INDEPENDENT AUDITOR'S REPORT

TO THE PLAN TRUSTEES OF
BLISTEX INC. EMPLOYEE BENEFIT PLAN AND TRUST

We have audited the accompanying financial statements of Blistex Inc. Employee Benefit Plan and Trust (the Plan), which comprise the statements of net assets available for benefits and of plan's benefit obligations as of December 31, 2013, and the related statements of changes in net assets available for benefits and of changes in plan's benefit obligations for the year ended December 31, 2013, and the related notes to the financial statements. Other accountants were engaged to audit the financial statements of the Plan as of and for the year ended December 31, 2012, whose report dated July 8, 2013, expressed an unqualified opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the Unites States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

p|o

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of Blistex Inc. Employee Benefit Plan and Trust as of December 31, 2013, and the changes in its financial status for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and schedule of reportable transactions that are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The accompanying supplemental five-year summary of operations is presented for the purpose of additional analysis and is not a required part of the financial statements. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note:

1. DESCRIPTION OF THE PLAN

The following description of the Blistex Inc. Employee Benefit Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan was established in 1982 to provide health care benefits for eligible Blistex Inc. (Employer) employees, their dependents and retired employees. The Plan also provides basic and voluntary life, long-term disability and accidental death, and disability to all employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

Overall the responsibility for administering the Plan rests with the Plan committee and Trustees of the Plan. The Employer directly absorbs a majority of the costs related to the administration of the Plan.

Contributions

The Plan is funded through contributions by the Employer and employees. The Employer contributes amounts to the Plan that are necessary to fund claims and Plan expenses. Employees contribute specified amounts to the Plan, as determined by the Trustees of the Plan, through payroll deductions.

Benefits

The Plan provides health benefits (medical, hospital, surgical, major medical, prescription benefits, and dental), flexible spending accounts, life insurance, disability, and death benefits to all full-time Blistex Inc. employees with at least 30 days of service, and all permanent, part-time employees with at least 60 days of service, and to their eligible dependents. Retired employees who were hired prior to December 31, 2006, attained 62 years of age, and who have completed at least 10 years of continuous, active, full-time service immediately prior to retirement are eligible for participation in the medical, dental, and prescription programs. Retired employees who continue in these employer-sponsored programs must apply for Medicare at age 65. Employees who cease employment may also purchase group coverage under COBRA.

Benefits paid under the Plan are administered by Blue Cross Blue Shield of Illinois (BCBSIL) under a minimum premium group insurance contract. Terms of the agreement require the Plan to pay claims up to $80,000 per participant for the years ended December 31, 2013 and 2012, after which benefits are paid by BCBSIL.

Note:

1. DESCRIPTION OF THE PLAN (Continued):

Benefits (continued)

Other benefits including long-term disability, life and accidental death and dismemberment, and weekly disability income coverage are provided by the Plan and are fully insured through the purchase of coverage from a third party insurer. The Plan retains no risk of loss associated with these benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of the Plan's financial statements in conformity with accounting standards generally accepted in the United State of America requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated postretirement benefit obligations as of the benefit information date, the changes in net assets available for benefits during the reporting period, and when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Payment of Benefits

Insurance premiums, claims and administration of service fees for health care benefits are recorded when paid.

Health Claims Payable

Claims reported but not paid at year-end have been estimated based on claims payment data of the Plan.

Estimated Liability for Claims Incurred but Not Reported

The estimated liability for claims incurred but not reported is calculated based on the Plan's claims experience. This estimated reserve totaled $129,432 and $151,000 at December 31, 2013 and 2012, respectively.

Note:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Valuation if Investments and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the cash basis.

Actuarial Present Value of Accumulated Postretirement Benefits

The amount reported as the accumulated postretirement benefit obligation represents the actuarial present value of these estimated future benefits that are attributed by the terms of the Plan to the employees' service rendered to the date of the financial statements, reduced by the actuarial present value of the contributions expected to be received in the future from current Plan participants. Postretirement benefits include current and future benefits expected to be paid to or for: (1) currently retired employees and their beneficiaries and dependents, and (2) active employees and their beneficiaries and dependents after retirement from service with the sponsor. Prior to an active employee's full eligibility date, the postretirement benefit option is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

For measurement purposes, the following significant assumptions were used in the valuations as of December 31, 2013 and 2012, respectively:

The annual rate of increase in the per capita health care cost is 10% and 10.50% for 2013 and 2012, respectively. The rate was assumed to decrease gradually to 4% by 2026.

