VELCON FILTERS, LLC 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Velcon Filters, LLC 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions, which is available from the Plan administrator. Alliance Benefit Group of Houston, Inc. is the Plan administrator for the Plan year ended December 31, 2013. Great-West Life & Annuity Insurance Company ("Great-West") is the custodian of all Plan assets except for cash, partnership interests receivable, and notes receivable (other than to participants).

General

The Plan is a defined contribution plan covering all permitted classes of employees who elect to participate, have attained at least 21 years of age, and have completed 90 days of service with Velcon Filters, LLC (the "Company"), a wholly owned subsidiary of Parker Hannifin Corporation ("Parker"). Employees may enter the Plan on the first day of a calendar quarter immediately following attainment of the eligibility requirements.

Parker Hannifin Corporation is the Plan's sponsor. Effective January 1, 2013, the Plan was frozen; no additional contributions or loans will be allowed, and the Plan's assets will roll into Parker's benefit plans over time. The accounts of all participants are 100% vested and nonforfeitable as of the date that the Plan was frozen.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Prior to January 1, 2013, the Plan provided for employee and employer contributions.

Participant Investment Account Options

Participants direct the investment of their contributions and rollovers from another qualified plan, as well as the Company's matching contribution, if any, into various investment options offered by the Plan. The Plan currently offers various cash equivalents, mutual funds, notes receivable (other than to participants), and partnership interests as investment options for participants.

Participant Accounts

Each eligible participant is credited or charged with his or her 401(k) deferrals, an allocation of the Company's contributions, investment earnings (losses), administrative expenses, and forfeitures of terminated participants' non-vested account balances. In addition, investment earnings (losses) are allocated based on individual account balances during the Plan year. The benefits to which a participant is entitled are the benefits that can be provided from the participant's vested account.

VELCON FILTERS, LLC 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Loans

Participant loans are generally granted if a participant incurs financial hardship or has a specified financial need. A participant may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. Loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1% at the date of loan origination. Principal and interest is paid ratably through payroll deductions. The maximum term for these loans is five years, except for a loan to purchase a primary residence, in which case the term may be extended for a longer term. Only one loan is allowed to be outstanding at any given time. Outstanding loans entered into with the Plan mature at various dates that range from 2014 to 2021 and bear interest at rates ranging from 4.25% to 9.25%.

Vesting

Prior to January 1, 2013, the Plan provided for employer contributions that vested over time. As of January 1, 2013, all accounts became fully vested.

Payments of Benefits

If a participant's vested benefit in the Plan does not exceed \$1,000 (excluding amounts attributable to rollovers), then the participant's benefit must be distributed in a single lump-sum payment as soon as administratively feasible following the event that entitles a participant to a distribution. Otherwise, a participant must consent to the distribution before it may be made, and a participant may elect to receive a distribution as a single lump-sum payment in cash or monthly, quarterly, or annual installments over a period of not more than the participant's assumed life expectancy (or his or her beneficiary's assumed life expectancy). The Plan allows the rollover of all or a portion of the distribution to an individual retirement account, annuity, or another qualified plan.

There are rules that require that certain minimum distributions be made from the Plan. If a participant is a 5% owner, distributions are required to begin no later than the first day of April following the end of the year in which a participant reaches age 70½. If a participant is not a 5% owner, distributions are required to begin no later than the first day of April following the later of the end of the year in which a participant reaches age 70½ or retires.

A participant may receive a distribution from the Plan prior to his or her termination of employment if he or she satisfies certain conditions described in the Plan document. A participant is limited to one in-service distribution in any Plan year. The Plan also allows distributions in the event of financial hardship. Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

VELCON FILTERS, LLC 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Cash and cash equivalents are valued at cost, which approximates fair value.

Quoted market prices are used to value mutual funds. Mutual funds are valued using quoted prices for identical assets that are directly observable in the marketplace as of the report date.

Investments in the guaranteed interest contract are stated at estimated fair value, which is the liquidation value based on a pro rata share of the market value of the underlying investments held in the separate account.

The fair value of notes receivable (other than to participants) is determined based upon the present value of estimated future cash flows.

There were no changes to the valuation techniques used during the period.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Reclassifications

Certain amounts in the 2012 financial statements have been reclassified to conform to the 2013 presentation.

Subsequent Events

The Company has evaluated subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Information Certified by the Custodian

The following is a summary of the information as of December 31, 2013 and 2012 and for the year ended December 31, 2013 included in the Plan's financial statements and the supplemental schedule of assets (held at end of year) as of December 31, 2013 that was prepared by or derived from information provided by Great-West and furnished to the Plan administrator.

The Plan administrator has obtained a certification from Great-West that information provided to the Plan administrator by Great-West related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with the respect to information that appears throughout the financial statements and the aforementioned supplemental schedule related to the following assets (held at end of year):

Note 5 - Party-in-Interest Transactions

The Plan invests in mutual funds, a group annuity contract, and cash and cash equivalents managed by Great-West, the custodian of these investment assets as described in Notes 1 and 2. Transactions in such investments qualify as party-in-interest transactions, which are exempt from ERISA's prohibited transaction rules.

