ASHFIELD RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2013 AND 2012
AND FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE A - Description of Plan

The following description of the Ashfield Retirement Plan (formerly known as the Alliance Healthcare Information LLC 401(k) Plan) (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

In 2007, United Drug purchased Alliance Healthcare LLC, the former plan sponsor. On January 1, 2013, Alliance Healthcare LLC and Ashfield Healthcare LLC merged. The surviving company was Ashfield Healthcare LLC. Effective January 1, 2013, the name of the surviving Plan was changed to the Ashfield Retirement Plan.

General - The Plan is a defined contribution profit sharing plan covering all eligible employees who are employed by Ashfield Healthcare LLC (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may elect to contribute up to 90% of their compensation to the Plan up to the maximum dollar amount permissible under the Internal Revenue Code. Participant's can make pre-tax or Roth contributions to the plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their accounts into various investment options offered by the Plan. Effective January 1, 2013, the matching contributions is 100% of the first 2% and 50% of the next 2% of eligible compensation. The Company, at its discretion and determined on a yearly basis, may choose to make a profit sharing contribution to the Plan. The employer did not make a discretionary profit sharing contribution for the year ended December 31, 2013.

Participant Accounts - Each participant's account is credited with the participant's contribution and earnings thereon and an allocation of the Company's contribution. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions and earnings thereon. Participants are vested in employer contributions and earnings thereon on a graded schedule over five years of service, as defined by the Plan document. Effective January 1, 2013, all former Ashfield Healthcare LLC employees who were merged into the Plan are immediately vested in their employer contributions and earnings from the previous plan.

Investment Options - Upon enrollment in the Plan, participants may direct employee and related employer contributions into a range of mutual funds and common collective trust funds. All investments are participant directed and investment options can be changed daily.

Forfeitures - Under the Plan, forfeited nonvested contributions may be used to reduce future employer contributions or pay plan administrative expenses. For the year ended December 31, 2013, employer contributions were reduced by $6,700 forfeited nonvested contributions. At December 31, 2013 and 2012, the forfeited nonvested contributions available to offset future employer contributions or pay plan administrative expenses was $20 and $10, respectively.

ASHFIELD RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2013 AND 2012
AND FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE A - Description of Plan - continued

Notes Receivable from Participants - Participants may borrow up to the lesser of $50,000 or 50% of their vested account balance, with a minimum of $1,000. Loans are to be paid through payroll deductions over a period of one to five years. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.00%. Interest payments are deposited directly to the participant's account.

Payment of Benefits - Benefit payments are permitted in the event of death, disability, termination of employment, a proven hardship, or attainment of age 59-1/2 while still employed. A participant (or participant's beneficiary in the event of death) receives an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment or partial withdrawals.

Plan Expenses - Certain expenses of maintaining the Plan are paid directly by the Company. Administrative expenses, which consist of loan and benefit payment processing fees at the time of application, are paid by the applicable participants who request the transaction.

NOTE B - Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting and Use of Estimates - The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Net realized and unrealized investment gains and losses are reported as net appreciation in fair value of investments in the statement of changes in net assets available for benefits. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

ASHFIELD RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2013 AND 2012
AND FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE B - Summary of Significant Accounting Policies - continued

Payment of Benefits - Benefits are recorded when paid.

Notes Receivable from Participants - Loans to participants are reported at their unpaid principal balance plus accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as prices for similar assets or liabilities, quoted market prices in markets that are not active, or inputs (interest rates, currency exchange rates and yield curves) that are observable or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Inputs that are not observable in the market and reflect management's judgment about the assumptions that market participants would use in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Mutual funds - Valued at the daily closing price reported by the fund.

Common Collective Trust Funds - Valued at the net asset value using independent pricing services of providers approved by the trustee. Common collective trust funds are classified by the Plan as primarily Level 2 holdings.

AS OF DECEMBER 31, 2013 AND 2012
AND FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE E - Information Certified by the Plan's Trustee

The Plan's investments were held by State Street Bank and Trust Company (the "Trustee"). The following investment information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the Trustee.

Investment balances included in the statements of net assets available for benefits as of December 31, 2013 and 2012.

Notes receivable from participants included in the statements of net assets available for benefits as of December 31, 2013 and 2012.

Dividends, interest and net appreciation/depreciation in fair value of investment balances included in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

Interest income from notes receivable from participants included in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

Information included in the accompanying schedule of assets held at December 31, 2013.

NOTE F - Plan Termination

Although management has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their share of employer contributions and earnings thereon.

NOTE G - Tax Status

On March 31, 2008, the IRS stated that the prototype plan adopted by the Plan, as then designed, is acceptable under the Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE H - Party-In-Interest

A portion of the Plan investments at December 31, 2013 and 2012 are shares of common collective trust funds managed and/or held by State Street Global Services. State Street Bank and Trust Company is the Trustee for the Plan at December 31, 2013 and 2012. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transactions rules of ERISA.

ASHFIELD RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2013 AND 2012
AND FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE I - Risks and Uncertainties

The Plan invests in various investment securities as directed by participants. Investment securities are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE J - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits reported in the financial statements to the amounts reported in the Form 5500 at December 31, 2013:

Net assets available for benefits per the financial statement	$ 5,069,526
Add: 2013 Excess contributions payable	30,279
Net assets available for benefits per Schedule H Form 5500	$ 5,099,805

The following is a reconciliation of total deductions from net assets per the financial statements to the Form 5500 for the year ended December 31, 2013:
