Notes to the financial statements

Note A – Plan description

The following description of the National Entertainment Network, LLC (the "Company" or "Employer") 401(k) Retirement Savings Plan provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions. On August 12, 2012 the Company amended the name of the Plan, which was formerly known as National Entertainment Network, Inc. 401(k) Retirement Savings Plan to National Entertainment Network, LLC 401(k) Retirement Savings Plan. The amendment followed the Company's conversion from a corporation to a limited liability company.

General

The Plan is a defined contribution plan, which went into effect January 1, 2003 and is generally available to all employees of the Company (excluding employees covered by a collective bargaining agreement, leased employees, and nonresident aliens) who have completed two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Bank of America, NA ("Trustee") serves as the trustee of the Plan.

Eligibility

Any employee who has completed two months of service is eligible to participate in the Plan. There is no age requirement for eligibility. Participation in the Plan may begin on the first day of each month, following completion of eligibility requirements.

Contributions

The following types of contributions are allowable under the Plan:

- Elective Deferral Contributions - Participants may contribute up to 60% of their pre- tax compensation, as defined in the Plan document, subject to limitations. Additionally, participants may contribute a percentage of their after-tax compensation and designate it as a Roth elective deferral contribution. A participant's total contribution cannot exceed $17,500 ($23,000 if 50 or older) in calendar year 2013.
- Discretionary Matching Employer Contributions - The Company may make a discretionary matching employer contribution each Plan year to eligible employees who make elective deferral contributions. For the year ended December 31, 2013, the Company did not make a discretionary matching employer contribution.

Note A – Plan description (continued)

Contributions (continued)

- Discretionary Profit Sharing Contributions - The Company may make an annual discretionary profit sharing contribution to eligible employees who have completed 1,000 hours of service and are actively employed on the last day of the Plan year. Participants who die, become disabled, or reach normal retirement age during the year are also eligible to share in the discretionary profit sharing contribution. This contribution is allocated to each eligible participant's account in the ratio that each participant's compensation bears to the compensation of all eligible participants. For the year ended December 31, 2013, the Company did not make a discretionary profit sharing contribution.

All contributions are allocated to the Plan's investment funds at the direction of the participants. Participants may also contribute rollover contributions from other qualified plans.

Participant accounts

Each participants account is credited with the participant's elective deferral contributions and an allocation of (a) the Company's contribution (discretionary matching and profit sharing), if any, (b) fund earnings or losses, and (c) administrative expenses, if any. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their elective deferral contributions plus actual earnings thereon. Employer contributions and earnings thereon become vested as follows:

Years of service	%
Less than 2	0%
2	33%
3	67%
4 or more	100%

Additionally, the balance in a participant's Employer contribution account becomes fully vested and non-forfeitable upon the occurrence of the following events:

- Participant's death;
- Participant becomes disabled, as defined under the Plan;
- Participant's normal retirement date; or
- Termination or partial termination of the Plan.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (i) $50,000 or (ii) 50% of their vested account balance. Loan terms range up to a maximum of 5 years (10 years if used for the purchase of a principal residence). The loans are secured by the remaining balance in the participant's account and bear a reasonable rate of interest commensurate with local prevailing rates at the date the loan is granted, as determined by the Plan administrator. Principal and interest payments are paid ratably through payroll deductions.

Note A – Plan description (continued)

Notes receivable from participants (continued)

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payments of benefits

Benefits to participants or beneficiaries generally are payable as a lump sum equal to the value of their vested account balance upon retirement, disability, death or termination of the participant. Additionally, participants may request in-service withdrawals upon attainment of age 59 ½, or upon incurring a financial hardship, as defined in the Plan document, if certain criteria are met.

Forfeitures

When certain terminations of participation occur, the non-vested portion of a participant's account represents a forfeiture. Forfeitures are used to reduce future employer contributions, can be used to pay administrative expenses of the Plan, or are reallocated to participants as a profit sharing contribution. For the year ended December 31, 2013, $18,224 was used to pay administrative expenses of the Plan. As of December 31, 2013 and 2012, unutilized forfeitures totaled $22,617 and $13,736, respectively.

Note B – Summary of accounting policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ significantly from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note B – Summary of accounting policies (continued)

Payment of benefits

Benefits are recorded when paid.

Administrative Expenses

All administrative expenses may be paid out of the Plan unless paid by the Employer. For the year ended December 31, 2013, the Plan paid all administrative expenses.

