Notes to Financial Statements
December 31, 2013

1. Description of Plan

The following description of The Foundation Center Defined Contribution Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan description for a more complete description of the Plan's provisions.

General and Eligibility

The Plan is a defined contribution plan covering all employees of the Foundation Center (the "Center") who have completed two consecutive years of service and attained the age of 21. Credit will be earned for each year of service that an employee works at least 1,000 hours for the Center during the eligibility measuring period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employer Contributions

Once the employee has met the age and service requirements listed above, they will enter the Plan the first day of the following month and become eligible for employer contributions. The Center will contribute 12% of compensation earned after plan participation commenced. If compensation is above the Social Security Taxable Wage Base ("SSTWB") in a plan year, after participation commenced in the plan, an additional contribution of 15% of that compensation in excess of the SSTWB will be made. In no event, however, will compensation in excess of a maximum set by the Internal Revenue Service each year be considered under the Plan. Compensation is defined as a participant's base annual salary and excludes all or any portion of irregular or additional compensation including, but not limited to, any type of additional work performed outside their regular tour of duty, overtime, bonuses, and stipends. Compensation also excludes reimbursements, deferred compensation and welfare benefits.

Vesting

Once employees meet the age and service requirements, they are fully vested in the Plan.

Participant Accounts

Each participant's account is credited with the employer's contributions and allocations of the Plan earnings on his or her specific investments. Allocations of plan earnings are based on each participant's account balance while employer contribution allocations of earnings are based on the participant's compensation. The benefit to which a participant is entitled is the amount accumulated in the participant's vested account.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurements

The Plan follows U.S. GAAP guidance on *Fair Value Measurements* which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable and are used to the extent that observable inputs do not exist.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The TIAA Traditional Annuity Account is an unallocated contract that is stated at contract value, which approximates fair value. Investments in registered investment companies are stated at fair value as determined by quoted market prices, which represents the net asset value of shares held by the Plan at year end. Investments in pooled separate accounts are reported at the value reported to the Plan by Teachers Insurance and Annuity Association of America and College Retirement Equities Fund, ("TIAA-CREF"), which represents the fair value of the underlying investments comprising the accounts. Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies *(continued)*

Administrative Expenses

Certain expenses of the Plan are deducted from the value of the participants' assets and certain expenses are paid by the Employer on behalf of the Plan. Expenses relating to investment management are paid directly by the respective investment vehicle and are included as a reduction to net appreciation in fair value of investments.

Accounting for Uncertainty in Income Taxes

The Plan recognizes the effect of income tax positions only if these positions are more likely than not to be sustained. Management has determined that the Plan had no uncertain tax positions that would require financial statement recognition and/or disclosure. The Plan is no longer subject to examinations by the applicable taxing jurisdictions for periods prior to December 31, 2010.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is July 23, 2014.

3. Information Certified (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, TIAA-CREF, has certified to the completeness and accuracy of all the investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, and the supplemental Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013 and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

4. Investments (continued)

The table below sets forth the summary of changes in fair value of the Plan's level 3 assets for 2013:

Balance, beginning of the year	\$9,206,791
Contributions	160,398
Interest income	395,638
Benefit payments	(145,124)
Transfers in from other Plan investments	<u>10,685</u>
Balance at end of year	<u><u>\$9,628,388</u></u>

The following investments represent 5% or more of Plan's net assets available for benefits at December 31:

	<u>2013</u>	<u>2012</u>
TIAA Traditional Annuity Account	\$9,628,388	\$9,206,791
CREF Stock	9,957,737	8,103,039
CREF Growth	1,908,856	1,379,022

During 2013, the Plan's investments (including investments bought and sold, as well as held during the year) appreciated in value as follows:

Registered investment companies	\$3,635,772
Pooled Separate Account - Real Estate	<u>71,936</u>
	<u><u>\$3,707,708</u></u>

The TIAA Traditional Annuity is comprised of six types of contracts. The fully benefit responsive contracts are: the Group Supplemental Retirement Annuity ("GSRA"), the Supplemental Retirement Annuity ("SRA"), and the Retirement Choice Plus contracts. The non-benefit responsive contracts are: the Group Retirement Annuity ("GRA"), Retirement Annuity ("RA") and Retirement Choice contracts. The Plan utilizes the GRA and RA contracts. All of these contracts are reported at contract value. Since contract value provides a good approximation of fair value, there is no adjustment required from fair value to contract value. Under the GRA contracts, lump-sum withdrawals are available only within 120 days after termination of employment and are subject to a 2.5% surrender charge. All other withdrawals and transfers from the account are made over ten annual installments (over five years for withdrawals after termination from employment). Under the RA contract, lump-sum cash withdrawals are not allowed and transfers must be spread out in ten annual installments.

4. Investments (*continued*)

The contracts use the vintage method to credit interest to the TIAA Traditional Annuity Account. Vintages are time periods that represent when money was initially invested in the TIAA Traditional Annuity Account and corresponding interest rate during that distinct time period. The Vintage method recognizes the fact that the level of prevailing interest rates available on new long-term investments will vary over time and that as the long-term investments in a specific vintage mature, they will be reinvested at different rates. When funds flow into the TIAA Traditional Annuity Account, they are immediately invested at the prevailing pay-in-rate for new money. The funds earn interest at the prevailing vintage rates. The vintage will always consist of two parts: the guaranteed portion and the dividend portion. The guaranteed portion is 3% and represents the minimum amount of interest that will be credited to an account, regardless of the economic environment. The dividend portion represents interest earned over and above the guaranteed rate.

The TIAA Traditional Annuity Account represents approximately 33% and 37% of the Plan's net assets available for benefits as of December 31, 2013 and 2012, and represents an obligation from TIAA to repay as amounts come due. The credit risk of the issuer was evaluated by nationally recognized statistical rating agencies as follows: Moody's Investors Service (Aaa), Standard and Poor's (AA+), A.M. Best (A++), and Fitch Ratings (AAA). The plan administrator does not believe that any events would limit the Plan's ability to transact at contract value.

5. Plan Termination

Although it has not expressed any interest to do so, the Center has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

6. Tax Status

The Plan has been amended since its original effective date to satisfy the Internal Revenue Service's final 403(b) regulations. The plan administrator believes that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "Code") and is currently being operated in compliance with the applicable requirements of the Code.

7. Party-in-Interest

All investments are managed by TIAA-CREF, the Plan's record-keeper. Accordingly, these transactions are considered party-in-interest transactions.

Certain employees of the Center may also participate in the Plan or perform administrative services to the Plan at no cost to the Plan.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