	2013	2012
Weighted-average discount rate	5.25%	4.75%
Average retirement age	65	65

The RP-2000 Mortality Table (male and female) projected to 2020 was utilized for 2013 and 2012, respectively.

Note:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Actuarial Present Value of Accumulated Postretirement Benefits (Continued)

The forgoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of postretirement benefit obligation.

The weighted-average health care cost trend assumptions have a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by one percentage point in each year, it would increase the accumulated postretirement benefit obligation as of December 31, 2013 and 2012 by $309,692 and $331,058, respectively. A one percentage point decrease in each year would decrease the accumulated postretirement benefit obligation as of December 31, 2013 and 2012 by $242,598 and $257,784, respectively.

In December 2003, the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 was passed, which introduces into law a prescription drug benefit under Medicare (Medicare Part D) as well as a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. As the Employer, not the Plan itself, will receive the subsidy and is not legally required to use funds to help pay postretirement benefits, the Plan's accumulated postretirement benefit obligation (APBO) and changes in APBO do not reflect the amounts associated with the Medicare subsidy to the Employer for the prescription drug coverage.

3. FAIR VALUE MEASUREMENTS

The Plan measures, monitors, and discloses its assets on a fair value basis in accordance with Financial Accounting Standards Board Accounting Standards Codification 820 (ASC 820) Fair Value Measurements and Disclosures. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Valuations based on quoted prices for identical assets or liabilities in active markets;
- Level 2 – Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets;
- Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models and similar techniques not based on market, exchange, dealer or broker-traded transactions.

Note:

3. FAIR VALUE MEASUREMENTS (Continued):

The following is a description of the valuation methodologies used for assets measured at fair value:

Money market funds are valued at a stable $1.00 net asset value, which is the value at which the fund is traded and approximates fair value of the underlying investments. Money market funds are considered Level 1 investments.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Value Measurements Using:			
	Quoted Prices in Active Markets For identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
December 31, 2013				
Money market fund	$102,149	$ -	$ -	$102,149
December 31, 2012				
Money market fund	$127,167	$ -	$ -	$127,167

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. INVESTMENTS

The Plan's investments are held by a bank-administered trust fund. The fair value of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2013 and 2012 is as follows:

	2013	2012
Wells Fargo Advantage Cash Investment Money Market Fund – Service Class	$102,149	$127,167

Interest income received from the money market fund totaled $92 and $88 in 2013 and 2012, respectively.

Note:

5. PLAN BENEFIT OBLIGATIONS

The Plan's deficiency of net assets over benefit obligation at December 31, 2013 and 2012 relates primarily to the postretirement benefit obligation, the funding of which is not covered by the contribution rate. It is expected that the deficiency will be funded on an as needed basis.

6. TAX STATUS

The Trust established under the Plan to hold the Plan's assets obtained its latest determination letter on January 17, 1984, in which the Internal Revenue Service stated that the Trust, as then designed, was in compliance with Section 501(c)(9) of the Internal Revenue Code (IRC), and, accordingly, the Trust's net investment income is exempt from income taxes. The Trust has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Trust is currently designed and being operated in compliance with the applicable requirements of the IRC.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	$78,107	$134,628
Benefit obligations currently payable (health claims, death and disability benefits)	(23,647)	(39,821)
Net assets available for benefits per Form 5500	$54,460	$ 94,807

The following is a reconciliation of the change in net assets available for benefits per the financial statements to Form 5500:

	2013	2012
Change in net assets available for benefits per the financial statements	$56,521	$55,575
Change in amounts currently payable	(16,174)	(22,650)
Change in net assets available for benefits per Form 5500	$40,347	$32,925

Amounts currently payable to or for participants, dependents and beneficiaries are recorded on Form 5500 for benefits claims that have been processed and approved for payments prior to December 31, but not yet paid as of that date.

