TUV SUD AMERICA, INC. 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

(1) **DESCRIPTION OF PLAN**

The following description of the TUV SUD America, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- a. **General** - The Plan is a defined contribution plan covering all eligible full-time employees of TUV SUD America, Inc. and TUV SUD Group (collectively, the Company), who have reached eighteen years of age, as defined in the Plan. Beginning on January 1, 2013, employees must be twenty-one years of age to be eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
- b. **Contributions** - Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible for catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make, at the discretion of the Board of Directors, a matching contribution. In 2013, the Company made matching contributions equal to 50 percent of the first 6 percent of base compensation that a participant contributes to the Plan. The Company may also make discretionary profit sharing contributions, as determined by the Company's Board of Directors. For the year ended December 31, 2013, the Company did not make or elect to make any discretionary profit sharing contributions.

- c. **Participant Accounts** - Each participant's account is credited with the participant's contributions, Company matching contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- d. **Vesting** - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion plus actual earnings thereon is based on years of service as follows:

<u>Years of Service</u>	<u>Percentage</u>
1	25%
2	50%
3	75%
4	100%

- e. **Payment of Benefits** - The Plan provides for a normal retirement benefit to be paid to participants who have reached the age of 65 or early retirement of 55. Upon termination of service, a participant may receive a lump-sum amount, installment payments, or partial withdrawals of at least \$100, equal to the value of his or her vested account. There are also retirement benefits available upon late retirement, disability and death.

(1) DESCRIPTION OF PLAN (Continued)

e. Payment of Benefits - (Continued)

The Plan allows in-service withdrawals upon attainment of age 59 ½. A participant may also request a withdrawal upon demonstration to the Plan administrator that they are suffering a "hardship". Hardship is defined in applicable regulations promulgated or to be promulgated pursuant to Section 401(k) of the Internal Revenue Code or standards established by the Secretary of the Treasury or his delegate.

- f. Notes Receivable From Participants** - Participants may borrow up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The minimum loan allowed is \$1,000. The loans are secured by the balance in the participant's account. Interest is due on the outstanding principal balance at the rate a bank would charge for a loan of that type. The loans bear interest at rates ranging from 4.25% to 9.5%, payable at various maturities of one to ten years. Principal and interest are paid ratably through payroll deductions.

- g. Forfeited Accounts** - At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$77,499 and \$50,333, respectively. These accounts will be used to reduce administrative expenses or future employer contributions. In 2013, the Plan used \$2,091 from forfeited nonvested accounts to reduce Company contributions.

(2) SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Plan prepares its financial statements in accordance with generally accepted accounting standards and principles established by the Financial Accounting Standards Board (FASB). References to U. S. GAAP in these footnotes are to the FASB Accounting Standards Codification (ASC). The financial statements are presented on the accrual basis of accounting in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

DECEMBER 31, 2013 AND 2012
(Continued)**

(2) SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Gains and losses are recognized as incurred upon sale or maturity of investments or based on market value changes during the period. Net appreciation in fair value of investments includes realized and unrealized gains and losses.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment expenses are included in net appreciation of fair value of investments.

Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Subsequent Events

Subsequent events have been evaluated through July 30, 2014, which is the date the financial statements were available to be issued. There were no events that met the criteria for recognition for disclosure in the financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(3) FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

TUV SUD AMERICA, INC. 401(k) SAVINGS PLAN

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012
(Continued)**

(3) FAIR VALUE MEASUREMENT (Continued)

The three levels of the fair value hierarchy are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are measured using Level 1 inputs.

Guaranteed Investment Contract: Guaranteed investment contracts are credited with declared rates of interest and are subject to a minimum rate described in the contract. Guaranteed investment contracts are valued using Level 3 inputs (see Note 9).

There have been no changes in the methodologies used as of December 31, 2013 and 2012.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(3) **FAIR VALUE MEASUREMENT** (Continued)

(4) **INCOME TAX STATUS**

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2010.

(5) **PLAN TERMINATION**

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all accrued benefits shall be paid to participants in accordance with the provisions of the Plan.

(6) **PARTY-IN-INTEREST TRANSACTIONS**

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, notes receivable to participants and transactions with investment funds managed and held by the custodian are considered party-in-interest transactions. During 2013, the Plan paid the custodian service fees of \$2,150.

(7) **INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN**

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(7) INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN (Continued)

Accordingly, ING Life Insurance Company, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as show in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Investment income and net appreciation in fair value of investments, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.
- The schedule of assets held at end of year at December 31, 2013.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

Investments that represent more than 5% of the Plan's net assets available for benefits at December 31, 2013 and 2012, are as follows:

	<u>2013</u>	<u>2012</u>
ING Fixed Account	\$4,152,407	\$3,437,644
Wagner Select	\$2,985,205	\$2,450,004
ING Fidelity VIP Contrafund	\$2,017,263	\$1,641,597
ING Stock Index Portfolio	\$2,010,460	\$1,441,891
ING Solutions 2035 Institutional	\$1,610,086	\$ -
American Funds Capital World Growth & Income	\$1,607,726	\$1,289,253
ING Large Cap Growth Pt Service	\$1,593,160	\$ -
Lord Abbett Small-Cap Value Fund	\$ -	\$1,269,247
American Century Equity Growth Fund	\$ -	\$1,219,858

During 2013, the Plan's mutual funds (including gains and losses on investments sold as well as held during the year) appreciated in value by \$4,971,772.

(8) RISKS AND UNCERTAINTIES

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that these changes could materially affect the amounts reported in the statements of net assets available for benefits.

TUV SUD AMERICA, INC. 401(k) SAVINGS PLAN

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012
(Continued)**

(9) GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive guaranteed investment contract with ING Life Insurance Company (ING). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value as reported by ING represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The investment contract resets interest rates on a monthly basis with a one-month look back for the portfolio statistics. In determining the rate of interest, ING considers the portfolio cash plans, portfolio performance, the current interest rate environment, its investment expense, and a profit and risk component for the period.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a monthly basis for resetting.

Certain market events may limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to, (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable and none occurred during the years ended December 31, 2013 or 2012.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The crediting interest rate on this fund was 3% for the year ended December 31, 2013.