Note C – Investments

The Plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Net investment loss and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Schedule H, part IV, line 4i - schedule of assets (held at end of year) as of December 31, 2013.

The following presents investments that represent 5% or more of the Plan's net assets.

During 2013, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,097,258.

Note D – Fair value measurements

The Plan follows a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Transfers between levels are recognized on the actual date of the event resulting in the transfer. The three levels of the fair value hierarchy are described below:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Transfers between levels are recognized on the actual date of the event resulting in transfer.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds
Mutual funds are valued at the quoted fair market value of shares held by the Plan at year end. Some funds have short term trading fees, but there are no restrictions on redemption.

Note D – Fair value measurements (continued)

Stable Value Fund

The investments include lifecycle (targeted maturity funds), international funds, fixed income funds, small cap equity funds and large cap equity funds. The fair values of the Plan's interest in the funds are based on the net asset values ("NAV") reported by the fund managers as of the financial statement dates and recent transaction prices. They provide for daily redemptions by the Plan at reported NAV with no advance notice requirement. Under unusual circumstances redemptions may be suspended should the withdrawal cause an adverse impact on other participating plans. Fair values for the investments within these funds are based on quoted prices in active markets and securities valued using either observable inputs or quotations from inactive markets. The Plan is permitted to redeem investment units at NAV on the measurement date, and as a result, the investments are classified as a Level 2 investment. These funds have various investment objectives depending on the investment strategy of the fund as provided and available to plan participants through a variety of participant communications, and as indicated by asset category on the fair value hierarchy tables.

The Federated Capital Pres CL ISP (the "Return Fund") is a common collective trust fund sponsored by Merrill Lynch, Bank of America. The Federated Capital Pres CL ISP (the "Return Fund") is a collective trust fund sponsored by Merrill Lynch, Bank of America. The Return Fund's objective is to protect principal while providing a higher rate of return than shorter maturity investments, however there is no assurance this objective can be met. The beneficial interest of each participant is represented in units based on the NAV of the Return Fund, and is calculated daily. Net investment income and realized and unrealized gains on investment are not distributed but rather reinvested and reflected in the NAV of the Return Fund.

The yield earned based on actual earnings as of December 31, 2013 was 1.21%. This represents the annualized earnings of all investments in the fund including the earnings recorded at the underlying trust funds, divided by the fair value of all investments in the Fund as of year end. The yield earned based on actual interest rates, credited to participants as of December 31, 2013 was 1.46%. This represents the annualized earnings credited to participants in the Fund divided by the fair value of all investments in the fund at year end.

Participants may direct the withdrawal or transfer of all or a portion of their investment in the Return Fund at the daily calculated NAV. Certain employer initiated events could impose certain restrictions on liquidation of the Return Fund as provided for in the agreement between Merrill Lynch, Bank of America and the plan sponsor; however the plan sponsor is not aware of any such events as of the reporting date. The Plan could transact at the unit value as of the measurement date. There were no unfunded commitments with respect to the Fund at December 31, 2013.

The MLRPT consisted of a portfolio of investments to cash, cash equivalent investments and short-term, highly-liquid securities. The MLRPT operated as short-term investment fund that sought to maintain a $1 net asset value per share. There were no restrictions on access to funds for the payment of participant-directed benefits.

Note D – Fair value measurements (continued)

Stable Value Fund (continued)

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

The following is a reconciliation of net assets available for plan benefits and investment loss per the financial statements to Form 5500:

	As of December 31, 2013
Net assets available for plan benefits per the financial statements	$ 9,182,408

Net investment gain and interest earned on notes receivable from participants per the financial statements	$ 1,504,989
Less: Adjustment from fair value to contract value for interest in common/collective trusts relating to fully benefit-responsive contracts	(49)
Net investment gain per the Form 5500 (unaudited)	$ 1,504,940

Note F – Related Party Transactions

Certain Plan investments are shares/units of mutual funds and a common collective trust offered by the Trustee. These transactions qualify as party-in-interest transactions. Additionally, the Plan maintains notes receivable from participants. Fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note G – Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminated, participants would become 100% vested in the Company contribution portion of their account.

Note H – Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Company believes the Plan is designed and is being operated in compliance with the applicable provisions with the IRC. The Company is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Note H – Tax status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note I – Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note J – Subsequent Events

Management has evaluated subsequent events through July 24, 2014, the date the financial statements were available to be issued.
