Notes to Financial Statements
December 31, 2013 and 2012

Note A – Description of plan

WorldLink, Inc. established the WorldLink 401(k) Plan effective January 1, 2007. In 2013 WorldLink, Inc., the Plan Sponsor, became Adi WorldLink, LLC. The following description of the WorldLink 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution prototype plan covering all full-time employees of the Company who have one hour of service and who are not contractors or seasonal temporary employees. In 2013 the Plan was amended to require three months of service and a minimum age of twenty-one. Enrollment is permitted on the first day of the month following the completion of the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to the lesser of 90% or $17,500 of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan automatically defers 3% for all eligible participants that do not make an affirmative deferral election.

Company contribution. Effective in 2013 Company contributions are not allowed under the Plan. During the plan year ending December 31, 2013 no Company contributions occurred and no Company contributions have occurred during the life of the Plan.

Rollovers. Participants may also contribute amounts representing distributions from other eligible retirement plans. Contributions are subject to certain limitations. All contributions are paid in cash.

Participant accounts. Each participant's account is credited with the participant's contribution and allocations of (a) Plan earnings (losses) and (b) cost of investment management expenses, transactional costs and service charges. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participants' account and bear interest at prime rate plus 2%. Loan payments are required to be remitted through payroll deductions.

Payment of benefits. On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount in cash or as a rollover equal to the value of the participant's vested interest in his or her account.

Note A – Description of plan (continued)

Investment options. Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment options. Participants may change their deferral percentage and investment options as often as they choose through the internet. Participants may terminate deferrals at any time.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon.

Note B – Summary of significant accounting policies

Basis of accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note J for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Note B – Summary of significant accounting policies (continued)

Payment of benefits. Benefits are recorded when paid.

Withdrawals. Participants may make hardship withdrawals subject to certain restrictions In-service withdrawals of vested account balances are permitted for participants over age 59 1/2.

Forfeitures. Forfeitures are held by the Plan to determine if amounts should be restored to terminated participants. Forfeitures may be used to pay administrative expenses or to reduce employer contributions. At December 31, 2013 and 2012 there were no forfeited nonvested accounts and no employer contributions were reduced from forfeited nonvested accounts.

Administrative expenses. Administrative expenses consist of fees for recordkeeping and other administrative services. Some fees are deducted from participant accounts in accordance with the Plan documents for services received. The Company pays a portion of the plan administrative expenses each year.

Note C – Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note D – Tax status

WorldLink, Inc. adopted a prototype plan provided by Automatic Data Processing. The IRS has informed ADP Inc. by opinion letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Code. The Plan administrator has analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note E – Risk/uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note F – Related party transactions

Certain Plan investments are shares of mutual funds. Some of these investments are managed by State Street Bank and Trust Company and some are managed by Oppenheimer Funds Inc. State Street Bank and Trust Company is the Trustee, as defined in the Plan, and Oppenheimer & Co Inc. is an advisor to the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (loss) in fair value of investments and fees paid by the Plan for advisor fees are included in administrative expense.

Note G – Information certified by the plan's trustee

Plan assets are held by State Street Bank and Trust Company, the Trustee. The Trustee holds the Plan's investment assets and executes investment transactions in accordance with the Plan documents. The information provided by the Trustee is certified as complete and accurate in accordance with 29 CF 2520.103-5c of the Department of Labor's Rules and Regulations for Reporting and disclosure under Employee Retirement Income Security Act of 1974. The Trustee's certification covers all information as shown below, and the supplemental schedules.

	Year ended December 31,	
	2013	2012
Interest with registered investment companies	$ 3,999,514	$ 1,965,895
Interest with common/collective trusts	30,624	20,329
Notes receivable from participants	24,971	12,742
	$ 4,055,109	$ 1,998,966

Note G – Information certified by the plan's trustee (continued)

For the year ended December 31, 2013, the net appreciation in fair value of investments in registered investment companies was $460,656 and the net appreciation in common/collective trust was $434. Interest income was $423 and dividend income was $110,969 for the year ended December 31, 2013.

The plan's independent auditors did not perform audit procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note H – Common/collective investment trusts

Invesco Stable Asset Trust (the "Trust") is a collective trust established by Invesco National Trust Company, a national trust bank organized and existing under the laws of the United States, effective as of January 21, 2011. This collective Trust was established for purposes of collectively investing and reinvesting the assets of eligible pension and profit sharing trusts and other eligible entities.

The Trust's primary investment objectives are to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity.

In accordance with Accounting Standards Codification ("ASC") 946-210-45 through 946-210-55, Reporting of Fully Benefit-Responsive Investment Contracts, investments held by the Trust are required to be reported at fair value, which is generally determined as the amount that could reasonably be expected to realize from an orderly disposition of securities and other financial instruments over a reasonable period of time. However, contract value is the relevant measurement attribute for that portion of the net assets of the Trust attributable to fully benefit responsive investment contracts because contract value is the amount unitholders would receive if they were to initiate permitted transactions under the terms of the underlying defined contribution plans.

As of December 31, 2013, Trust's management believes the occurrence of an event that would limit the ability of the Fund to transact at contract value with the unitholders in the Fund is not probable.

Note H – Common/collective investment trusts (continued)

Short-term securities are stated at amortized cost (which approximates market value) if maturity is 60 days or less at the time of purchase, or at market value if maturity is greater than 60 days.

Investments in units of affiliated collective trusts are valued at the respective net asset values as reported by such Trusts, and are categorized as Level 2 in the fair value hierarchy.

	2013	2012
Average yields:		
Total return earned at December 31	0.61%	0.85%
Net investment income earned at December 31	0.61%	0.85%

Note I – Investments

T. Rowe Price Retirement 2040-R	$ 1,386,985	$ 711,651

T. Rowe Price Retirement 2020-R	376,501	192,040
PIMCO Total Return Fund - A	141,159	106,937

Growth & Income	339,670
Common /collective trust	434

	$ 461,090

All investments of the Plan are participant-directed.

Note J – Fair value measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common/Collective trust funds: Valued at fair value. (see Note H for further description)

Note J – Fair value measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013.

	Level 1	Level 2	Level 3	Total
Mutual funds				
Aggressive Growth	$ 401,772	$ 0	$ 0	$ 401,772
Growth	576,440	0	0	576,440
Growth & Income	2,880,143	0	0	2,880,143
Income	141,159	0	0	141,159

Total assets at fair value	$ 3,999,514	$ 30,624	$ 0	$ 4,030,138

Gains and losses (realized and unrealized) included in changes in net assets available for Plan benefits for the year ended December 31, 2013 are reported in net appreciation in fair value of investments in registered investment companies and net appreciation in common/collective trust.

There were no significant transfers between Levels 1, 2, or 3 as of December 31, 2013.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012.
