Report on the Financial Statements

We have audited the accompanying financial statements of Beckstoffer Vineyards Safe Harbor 401(k) Retirement Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Beckstoffer Vineyards Safe Harbor 401(k) Retirement Savings Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year for the years ended December 31, 2013 and 2012 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

BECKSTOFFER VINEYARDS SAFE HARBOR
401K RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(1) DESCRIPTION OF PLAN:

The following description of the Beckstoffer Vineyards Safe Harbor 401K Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General
The Plan was formed January 1, 2001. The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service, 1000 hours and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Contributions
Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Contributions are subject to certain Internal Revenue Code limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes a percentage of the Participant's Elective Deferral. The employer matches participant elective deferrals up to 6% of the participant's compensation. Additional amounts may be contributed at the option of the Company's board of directors.

c. Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative and investment expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting
Participants are immediately vested in their contribution, the Company's matching contribution and actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

e. Investment Options
Upon enrollment in the Plan, participants shall direct employee and employer match contributions into the investment funds maintained by American United Life Insurance Company.

Participants may change their investment options daily.

(1) DESCRIPTION OF PLAN: (Continued)

f. Payment of Benefits

When a participant retires or terminates employment, benefits will automatically be paid in installments or a lump sum amount equal to the vested value of their account balance. Benefits are recorded when paid.

(2) SUMMARY OF ACCOUNTING POLICIES:

a. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment gain (loss) includes the plan's gains and losses on investments bought and sold as well as held during the year.

b. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

c. Investment Valuation

The Plan’s deposit with the insurance company is valued at contract value which is considered an appropriate measurement of fair value. See Note 8 for discussion of fair value measurements.

(2) SUMMARY OF ACCOUNTING POLICIES: (Continued)

d. Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the Plan continues to qualify and to operate as designed. The Plan's information returns (Form 5500) for the years ended December 31, 2011, 2012, and 2013 are subject to examination by federal taxing authorities generally for three years after they are filed.

e. Date of Management's Review

Management has evaluated subsequent events through July 23, 2014, the date on which the financial statements were available to be issued.

(3) INVESTMENT CONTRACT WITH INSURANCE COMPANY:

In 2008, the plan entered into a benefit-responsive investment contract with American United Life Insurance Company (AUL). AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by AUL. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Besides the general account noted above the plan also has guaranteed investment contracts. Guaranteed investment contracts are fully benefit-responsive. Contract value is the relevant measurement attribute for net assets available for benefits. Contract value, as reported to the plan by AUL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $7,623,541 and $5,961,599 respectively.

(3) INVESTMENT CONTRACT WITH INSURANCE COMPANY: (Continued)

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that any events that would limit the plan's ability to transact at contract value with participants are probable of not occurring.

(4) PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(5) PLAN ADMINISTRATION:

Several of the investment fund options are subject to investment fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and thus are not separately disclosed in the accompanying financial statements. The employer pays the salaries and related benefits of the accountants who maintain the plan's records. The employer also contributes the office space where the business of the plan is conducted and where their records are kept. The employer also pays the administrative fees for the annual audit of the plan.

(6) INVESTMENTS:

The following presents investments that represent 5 percent or more of the Plan's net assets:

	2013	2012
AUL Fixed Account	$ 1,434,104	1,319,975
Franklin Strategic Income	857,192	788,880
SSgA S&P 500 Index Strategy	644,911	443,536
American Funds – Capitol World Growth & Income	507,129	342,502
T Rowe Price Equity Income	603,525	419,366
Prudential Jenn Midcap Growth	551,737	413,318
Amercent Growth	487,550	432,874
SSgA S&P Mid Cap 400 Index Strategy	742,130	401,957

(7) RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(8) FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for indentical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(8) FAIR VALUE MEASUREMENTS:(Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at contract value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The Contract offers a fixed interest investment option (the Fixed Option) through AUL's general account and a number of variable investment options through an AUL separate account. Thus, participants and/or trustee(s) can select the option(s) that reflect their individual investment style and risk tolerance. Under the Contract, it is possible to make transfers between the various options and to redirect the investment of future contributions as specified by the governing Plan document and Contract provisions.

Variable Investment Options: Amounts allocated to a variable investment account within an AUL separate account are credited to a participant's account in the form of accumulation units. The value of an accumulation unit of any investment account is determined at the close of each business day and is directly related to the net asset value of the shares of the underlying investment adjusted for any dividends or distributions received by AUL and the daily equivalent of any fee charged by AUL pursuant to the contract. The value of each accumulation unit is published each business day. Each investment account is invested by AUL exclusively in shares of a specific mutual fund or other investment entities as directed by the participant.

The preceding method described may produce a contract value calculation that may not be indicative of net realizable value or reflective of future contract values. Furthermore, although the plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the contract value of certain financial instruments could result in a different contract value measurement at the reporting date.

Funds allocated to the Fixed Option are placed in the AUL general account where they are invested in accordance with AUL's general account investment policy. The objective of that investment policy is to maximize long-term, risk-adjusted returns. AUL's general account assets are predominately fixed-income investments (bonds, mortgages, and private placements). The average maturity for these assets is nearly 10 years, and the average duration is between 5 and 6 years. The quality of these investments is high.

(8) FAIR VALUE MEASUREMENTS:(Continued)

All financial information related to the Contract's Fixed Option is reported to a Plan participant at contract value (principle invested plus interest earned). The Contract's Fixed Option has no liquid market value because it is not tradeable or assignable, and there are no defined maturities of the cash flows.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value (contract value) as of December 31, 2013 and 2012.

Assets at Fair Value as of December 31, 2013

	Level 1	Level 2	Level 3
Insurance Company variable investment options	$ -	7,623,541	-

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