Note:

8. PRIORITIES UPON TERMINATION

It is the intent of the Trustees to continue the Plan in full force and effect. However, in the event of termination, and in order to safeguard against any unforeseen contingencies, the right to discontinue the Plan is reserved by the Trustees. In the event of termination, the Trustees shall first satisfy or make provisions to satisfy the obligations of the Plan. Any remaining assets will be distributed in such manner as will, in the opinion of the Trustees, bring about the purpose of the Plan.

9. PARTY-IN-INTEREST TRANSACTIONS

BCBSIL, a party-in-interest to the Plan, received administrative and stop loss insurance fees from the Plan of $523,843 and $549,146 during the years ended December 31, 2013 and 2012, respectively. Amounts payable to BCBS for the aforementioned fees were $44,073 and $38,524 at December 31, 2013 and 2012, respectively

10. RISKS AND UNCERTAINITIES

Contributions to the Plan and the actuarial present value of accumulated postretirement benefit obligations are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan invests in a combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

11. SUBSEQUENT EVENTS

Management has evaluated subsequent events through July 2, 2014, the date the financial statements were available to be issued. Based on our evaluation, no additional material events have occurred requiring disclosure.

INDEPENDENT AUDITOR'S REPORT

TO THE PLAN TRUSTEES OF
BLISTEX INC. EMPLOYEE BENEFIT PLAN AND TRUST

We have audited the accompanying financial statements of Blistex Inc. Employee Benefit Plan and Trust (the Plan), which comprise the statements of net assets available for benefits and of plan's benefit obligations as of December 31, 2013, and the related statements of changes in net assets available for benefits and of changes in plan's benefit obligations for the year ended December 31, 2013, and the related notes to the financial statements. Other accountants were engaged to audit the financial statements of the Plan as of and for the year ended December 31, 2012, whose report dated July 8, 2013, expressed an unqualified opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the Unites States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

p|o

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of Blistex Inc. Employee Benefit Plan and Trust as of December 31, 2013, and the changes in its financial status for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and schedule of reportable transactions that are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The accompanying supplemental five-year summary of operations is presented for the purpose of additional analysis and is not a required part of the financial statements. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note:

1. DESCRIPTION OF THE PLAN

The following description of the Blistex Inc. Employee Benefit Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan was established in 1982 to provide health care benefits for eligible Blistex Inc. (Employer) employees, their dependents and retired employees. The Plan also provides basic and voluntary life, long-term disability and accidental death, and disability to all employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

Overall the responsibility for administering the Plan rests with the Plan committee and Trustees of the Plan. The Employer directly absorbs a majority of the costs related to the administration of the Plan.

Contributions

The Plan is funded through contributions by the Employer and employees. The Employer contributes amounts to the Plan that are necessary to fund claims and Plan expenses. Employees contribute specified amounts to the Plan, as determined by the Trustees of the Plan, through payroll deductions.

Benefits

The Plan provides health benefits (medical, hospital, surgical, major medical, prescription benefits, and dental), flexible spending accounts, life insurance, disability, and death benefits to all full-time Blistex Inc. employees with at least 30 days of service, and all permanent, part-time employees with at least 60 days of service, and to their eligible dependents. Retired employees who were hired prior to December 31, 2006, attained 62 years of age, and who have completed at least 10 years of continuous, active, full-time service immediately prior to retirement are eligible for participation in the medical, dental, and prescription programs. Retired employees who continue in these employer-sponsored programs must apply for Medicare at age 65. Employees who cease employment may also purchase group coverage under COBRA.

Benefits paid under the Plan are administered by Blue Cross Blue Shield of Illinois (BCBSIL) under a minimum premium group insurance contract. Terms of the agreement require the Plan to pay claims up to $80,000 per participant for the years ended December 31, 2013 and 2012, after which benefits are paid by BCBSIL.

