HIGHLINE MEDICAL CENTER TAX SHELTERED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of the Plan

The following description of the Highline Medical Center Tax Sheltered Annuity Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General - The Plan is a 403(b) tax sheltered annuity salary deferral plan covering substantially all employees of Highline Medical Center (the Medical Center), and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Highline Medical Center (the Plan Sponsor) is the Plan's sponsor and serves as Plan administrator.

Eligibility - Employees of the Medical Center are eligible to participate in the Plan upon reaching age 18 and after completing two years of service in which at least 1,000 hours are worked in the first 24 consecutive months. Plan entry dates are restricted to the beginning of each quarter. Participants must complete at least two years of service to be eligible to receive any employer-paid matching contributions.

Contributions

Participant contributions - Each year, participants may contribute between 1% and 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and discretionary contributions - The Medical Center matches 100% of employee contributions, up to 2% of eligible compensation deferred to the Plan. The Plan Sponsor further contributes a discretionary contribution equal to 5% of compensation for each employee who is eligible for the discretionary contributions.

Contributions are subject to regulatory limitations.

Participant accounts - Each participant's account is credited with the participant's contributions and Medical Center's matching and discretionary contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting - Participants are immediately vested in their contributions and all employer contributions, plus actual earnings thereon.

HIGHLINE MEDICAL CENTER TAX SHELTERED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of the Plan (continued)

Notes receivable from participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of 5 years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed 15 years. Under the terms of the Plan agreement, Plan loans will bear a reasonable rate of interest determined by the local prevailing rate. Principal and interest are paid ratably through monthly payroll deductions. As of December 31, 2013, the rates of interest on outstanding loans ranged from 4.25% to 9.25% with various maturities through March 2026.

Payment of benefits - Upon termination of service due to termination, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments where the minimum payment is greater than \$50, or annuity payments through an insurance company, or he or she may roll the funds into another qualified account.

Note 2 - Summary of Accounting Policies

Basis of accounting - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation - The investments are stated at fair value. The Plan's custodians, Fidelity Management Trust Company (Fidelity), Lincoln National Life Insurance Company (Lincoln), and American United Life Insurance (OneAmerica), certify the contract value of the guaranteed investment contract and the fair market value of all other investments. If available, quoted market prices are used to value investments. Investments held by American Century Investments (American Century) are also reported at fair value, but were not certified as of December 31, 2013.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date (Note 4).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

HIGHLINE MEDICAL CENTER TAX SHELTERED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of Accounting Policies (continued)

Income recognition - Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants - Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement.

Payment of benefits - Benefits are recorded when paid.

Expenses - Several of the investment fund options are subject to investment and administrative fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance; thus, they are not separately disclosed in the accompanying financial statements. Participants are assessed separate fees for the administration of loans and repayments thereof, as well as investment advisory services, and such fees are separately disclosed in the financial statements. All other administrative expenses related to the Plan are paid by the Plan Sponsor.

Subsequent events - Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statements of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statements of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are issued.

The Plan has evaluated subsequent events through July 29, 2014, which is the date the financial statements are available to be issued.

Note 3 - Investments

Investments representing 5% or more of net assets available for benefits consist of the following as of December 31:

	2013	2012
Mutual funds		
American Beacon SPTN 500 Index Ins	\$ 6,792,128	N/A
Annuity funds		
VALIC Fixed Account	36,040,034	35,528,158

N/A - Investment did not represent 5% or more of net assets available for benefits.

HIGHLINE MEDICAL CENTER TAX SHELTERED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies (mutual funds) - Shares of registered investment company funds (or mutual funds) are valued at the quoted market price in active markets, which represents the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded. Registered investment companies are classified in Level 1 of the fair value hierarchy.

Guaranteed interest accounts - The Plan offers participants guaranteed interest accounts through Variable Annuity Life Insurance Company (VALIC) as reported by Fidelity, Lincoln, and OneAmerica that provide a guaranteed interest rate for a stated period. In accordance with generally accepted accounting principles, the investment in guaranteed interest accounts is stated at fair market value, which is determined based on contract value plus or minus an adjustment for the difference between current market interest rates and the actual interest rates on the accounts, if any. Guaranteed interest accounts promise contract value for a benefit event (termination, death, disability, or retirement); however, there is a possible market value adjustment when funds are withdrawn prior to their maturity. Guaranteed interest accounts are classified in Level 2 or 3 of the fair value hierarchy.

