INDEPENDENT AUDITOR'S REPORT

To the Plan Administrative Committee of
Tom Malloy Corporation Profit Sharing Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Tom Malloy Corporation Profit Sharing Plan, which comprise the statements of net assets available for benefits as of October 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements, and the supplemental schedules as of and for the year ended October 31, 2013.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Tom Malloy Corporation Profit Sharing Plan as of October 31, 2013 and 2012, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, line 4i-Schedule of Assets and Schedule H, line 4j-Schedule of Reportable Transactions, together referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

TOM MALLOY CORPORATION
PROFIT SHARING PLAN

Notes to Financial Statements

October 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Tom Malloy Corporation Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more complete description of the Plan's provisions.

General - The Plan is a defined contribution Profit Sharing and 401(k) plan covering all employees who have one year of service and are age 21 or older. Employees with 6 months of service are eligible for elective deferrals in the 401(K) plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – For the 401(K) plan, participants may contribute up to the maximum contribution limit as allowed annually by the Internal Revenue Code of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

On September 8, 2005, the Board of Directors approved for the plan to be amended to a Safe Harbor 401(k) plan, effective on November 1, 2005. The amendments will also allow employees of Grand Metals, Inc. to participate in the 401(k) plan with all benefits of employee deferrals and employer profit sharing and matching contributions.

The Company's Safe Harbor Matching plan contributes 100% of the elective deferral that does not exceed 3% of base compensation that a participant contributes to the plan, plus 50% of the elective deferral that exceeds 3% of compensation but does not exceed 5% of compensation. No matching contribution for employee catch-up deferrals. Contributions in the 401(K) plan are invested in a portfolio of investments of mutual funds as directed by Participants, while investments of the Profit Sharing plan are directed by the Company. Contributions are subject to certain limitations imposed by the Plan and the Code.

Participant Accounts - Each participant's account is maintained separately within the Plan and is credited with their elective deferrals, employer contribution and earnings. Investment income and related management expenses are allocated to the participants' accounts. Allocations of employer contributions, investment income and administrative expenses are based on participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately 100% vested in their deferrals and rollover contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. With Safe Harbor matching plan, participants are 100% vested for 401(K) matching contributions.

Forfeitures – At October 31, 2013 and 2012, forfeited non-vested accounts totaled $70 and $-0-, respectively. These accounts will be used to reduce future employer contributions. There was no forfeiture amount used to reduce the employer contributions for the year ended October 31, 2013.

Notes Receivable from Participants – At the discretion of the Plan, participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, and are limited to one loan outstanding at any given time. Loans must be paid back within 5 years. Maximum term of residence loan is 10 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with a commercial lender's interest rates, as determined by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions. A loan maintenance fee will be deducted from the account of which the loan is taken. Loan is considered in default at end of calendar quarter following quarter payment was due.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly installments over a set period of time. For termination of service due to other reasons, a participant may elect to receive the value of the vested value of his/her account as a lump-sum distribution. For 401K hardship distributions, participants can request up to 100% of their employee's deferral account only.

Administrative Expenses - Management fees charged by the investment company are netted against earnings and allocated to participants based on account balances as defined in the Plan. Other administrative expenses including legal, accounting, auditing and fiduciary bonding fees are absorbed by the Company.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review – In preparing the financial statements for the year-ended October 31, 2013, management has evaluated subsequent events for potential recognition and disclosure through July 22, 2014, which represents the date the financial statements were available to be issued.

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. See Note 4 for a discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Based upon the terms of the Plan document, a defaulted loan (outstanding principal plus accruing interest) will be treated as a "deemed distribution" and reported as personal income on Form 1099-R.

Payment of Benefits - Benefits to participants are recorded when paid.

Risk and Uncertainties – The Plan provides for various investment options in money market and mutual funds. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 – INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated February 9, 1995, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. The latest IRS approval letter was dated March 11, 2011. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

NOTE 4 – FAIR VALUE MEASUREMENTS

As defined in FASB Statement No. 157, fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Organization utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated or generally unobservable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Organization is required to provide the following information according to the fair value hierarchy.

FASB Accounting Standards Codification (ASC 820), *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 – Input to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. **Registered investment companies** were classified in Level 1 at October 31, 2012; however, no Level 1 inputs were available to the Plan at October 31, 2013.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. **Pooled separate accounts** are classified in Level 2.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement and may include assumptions about market participant assumptions. **Non-participants' loans** are valued at their outstanding balance, which approximates fair value and are classified as Level 3 of the fair value hierarchy. There is no market (quoted prices or observable inputs) for non-participants' loans, and as such the valuation includes significant inputs based on assumptions about market participant assumptions.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2013 and 2012:

2013	Level 2	Level 3	Total
Pooled Separate Accounts	$ 4,124,960	$ -0-	$ 4,124,960