Note 6 - Income Taxes

On March 31, 2008, the IRS issued an opinion letter indicating that the prototype document adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). Although the Plan itself has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

VELCON FILTERS, LLC 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

Note 6 - Income Taxes (continued)

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 7 - Alternative Investments

Notes Receivable (Other than to Participants)

The Plan had notes receivable (other than to participants) of \$655,000 and \$1,006,000 as of December 31, 2013 and 2012, respectively, from Prana Income Funds Nine and Ten, bearing a fixed simple annual interest rate of 8% and 6%, respectively, and maturing December 31, 2014 and December 31, 2016, respectively. These income funds, which are managed by Prana Investments, invest in 15 to 35 residential real estate properties located in transitional, inner-city areas in New York City, San Francisco Bay Area, and Los Angeles, as well as other major U.S. cities. Some of the properties may include commercial tenants located on the ground floor, which may be an important part of the rent roll of that property. The income funds may also invest in 5 to 25 short-term mortgage loans secured by similar properties. The income funds may also organize and utilize their affiliates to acquire, finance, and sell properties.

Installment principal payments in the amount of 20% of the original principal amount are due and payable on various end-of-the-year dates specified in the promissory notes. Prepayment of principal is permitted at the discretion of the borrower. On each scheduled date for payment of an installment of principal, income funds shall also pay, in addition to the fixed interest due and payable on such date, any contingent interest that has been earned or is estimated to be earned with respect to the principal amount of the promissory note paid at such time. Certain contingent interest shall be payable by the income funds to the extent income funds receive net proceeds from their real properties and the mortgage loans in excess of the amounts necessary to pay the unpaid principal on the promissory notes and any accrued but unpaid fixed interest. The terms of the notes allow Prana Investments to recharacterize previously paid contingent interest as principal payments or fixed interest payments when subsequent sales generate proceeds that are not sufficient to achieve the per annum fixed interest.

This adjustment effectively recognizes, based on recent and expected future results, that too much interest was paid to note holders in prior years and rectifies the past overpayment by reclassifying some of the interest payments that should have been payments of principal. The net effect is that the remaining principal on the notes is reduced. Net proceeds are an aggregate of the proceeds from operations, sale or appreciated value of real properties, refinancing, and mortgage loans. Prana Income Fund Ten, in addition to contingent interest, may also be obligated to pay bonus-contingent interest as defined in the promissory notes.

Note 7 - Alternative Investments (continued)

Partnership Interests

The Plan held 1.530477 units of Prana Realty Company I as of December 30, 2012, which is a general partner in City Realty Partners I, L.P. (the "Limited Partnership"). On December 31, 2012, the Plan sold its units in full for the Limited Partnership's fair value. The Limited Partnership was formed on October 31, 2007. The Limited Partnership is engaged in the acquisition, operation, and sale of real properties, primarily multi-family rent-controlled buildings, located in California and New York. Its portfolio consists of nine residential multi-family properties (185 apartment units and one commercial unit) in New York. The Limited Partnership's investments in real properties are held in separate, wholly owned limited liability companies. The Limited Partnership also makes mortgage loans to borrowers, all of which are affiliates of the general and limited partner. The Plan's investment in the Limited Partnership was valued at \$180,760 as of December 31, 2012. The Plan was no longer invested in the Limited Partnership as of December 31, 2013.

Note 8 - Fair Value Accounting

Fair value, as defined by the relevant accounting standards, represents the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Plan determines the fair values of its investments based on the fair hierarchy described below:

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets. Level 3 assets include items where the determination of fair value requires significant management judgment or estimation.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2013 and 2012.

Level 3 Changes

The following is a reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the period ended December 31, 2013:

	Group Annuity Contract	Loans (Other than to Participants)	Total
Beginning balance	\$ 384,013	\$ 1,006,000	\$ 1,390,013
Total gains or losses (realized/unrealized)			
Included in earnings	4,782	-	4,782
Withdrawals, distributions, and transfers	-	(351,000)	(351,000)
Purchases, issuances, and settlements	(35,248)	-	(35,248)
Transfers in and/or out of Level 3	-	-	-
Ending balance	<u>\$ 353,547</u>	<u>\$ 655,000</u>	<u>\$ 1,008,547</u>

The fair value of the notes receivable approximates the carrying value as the interest rates on the notes receivable approximate the market rates as of December 31, 2013. The unobservable inputs in the determination of the fair value of the notes receivable are the market interest rates, which are assumed to be 8% and 6% for Prana Income Fund 9 and Prana Income Fund 10, respectively. A 10% increase in the market interest rates would result in a decrease to the fair value of the notes receivable of approximately \$32,000. A 10% decrease in the market interest rates would result in a decrease to the fair value of the notes receivable of approximately \$19,000.

Note 9 - Group Annuity Contract

The Plan maintains a fully benefit-responsive investment contract with Great-West. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less losses, participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

VELCON FILTERS, LLC 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

Note 9 - Group Annuity Contract (continued)

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract approximates contract value. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; 3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The average yield earned by the Plan based on actual earnings was 1.26% and 1.45% for the years ended December 31, 2013 and 2012, respectively. The average yield earned by the Plan based on interest rate credited to the participants was 1.26% and 1.45% for the years ended December 31, 2013 and 2012, respectively.
