal Trust Target 2040 Fund	1,780,487	*
Goldman Sachs Fin Square MM Fund	1,779,709	1,819,500

* Balance did not exceed stated threshold on that particular date.

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

6. INFORMATION CERTIFIED BY THE CUSTODIANS

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company and Delaware Charter Guarantee & Trust Company dba Principal Trust Company, the custodians of the Plan, have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate with respect to investments as of December 31, 2013 and 2012, and for the year ended December 31, 2013:

- Investments, at fair value
- Income
- Schedule of Assets (Held at End of Year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of pooled separate accounts, collective investment trusts, and guaranteed interest accounts managed by Principal Life Insurance Company and

Principal Trust Company. They are the custodians of the Plan, and therefore, these transactions qualify as party-in-interest.

8. TAX STATUS

The Company adopted a Prototype Non-standardized Profit Sharing Plan with CODA which received a favorable opinion letter from the IRS on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since the date of the opinion letter, however, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2013. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.
