INDEPENDENT AUDITORS' REPORT

To the Trustees,
Burke, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Burke, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. PLAN DESCRIPTION:

The following brief description of the Burke, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

Burke, Inc. (the "Company") established the Plan as of December 28, 2004 and effective January 1, 2004. The Plan operates as a leveraged employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (the "Code"), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Plan purchases Company common shares using borrowed funds from the Company, and holds the stock in a trust fund (the "Trust") established under the Plan. The borrowings are repayable over a period of 10 years using fully deductible Company contributions to the Plan. As the Plan makes each payment of principal, a portion of the unallocated shares are allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of common stock. The Company has no rights against shares of stock once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2013 and 2012, and for the years then ended, present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of employees with vested rights in allocated stock ("Allocated") and
- (b) stock not yet allocated to employees ("Unallocated")

Administration

The governing body for administration of the Plan is the Employee Benefits Administrative Committee and consists of Company employees selected to participate by the Board of Directors of the Company. The trustee of the Plan is Fiduciary Trust Services, Inc.

Eligibility

Exempt non-highly compensated employees who have performed or are expected to perform 1,000 or more hours of service during the 12 months following their employment commencement date become Plan participants on their employment commencement date. All other employees must complete one year and 1,000 or more hours of service to become Plan participants. Employees covered by a collective bargaining agreement, an employee who is a non-resident alien, or a leased employee are not eligible.

Vesting

Company contributions, as adjusted for earnings and losses thereon, vest 100% after five years of service. There is no vesting for less than five years of service.

Participant become 100% vested in all Company contributions immediately upon reaching early retirement age or normal retirement age (the later of attaining age 65 or five years of vesting service), death or total disability. Any forfeited Company contributions are allocated to active Plan participants on the December 31st following five consecutive one-year breaks in service by the forfeiting participant.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of the shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify transfer cash equivalent to the shares diversified to the participant's account in the Burke, Inc. Profit Sharing and Pay Deferral Savings Plan.

Participants who are age 55 with at least 5 but less than 10 years of participation in the Plan may also elect to diversify a portion of their account. Diversification is offered to each eligible participant over a five-year period, unless the participant reaches 10 years of participation in the Plan, at which point they become eligible to diversify under the options noted above. In each of the five years, a participant may diversify up to 25 percent of the number of the shares allocated to his or her account, less any shares previously diversified. Participants who elect to diversify transfer cash equivalent to the shares diversified to the participant's account in the Burke, Inc. Profit Sharing and Pay Deferral Savings Plan.

Reshuffling

During 2012, the Plan was amended to permit the reshuffling of accounts of non-active participants. On an annual basis, following the processing of the diversification elections noted above, the stock accounts for non-active participants, who have reached a five year break in service, may be reshuffled and replaced with amounts from active participants' other investment accounts of an equivalent value determined as of the last valuation date of the Plan.

Following the reshuffling of non-active participants' stock accounts, the other investment account of all non-active participants shall be transferred to the Burke, Inc. Profit Sharing and Pay Deferral Savings Plan.

Participant accounts and forfeitures

Each participant's account is credited with the participant's share of the Company's contributions and forfeitures available as determined by the Trustee. The participant's account is allocated the Company contributions and forfeitures based on the proportion of the participant's compensation to the total of all participants' compensation (capped at \$100,000 for 2013 and 2012) for the Plan year. Participants who do not have at least 1,000 hours of service during such plan year, or are not employed on the last working day of a plan year, are generally not eligible for an allocation of Company contributions for such year. Forfeitures for 2013 and 2012 were not material.

Plan earnings are allocated to each participant's account based on the proportion of the participant's account balance to the aggregate of all participants' account balances prior to the allocation of the contribution and forfeitures described above.

Employer contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its loan payable. Upon approval by the Company's board of directors, the Company may also make discretionary contributions of cash or stock

to the Plan. These discretionary contributions were \$408,179 and 3,800 shares and \$313,793 and 0 shares for the years ending December 31, 2013 and 2012, respectively.

Distributions

In general, no distributions from the Plan will be made until a participant retires at early retirement age, normal retirement age of 65 with a minimum five years of service, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or becomes permanently disabled. Participants who otherwise terminate employment with the Company are eligible for distribution of their ESOP account in the sixth plan year after the year in which the participant terminates employment if their vested participant account balance is greater than \$10,000. If a terminated participant's vested account balance is less than or equal to \$10,000, the account balance may be distributed as soon as administratively practicable during the year following termination. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or employer stock as determined by the plan administrator.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2012, 3,800 shares were repurchased from participants.

Voting rights

The Trustee is responsible for voting all employer stock held as part of the Plan assets. Each participant or beneficiary shall be entitled to direct the Trustee as to the manner in which voting rights on shares of allocated employer stock are to be exercised.

Put option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants (and is not readily tradable on an established market, or is subject to trading limitations) includes a put option. The put option is a right to demand that the Company or the Plan buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company may finance the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Plan termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the Trust will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the plan, the Employee Benefits Administration Committee should direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loans.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties

The Plan invests in common stock of the Company. This common stock is exposed to various risks, including a variety of risks associated with investing in an operating entity and the liquidity risk associated with investing in a private company. Due to the level of risk associated with the common stock, it is at least reasonably possible that changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits.