Note:

1. DESCRIPTION OF THE PLAN (Continued):

Benefits (continued)

Other benefits including long-term disability, life and accidental death and dismemberment, and weekly disability income coverage are provided by the Plan and are fully insured through the purchase of coverage from a third party insurer. The Plan retains no risk of loss associated with these benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of the Plan's financial statements in conformity with accounting standards generally accepted in the United State of America requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated postretirement benefit obligations as of the benefit information date, the changes in net assets available for benefits during the reporting period, and when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Payment of Benefits

Insurance premiums, claims and administration of service fees for health care benefits are recorded when paid.

Health Claims Payable

Claims reported but not paid at year-end have been estimated based on claims payment data of the Plan.

Estimated Liability for Claims Incurred but Not Reported

The estimated liability for claims incurred but not reported is calculated based on the Plan's claims experience. This estimated reserve totaled $129,432 and $151,000 at December 31, 2013 and 2012, respectively.

Note:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Valuation if Investments and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the cash basis.

Actuarial Present Value of Accumulated Postretirement Benefits

The amount reported as the accumulated postretirement benefit obligation represents the actuarial present value of these estimated future benefits that are attributed by the terms of the Plan to the employees' service rendered to the date of the financial statements, reduced by the actuarial present value of the contributions expected to be received in the future from current Plan participants. Postretirement benefits include current and future benefits expected to be paid to or for: (1) currently retired employees and their beneficiaries and dependents, and (2) active employees and their beneficiaries and dependents after retirement from service with the sponsor. Prior to an active employee's full eligibility date, the postretirement benefit option is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

For measurement purposes, the following significant assumptions were used in the valuations as of December 31, 2013 and 2012, respectively:

The annual rate of increase in the per capita health care cost is 10% and 10.50% for 2013 and 2012, respectively. The rate was assumed to decrease gradually to 4% by 2026.

	2013	2012
Weighted-average discount rate	5.25%	4.75%
Average retirement age	65	65

The RP-2000 Mortality Table (male and female) projected to 2020 was utilized for 2013 and 2012, respectively.

Note:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Actuarial Present Value of Accumulated Postretirement Benefits (Continued)

The forgoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of postretirement benefit obligation.

The weighted-average health care cost trend assumptions have a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by one percentage point in each year, it would increase the accumulated postretirement benefit obligation as of December 31, 2013 and 2012 by $309,692 and $331,058, respectively. A one percentage point decrease in each year would decrease the accumulated postretirement benefit obligation as of December 31, 2013 and 2012 by $242,598 and $257,784, respectively.

In December 2003, the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 was passed, which introduces into law a prescription drug benefit under Medicare (Medicare Part D) as well as a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. As the Employer, not the Plan itself, will receive the subsidy and is not legally required to use funds to help pay postretirement benefits, the Plan's accumulated postretirement benefit obligation (APBO) and changes in APBO do not reflect the amounts associated with the Medicare subsidy to the Employer for the prescription drug coverage.

3. FAIR VALUE MEASUREMENTS

The Plan measures, monitors, and discloses its assets on a fair value basis in accordance with Financial Accounting Standards Board Accounting Standards Codification 820 (ASC 820) Fair Value Measurements and Disclosures. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Valuations based on quoted prices for identical assets or liabilities in active markets;
- Level 2 – Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets;
- Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models and similar techniques not based on market, exchange, dealer or broker-traded transactions.

Note:

3. FAIR VALUE MEASUREMENTS (Continued):

The following is a description of the valuation methodologies used for assets measured at fair value:

Money market funds are valued at a stable $1.00 net asset value, which is the value at which the fund is traded and approximates fair value of the underlying investments. Money market funds are considered Level 1 investments.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Value Measurements Using:			
	Quoted Prices in Active Markets For identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
December 31, 2013				
Money market fund	$102,149	$ -	$ -	$102,149
December 31, 2012				
Money market fund	$127,167	$ -	$ -	$127,167

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. INVESTMENTS

The Plan's investments are held by a bank-administered trust fund. The fair value of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2013 and 2012 is as follows:

	2013	2012
Wells Fargo Advantage Cash Investment Money Market Fund – Service Class	$102,149	$127,167

Interest income received from the money market fund totaled $92 and $88 in 2013 and 2012, respectively.

