1. Description of Plan

The following description of Preferred Hotel Group 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all US associates of Preferred Hotel Group, Inc. (the "Company") who are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility
All employees become eligible to participate in the Plan on the first day of the quarter coinciding with or immediately following the completion of one continuous 12 month period of employment.

Trust
Fidelity Management Trust Company ("Custodian") is the custodian of the Plan and has the authority to invest all contributions paid to them under the Plan.

Contributions
Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Each payroll period, the Company will make a matching contribution equal to 50 percent of the first 5 percent of base compensation that a participant contributes to the Plan. Each year, the Company may also make an employer profit sharing contribution to the Plan. Such contribution will be allocated to participants based upon their pre-tax annual compensation.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution is based on years of continuous service. A participant is fully vested after 5 years of credited service.

Participant-Directed Investments
The participant may elect the way in which contributions are invested among the investment funds permitted by the Plan. The investment election will apply to both employee and employer contributions. Earnings shall be allocated in the ratio that a participant's account balance invested in a fund bears to the total of all account balances invested in that fund.

Notes Receivable from Participants
Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested interest in the plan. The loans are secured by the balance in the participant's account and shall bear interest which is commensurate with local

prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. At December 31, 2012 and 2011 interest rates on participant loans ranged from 3.25% to 5.00% and 3.25% to 7.00%, respectively.

Payment of Benefits
Participants may withdraw all or a portion of the vested portion of their accounts without penalty upon attainment of age 59-1/2. Participants may withdraw all or any vested portion of their account at any time. Upon termination of service due to retirement, death, or disability, participants may receive the vested balance in their account. Vested balances less than $5,000 are automatically distributed after employment is terminated as a lump-sum distribution. Vested balances greater than $5,000 are distributed, upon election by the participant, as a lump-sum or rollover distribution.

Forfeitures
Forfeitures will be used to reduce employer contributions. Forfeitures for the period ended December 31, 2012 totaled $17,426. In 2012, no forfeitures were used to reduce employer contributions, and as of December 31, 2012 total forfeitures within the Plan amounted to $43,249.

Administrative Expenses
All administrative expenses related to the Plan are paid by the Company, with the exception of investment fees, which are included in the cost of investments, and loan processing fees, which are paid by the participant.

Recent Accounting Pronouncements
In May, 2011, FASB issued Accounting Standards Codification ("ASC") Update 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. *GAAP and IFRSs*. This new pronouncement provides guidance to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP. The amendments are intended to: 1) clarify the application of existing fair value measurement and disclosure requirements and 2) change a particular principle or requirement for measuring and disclosing information about fair value measurements. The prospective application of this guidance is effective for annual periods beginning January 1, 2012. The principal impact form this update resulted in expanded disclosures regarding the Plan's fair value measurements.

In July 2013, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2013-09, Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04. ASU 2013-09 applies to disclosures of certain quantitative information about the significant unobservable inputs used in Level 3 fair value measurement for investments held by certain employee benefit plans. This update is effective immediately and did not have a material impact on the Plan's financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Investment Income
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits
Benefits are recorded when paid.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Investments

The following table presents individual participant directed investment options that represent 5% or more of the Plan's net assets as of December 31, 2012 and 2011:

	2012	2011
Registered investment companies		
FA Freedom 2035 A	$ 912,096	$ 383,769
FA Freedom 2015 A	804,862	637,507
FA Freedom 2025 A	739,431	562,142
FA Freedom 2030 A	650,822	934,442
FA Freedom 2045 A	567,815	380,963
FA Freedom 2010 A	471,009	347,276
FA Freedom 2040 A	389,108	680,212

During 2012, the Plan's investments, made up entirely of readily-marketable registered investment companies and money market funds, (including gains and losses on investments bought and sold, as well as held during the year), appreciated in value by $588,092.

4. Fair Value Measurements

Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) Topic 820 – Fair Value Measurements and Disclosures established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy assigns the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered Investment Companies and Money Market Funds
Valued at the daily price as reported by the fund. Registered investment companies held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level2	Level 3	Total

5. Party-in-Interest Transactions

Certain Plan investments are managed by the Custodian; therefore, these transactions qualify as party-in-interest transactions. In addition, the Plan document provides for participant loans, which also qualify as party-in-interest transactions.

6. Tax Status

The Plan is a Non-Standardized 401(k) Profit-Sharing Plan with a deferral arrangement that received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008 which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not requested its own determination letter from the IRS. Therefore, the Plan administrator believes that the Plan is qualified and that the related trust is tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that

as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. Termination of Plan

The Company believes the Plan will continue without interruption; however, it has the right to amend or terminate the Plan at any time (subject to the provisions of ERISA). Should the Plan be terminated, Plan assets, after allowances for expenses of administration or liquidation, are to be allocated proportionately to each participant based on the net aggregate value of the participants' investments determined as of the date of Plan discontinuance.

8. Risks and Uncertainties

The Plan provides for investment in various registered investment companies and a money market fund. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in investment value in the near term will materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

9. Summary of Data Certified by the Custodian of the Plan

The Plan administrator has elected the method of annual reporting compliance permitted by Section 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified the following data included in the financial statements, notes to financial statements, and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011.
- Dividend income, interest on notes receivable from participants and net appreciation in fair value of investments, as shown in the Statement of Changes in Net Assets Available for Benefits
- Investment information, as shown in Note 3
- Investment amounts, as shown in Note 4
- Schedule H, line 4i – Schedule of Assets (Held at Year End) as of December 31, 2012

10. Subsequent Events

The Plan has evaluated subsequent events through September 23, 2013, the date the financial statements were available to be issued.