HIGHLINE MEDICAL CENTER TAX SHELTERED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair Value Measurements (continued)

The following table discloses the summary of changes in the fair value of the Plan's Level 3 investment assets:

	Guaranteed Investment Contract
Balance, beginning of year	\$ 35,528,158
Unrealized gains for the period relating to assets still held at the reporting date	791,556
Purchases	3,690,015
Sales	(3,969,538)
Balance, end of year	<u>\$ 36,040,191</u>

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements:

Name	Fair Value	Valuation Technique	Unobservable Inputs	Range of Input Values/ (Weighted Average)
GIC	\$ 36,040,191	Discounted cash flow	Discount rate Crediting interest rate	.33-.44% 1.15-1.75%

In the event that full value of the account could not be paid upon demand, the "fair value" estimates are based upon "demand value" for the contract—i.e., the cash flow due to the contract holder under the surrender provisions of the contract, discounted according to risk-adjusted market rates. In addition to the five annual payments, mid-year withdrawals in the amount of 7% of each beginning-of-year value are assumed to be distributed in benefit-eligible events, so they are not affected by the restriction. Discount rates used are USD Industrial A+ fair market rates as of the valuation date.

Note 5 - Guaranteed Interest Accounts

The adjustment from fair value to contract value is based on the contract value as reported to Fidelity by VALIC represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses. The contracts are fully benefit-responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

HIGHLINE MEDICAL CENTER TAX SHELTERED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS

Note 5 - Guaranteed Interest Accounts (continued)

These accounts provide fixed return investment growth for the short term. Funds are credited with guaranteed interest rates set by VALIC and vary based on the date the participant established their account. Generally, for most series, a current interest rate is declared at the beginning of each calendar month and is applicable to new contributions received during that month. Interest is credited to the account daily and compounded at an annual rate. VALIC guarantees that all contributions received during a calendar month will receive that month's current interest rate for the remainder of the calendar year.

There are no reserves against contract value for credit risk for the contract issuer or otherwise. Crediting rates on the investment contracts are based on a formula agreed upon with the issuer. It is VALIC's position that the average yield of the fund and the average yield credited to the participants are the same, since there is no ownership right to the assets in the general account that support the obligations of the fixed account options. As of December 31, 2013 and 2012, the average yield was 1.00%, based on timing of the initial investment and series invested in.

The Plan holds investments in the Portfolio Director Group Fixed and Variable Deferred Annuity Contract (PD) and the V-Plan Group Fixed Annuity Contract (VP). PD series funds are subject to a 20%-per-year restriction. VP series funds are not subject to this restriction.

Note 6 - Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The terms of the Plan have been prepared to conform with the sample language provided by the IRS. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax exempt status for participants under Section 403(b).

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

HIGHLINE MEDICAL CENTER TAX SHELTERED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of the Plan

The following description of the Highline Medical Center Tax Sheltered Annuity Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General - The Plan is a 403(b) tax sheltered annuity salary deferral plan covering substantially all employees of Highline Medical Center (the Medical Center), and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Highline Medical Center (the Plan Sponsor) is the Plan's sponsor and serves as Plan administrator.

Eligibility - Employees of the Medical Center are eligible to participate in the Plan upon reaching age 18 and after completing two years of service in which at least 1,000 hours are worked in the first 24 consecutive months. Plan entry dates are restricted to the beginning of each quarter. Participants must complete at least two years of service to be eligible to receive any employer-paid matching contributions.

Contributions

Participant contributions - Each year, participants may contribute between 1% and 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and discretionary contributions - The Medical Center matches 100% of employee contributions, up to 2% of eligible compensation deferred to the Plan. The Plan Sponsor further contributes a discretionary contribution equal to 5% of compensation for each employee who is eligible for the discretionary contributions.

Contributions are subject to regulatory limitations.

Participant accounts - Each participant's account is credited with the participant's contributions and Medical Center's matching and discretionary contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting - Participants are immediately vested in their contributions and all employer contributions, plus actual earnings thereon.

HIGHLINE MEDICAL CENTER TAX SHELTERED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of the Plan (continued)

Notes receivable from participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of 5 years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed 15 years. Under the terms of the Plan agreement, Plan loans will bear a reasonable rate of interest determined by the local prevailing rate. Principal and interest are paid ratably through monthly payroll deductions. As of December 31, 2013, the rates of interest on outstanding loans ranged from 4.25% to 9.25% with various maturities through March 2026.

Payment of benefits - Upon termination of service due to termination, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments where the minimum payment is greater than \$50, or annuity payments through an insurance company, or he or she may roll the funds into another qualified account.

Note 2 - Summary of Accounting Policies

Basis of accounting - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation - The investments are stated at fair value. The Plan's custodians, Fidelity Management Trust Company (Fidelity), Lincoln National Life Insurance Company (Lincoln), and American United Life Insurance (OneAmerica), certify the contract value of the guaranteed investment contract and the fair market value of all other investments. If available, quoted market prices are used to value investments. Investments held by American Century Investments (American Century) are also reported at fair value, but were not certified as of December 31, 2013.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date (Note 4).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

HIGHLINE MEDICAL CENTER TAX SHELTERED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of Accounting Policies (continued)

Income recognition - Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants - Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement.