Investment valuation and income recognition

The common shares of the Company are reported at fair value, which is determined by an annual independent appraisal. See Note 6 for discussion of fair value measurements.

Dividend income is accrued on the declaration date.

Purchases and sales of securities are recorded on a trade date basis. The Plan presents in its statements of changes in net assets available for benefits the net appreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation on those investments.

Payment of benefits

Benefits are recorded when paid.

Administrative fees

Administrative expenses of maintaining the Plan that are paid directly by the Company are excluded from these financial statements.

Subsequent events

The Plan has evaluated subsequent events through July 30, 2014, the date the financial statements were available to be issued.

3. INCOME TAX STATUS:

The Plan obtained its latest determination letter on September 19, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code, and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain

position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

4. ADMINISTRATION OF PLAN ASSETS:

The Plan's assets, which consist entirely of Burke, Inc. common shares, are held by the Company until the outstanding loans are paid in full. Custody of the Plan's assets will transfer to the Plan Trustee when the outstanding loans mature or are paid in full, whichever comes first.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

5. INVESTMENTS:

The Plan's investments at December 31 are as follows:

	<u>2013</u>		<u>2012</u>	
	<u>Allocated</u>	<u>Unallocated</u>	<u>Allocated</u>	<u>Unallocated</u>
Number of Shares	289,952	24,922	272,939	38,135
Cost	\$ 42,500,167	3,841,931	37,761,167	5,516,903
Market	\$ 54,348,586	4,671,397	44,011,415	6,149,250

During the years ended December 31, 2013 and 2012, 2,531 and 2,121 shares, respectively, were recycled within the ESOP to generate funds for cash distributions. During the year ended December 31, 2012, 3,800 shares of stock were distributed. No shares were distributed during the year ended December 31, 2013. The total number of allocated and unallocated shares of stock held by the Plan as of December 31, 2013 and 2012, was 314,874 and 311,074, respectively.

6. FAIR VALUE MEASUREMENTS:

Generally accepted accounting principles provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

Common stock: The fair value of Burke, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and cash flow valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

<u>Investments at fair value as of:</u>				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

December 31, 2012:				
Burke, Inc. common stock	\$ <u>-</u>	<u>-</u>	<u>50,160,665</u>	<u>50,160,665</u>

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the years ended December 31, 2013 and 2012:

	<u>Level 3 Investments - Investment in Sponsor Company Common Stock</u>

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the period above are reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements:

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs at December 31, 2013.

7. LOANS PAYABLE - DUE TO BURKE, INC.:

In 2004 the Plan entered into an \$11.2 million term loan agreement with the Company which matured June 30, 2013. The proceeds were used to purchase 125,950 shares of the Company's common stock. The loan bore interest at the prime rate, 3.25% at December 31, 2013, reset on the 1st day of each calendar year.

In 2006 the Plan entered into a \$2,589,410 term loan agreement with the Company which matures December 31, 2015. The proceeds were used to purchase 28,244 shares of the Company's common stock. The loan bears interest at the prime rate, 3.25% at December 31, 2013, reset on the 1st day of each calendar year.

In 2007 the Plan entered into a \$2,896,422 term loan agreement with the Company which matures December 31, 2016. The proceeds were used to purchase 28,244 shares of the Company's common stock. The loan bears interest at the prime rate, 3.25% at December 31, 2013, reset on the 1st day of each calendar year.

In 2008 the Plan entered into a \$3,376,245 term loan agreement with the Company which matures December 31, 2017. The proceeds were used to purchase 28,244 shares of the Company's common stock. The loan bears interest at the prime rate, 3.25% at December 31, 2013, reset on the 1st day of each calendar year.

Total future minimum principal payments are as follows as of December 31, 2013:

2014	\$ 982,774
2015	1,015,104
2016	725,898
2017	<u>393,692</u>
	<u>\$ 3,117,468</u>

As collateral for the trust's obligations under the loan, the trust granted a security interest in and assigned the lender all of the trust's right, title, and interest in and to the pledged shares, and any proceeds or other securities derived there from. The pledge of the pledged shares continues until all obligations due under the ESOP loan agreements have been paid in full and all terms and conditions under the ESOP notes have been satisfied.

8. RELATED PARTY TRANSACTIONS:

The Plan invests in Company common stock and has loans payable to the Company. These transactions qualify as party-in-interest transactions. As described in Notes 1 and 4, the Plan has a number of service providers. These service providers qualify as parties-in-interest.

9. SUBSEQUENT EVENTS:

Subsequent to December 31, 2013, the Plan was amended for changes in the vesting provisions and diversification eligibility. Effective January 1, 2014, participants vest 100% in Company contributions after three years of service.

Effective January 1, 2014, participants who have reached age 50 and have completed 5 years of participation in the plan are eligible to diversify a portion of their account. All other diversification provisions remain unchanged.