Note:

5. PLAN BENEFIT OBLIGATIONS

The Plan's deficiency of net assets over benefit obligation at December 31, 2013 and 2012 relates primarily to the postretirement benefit obligation, the funding of which is not covered by the contribution rate. It is expected that the deficiency will be funded on an as needed basis.

6. TAX STATUS

The Trust established under the Plan to hold the Plan's assets obtained its latest determination letter on January 17, 1984, in which the Internal Revenue Service stated that the Trust, as then designed, was in compliance with Section 501(c)(9) of the Internal Revenue Code (IRC), and, accordingly, the Trust's net investment income is exempt from income taxes. The Trust has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Trust is currently designed and being operated in compliance with the applicable requirements of the IRC.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	$78,107	$134,628
Benefit obligations currently payable (health claims, death and disability benefits)	(23,647)	(39,821)
Net assets available for benefits per Form 5500	$54,460	$ 94,807

The following is a reconciliation of the change in net assets available for benefits per the financial statements to Form 5500:

	2013	2012
Change in net assets available for benefits per the financial statements	$56,521	$55,575
Change in amounts currently payable	(16,174)	(22,650)
Change in net assets available for benefits per Form 5500	$40,347	$32,925

Amounts currently payable to or for participants, dependents and beneficiaries are recorded on Form 5500 for benefits claims that have been processed and approved for payments prior to December 31, but not yet paid as of that date.

Note:

8. PRIORITIES UPON TERMINATION

It is the intent of the Trustees to continue the Plan in full force and effect. However, in the event of termination, and in order to safeguard against any unforeseen contingencies, the right to discontinue the Plan is reserved by the Trustees. In the event of termination, the Trustees shall first satisfy or make provisions to satisfy the obligations of the Plan. Any remaining assets will be distributed in such manner as will, in the opinion of the Trustees, bring about the purpose of the Plan.

9. PARTY-IN-INTEREST TRANSACTIONS

BCBSIL, a party-in-interest to the Plan, received administrative and stop loss insurance fees from the Plan of $523,843 and $549,146 during the years ended December 31, 2013 and 2012, respectively. Amounts payable to BCBS for the aforementioned fees were $44,073 and $38,524 at December 31, 2013 and 2012, respectively

10. RISKS AND UNCERTAINITIES

Contributions to the Plan and the actuarial present value of accumulated postretirement benefit obligations are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan invests in a combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

11. SUBSEQUENT EVENTS

Management has evaluated subsequent events through July 2, 2014, the date the financial statements were available to be issued. Based on our evaluation, no additional material events have occurred requiring disclosure.

INDEPENDENT AUDITOR'S REPORT

TO THE PLAN TRUSTEES OF
BLISTEX INC. EMPLOYEE BENEFIT PLAN AND TRUST

We have audited the accompanying financial statements of Blistex Inc. Employee Benefit Plan and Trust (the Plan), which comprise the statements of net assets available for benefits and of plan's benefit obligations as of December 31, 2013, and the related statements of changes in net assets available for benefits and of changes in plan's benefit obligations for the year ended December 31, 2013, and the related notes to the financial statements. Other accountants were engaged to audit the financial statements of the Plan as of and for the year ended December 31, 2012, whose report dated July 8, 2013, expressed an unqualified opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the Unites States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of Blistex Inc. Employee Benefit Plan and Trust as of December 31, 2013, and the changes in its financial status for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and schedule of reportable transactions that are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The accompanying supplemental five-year summary of operations is presented for the purpose of additional analysis and is not a required part of the financial statements. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note:

1. DESCRIPTION OF THE PLAN

The following description of the Blistex Inc. Employee Benefit Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan was established in 1982 to provide health care benefits for eligible Blistex Inc. (Employer) employees, their dependents and retired employees. The Plan also provides basic and voluntary life, long-term disability and accidental death, and disability to all employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

Overall the responsibility for administering the Plan rests with the Plan committee and Trustees of the Plan. The Employer directly absorbs a majority of the costs related to the administration of the Plan.