Payment of benefits - Benefits are recorded when paid.

Expenses - Several of the investment fund options are subject to investment and administrative fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance; thus, they are not separately disclosed in the accompanying financial statements. Participants are assessed separate fees for the administration of loans and repayments thereof, as well as investment advisory services, and such fees are separately disclosed in the financial statements. All other administrative expenses related to the Plan are paid by the Plan Sponsor.

Subsequent events - Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statements of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statements of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are issued.

The Plan has evaluated subsequent events through July 29, 2014, which is the date the financial statements are available to be issued.

Note 3 - Investments

Investments representing 5% or more of net assets available for benefits consist of the following as of December 31:

	2013	2012
Mutual funds		
American Beacon SPTN 500 Index Ins	\$ 6,792,128	N/A
Annuity funds		
VALIC Fixed Account	36,040,034	35,528,158

N/A - Investment did not represent 5% or more of net assets available for benefits.

HIGHLINE MEDICAL CENTER TAX SHELTERED ANNUITY PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies (mutual funds) - Shares of registered investment company funds (or mutual funds) are valued at the quoted market price in active markets, which represents the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded. Registered investment companies are classified in Level 1 of the fair value hierarchy.

Guaranteed interest accounts - The Plan offers participants guaranteed interest accounts through Variable Annuity Life Insurance Company (VALIC) as reported by Fidelity, Lincoln, and OneAmerica that provide a guaranteed interest rate for a stated period. In accordance with generally accepted accounting principles, the investment in guaranteed interest accounts is stated at fair market value, which is determined based on contract value plus or minus an adjustment for the difference between current market interest rates and the actual interest rates on the accounts, if any. Guaranteed interest accounts promise contract value for a benefit event (termination, death, disability, or retirement); however, there is a possible market value adjustment when funds are withdrawn prior to their maturity. Guaranteed interest accounts are classified in Level 2 or 3 of the fair value hierarchy.

Note 4 - Fair Value Measurements (continued)

The following table discloses the summary of changes in the fair value of the Plan's Level 3 investment assets:

	Guaranteed Investment Contract
Balance, beginning of year	\$ 35,528,158
Unrealized gains for the period relating to assets still held at the reporting date	791,556
Purchases	3,690,015
Sales	(3,969,538)
Balance, end of year	<u>\$ 36,040,191</u>

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements:

Name	Fair Value	Valuation Technique	Unobservable Inputs	Range of Input Values/ (Weighted Average)
GIC	\$ 36,040,191	Discounted cash flow	Discount rate Crediting interest rate	.33-.44% 1.15-1.75%

In the event that full value of the account could not be paid upon demand, the "fair value" estimates are based upon "demand value" for the contract—i.e., the cash flow due to the contract holder under the surrender provisions of the contract, discounted according to risk-adjusted market rates. In addition to the five annual payments, mid-year withdrawals in the amount of 7% of each beginning-of-year value are assumed to be distributed in benefit-eligible events, so they are not affected by the restriction. Discount rates used are USD Industrial A+ fair market rates as of the valuation date.

Note 5 - Guaranteed Interest Accounts

The adjustment from fair value to contract value is based on the contract value as reported to Fidelity by VALIC represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses. The contracts are fully benefit-responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 5 - Guaranteed Interest Accounts (continued)

These accounts provide fixed return investment growth for the short term. Funds are credited with guaranteed interest rates set by VALIC and vary based on the date the participant established their account. Generally, for most series, a current interest rate is declared at the beginning of each calendar month and is applicable to new contributions received during that month. Interest is credited to the account daily and compounded at an annual rate. VALIC guarantees that all contributions received during a calendar month will receive that month's current interest rate for the remainder of the calendar year.

There are no reserves against contract value for credit risk for the contract issuer or otherwise. Crediting rates on the investment contracts are based on a formula agreed upon with the issuer. It is VALIC's position that the average yield of the fund and the average yield credited to the participants are the same, since there is no ownership right to the assets in the general account that support the obligations of the fixed account options. As of December 31, 2013 and 2012, the average yield was 1.00%, based on timing of the initial investment and series invested in.

The Plan holds investments in the Portfolio Director Group Fixed and Variable Deferred Annuity Contract (PD) and the V-Plan Group Fixed Annuity Contract (VP). PD series funds are subject to a 20%-per-year restriction. VP series funds are not subject to this restriction.

Note 6 - Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The terms of the Plan have been prepared to conform with the sample language provided by the IRS. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax exempt status for participants under Section 403(b).

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.