Contributions

The Plan is funded through contributions by the Employer and employees. The Employer contributes amounts to the Plan that are necessary to fund claims and Plan expenses. Employees contribute specified amounts to the Plan, as determined by the Trustees of the Plan, through payroll deductions.

Benefits

The Plan provides health benefits (medical, hospital, surgical, major medical, prescription benefits, and dental), flexible spending accounts, life insurance, disability, and death benefits to all full-time Blistex Inc. employees with at least 30 days of service, and all permanent, part-time employees with at least 60 days of service, and to their eligible dependents. Retired employees who were hired prior to December 31, 2006, attained 62 years of age, and who have completed at least 10 years of continuous, active, full-time service immediately prior to retirement are eligible for participation in the medical, dental, and prescription programs. Retired employees who continue in these employer-sponsored programs must apply for Medicare at age 65. Employees who cease employment may also purchase group coverage under COBRA.

Benefits paid under the Plan are administered by Blue Cross Blue Shield of Illinois (BCBSIL) under a minimum premium group insurance contract. Terms of the agreement require the Plan to pay claims up to $80,000 per participant for the years ended December 31, 2013 and 2012, after which benefits are paid by BCBSIL.

Note:

1. DESCRIPTION OF THE PLAN (Continued):

Benefits (continued)

Other benefits including long-term disability, life and accidental death and dismemberment, and weekly disability income coverage are provided by the Plan and are fully insured through the purchase of coverage from a third party insurer. The Plan retains no risk of loss associated with these benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of the Plan's financial statements in conformity with accounting standards generally accepted in the United State of America requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated postretirement benefit obligations as of the benefit information date, the changes in net assets available for benefits during the reporting period, and when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Payment of Benefits

Insurance premiums, claims and administration of service fees for health care benefits are recorded when paid.

Health Claims Payable

Claims reported but not paid at year-end have been estimated based on claims payment data of the Plan.

Estimated Liability for Claims Incurred but Not Reported

The estimated liability for claims incurred but not reported is calculated based on the Plan's claims experience. This estimated reserve totaled $129,432 and $151,000 at December 31, 2013 and 2012, respectively.

Note:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Valuation if Investments and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the cash basis.

Actuarial Present Value of Accumulated Postretirement Benefits

The amount reported as the accumulated postretirement benefit obligation represents the actuarial present value of these estimated future benefits that are attributed by the terms of the Plan to the employees' service rendered to the date of the financial statements, reduced by the actuarial present value of the contributions expected to be received in the future from current Plan participants. Postretirement benefits include current and future benefits expected to be paid to or for: (1) currently retired employees and their beneficiaries and dependents, and (2) active employees and their beneficiaries and dependents after retirement from service with the sponsor. Prior to an active employee's full eligibility date, the postretirement benefit option is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

For measurement purposes, the following significant assumptions were used in the valuations as of December 31, 2013 and 2012, respectively:

The annual rate of increase in the per capita health care cost is 10% and 10.50% for 2013 and 2012, respectively. The rate was assumed to decrease gradually to 4% by 2026.

	2013	2012
Weighted-average discount rate	5.25%	4.75%
Average retirement age	65	65

The RP-2000 Mortality Table (male and female) projected to 2020 was utilized for 2013 and 2012, respectively.

Note:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Actuarial Present Value of Accumulated Postretirement Benefits (Continued)

The forgoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of postretirement benefit obligation.

The weighted-average health care cost trend assumptions have a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by one percentage point in each year, it would increase the accumulated postretirement benefit obligation as of December 31, 2013 and 2012 by $309,692 and $331,058, respectively. A one percentage point decrease in each year would decrease the accumulated postretirement benefit obligation as of December 31, 2013 and 2012 by $242,598 and $257,784, respectively.

In December 2003, the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 was passed, which introduces into law a prescription drug benefit under Medicare (Medicare Part D) as well as a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. As the Employer, not the Plan itself, will receive the subsidy and is not legally required to use funds to help pay postretirement benefits, the Plan's accumulated postretirement benefit obligation (APBO) and changes in APBO do not reflect the amounts associated with the Medicare subsidy to the Employer for the prescription drug coverage.

3. FAIR VALUE MEASUREMENTS

The Plan measures, monitors, and discloses its assets on a fair value basis in accordance with Financial Accounting Standards Board Accounting Standards Codification 820 (ASC 820) Fair Value Measurements and Disclosures. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Valuations based on quoted prices for identical assets or liabilities in active markets;
- Level 2 – Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets;
- Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models and similar techniques not based on market, exchange, dealer or broker-traded transactions.

Note:

3. FAIR VALUE MEASUREMENTS (Continued):

The following is a description of the valuation methodologies used for assets measured at fair value:

Money market funds are valued at a stable $1.00 net asset value, which is the value at which the fund is traded and approximates fair value of the underlying investments. Money market funds are considered Level 1 investments.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Value Measurements Using:			
	Quoted Prices in Active Markets For identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
December 31, 2013				
Money market fund	$102,149	$ -	$ -	$102,149
December 31, 2012				
Money market fund	$127,167	$ -	$ -	$127,167

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. INVESTMENTS

The Plan's investments are held by a bank-administered trust fund. The fair value of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2013 and 2012 is as follows:

	2013	2012
Wells Fargo Advantage Cash Investment Money Market Fund – Service Class	$102,149	$127,167

Interest income received from the money market fund totaled $92 and $88 in 2013 and 2012, respectively.

Note:

5. PLAN BENEFIT OBLIGATIONS

The Plan's deficiency of net assets over benefit obligation at December 31, 2013 and 2012 relates primarily to the postretirement benefit obligation, the funding of which is not covered by the contribution rate. It is expected that the deficiency will be funded on an as needed basis.

6. TAX STATUS

The Trust established under the Plan to hold the Plan's assets obtained its latest determination letter on January 17, 1984, in which the Internal Revenue Service stated that the Trust, as then designed, was in compliance with Section 501(c)(9) of the Internal Revenue Code (IRC), and, accordingly, the Trust's net investment income is exempt from income taxes. The Trust has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Trust is currently designed and being operated in compliance with the applicable requirements of the IRC.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	$78,107	$134,628
Benefit obligations currently payable (health claims, death and disability benefits)	(23,647)	(39,821)
Net assets available for benefits per Form 5500	$54,460	$ 94,807

The following is a reconciliation of the change in net assets available for benefits per the financial statements to Form 5500:

	2013	2012
Change in net assets available for benefits per the financial statements	$56,521	$55,575
Change in amounts currently payable	(16,174)	(22,650)
Change in net assets available for benefits per Form 5500	$40,347	$32,925

Amounts currently payable to or for participants, dependents and beneficiaries are recorded on Form 5500 for benefits claims that have been processed and approved for payments prior to December 31, but not yet paid as of that date.

Note:

8. PRIORITIES UPON TERMINATION

It is the intent of the Trustees to continue the Plan in full force and effect. However, in the event of termination, and in order to safeguard against any unforeseen contingencies, the right to discontinue the Plan is reserved by the Trustees. In the event of termination, the Trustees shall first satisfy or make provisions to satisfy the obligations of the Plan. Any remaining assets will be distributed in such manner as will, in the opinion of the Trustees, bring about the purpose of the Plan.

9. PARTY-IN-INTEREST TRANSACTIONS

BCBSIL, a party-in-interest to the Plan, received administrative and stop loss insurance fees from the Plan of $523,843 and $549,146 during the years ended December 31, 2013 and 2012, respectively. Amounts payable to BCBS for the aforementioned fees were $44,073 and $38,524 at December 31, 2013 and 2012, respectively

10. RISKS AND UNCERTAINITIES

Contributions to the Plan and the actuarial present value of accumulated postretirement benefit obligations are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan invests in a combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

11. SUBSEQUENT EVENTS

Management has evaluated subsequent events through July 2, 2014, the date the financial statements were available to be issued. Based on our evaluation, no additional material events have occurred requiring disclosure.
