NOTE 1 – DESCRIPTION OF PLAN

The following description of the Lemo USA Inc 401(k) Profit Sharing Plan provides only general information. Participants should refer to the plan agreement, as amended, for a more complete description of plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering all employees of Lemo USA, Inc. (the Company), and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Lemo USA, Inc. is the plan sponsor and serves as the plan administrator. Administrative expenses are paid by the Company. Certain transaction expenses are paid by the Plan.

Eligibility – Employees are eligible to participate in the Plan on the first day of the month subsequent to their hire date. Employees are not eligible to participate if they are union employees or non resident aliens.

Contributions – Participants may elect to defer up to 90% of their compensation, subject to limitations imposed by federal tax law. The Company may elect to make discretionary matching contributions to the Plan. In addition, the Company may make profit sharing contributions at the discretion of the Board of Directors. A participant must be employed as of the last day of the plan year to be eligible for any discretionary matching or profit sharing contributions. For the year ended December 31, 2013, the Company made discretionary contributions of 50% of employee deferral contributions not to exceed 3% of compensation. For the year ended December 31, 2013, the Company did not make any profit sharing contributions.

Participant accounts – Each participant's account is credited with the participant's contribution, the employer's contribution, and allocations of plan earnings. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested in their salary deferrals, rollover amounts, and fund earnings thereon. The Company's discretionary matching or profit sharing contributions and earnings thereon are vested in accordance with the following schedule:

Years of Service	Vested Percentage
Less than 1	0%
1	33%
2	67%
3	100%

Notes receivable from participants – A participant may borrow a minimum of $1,000 and up to 50% of their vested account, but not in excess of $50,000. Notes are secured by the balance of the participant's account. Starting in February 2012, new loans bear interest at a rate of prime plus 1%. Prior to February 2012, the interest rates for loans were fixed at reasonable rates of interest, as determined by the plan administrator. The maximum note term is five years, unless the note term qualifies as a home loan, in which case the term of the note is not to exceed ten years. The maximum note term for notes issued prior to 2009 was thirty years. Principal and interest are paid ratably through payroll deductions. As of December 31, 2013, the rates of interest on outstanding notes ranged from 4.25% to 9.25%, and had various maturities through February 2037.

Payment of benefits – Upon retirement, termination of employment, death, or disability, the Plan provides for payments to be made in a lump-sum distribution or via installment payments.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and are first used to pay plan administrative expenses, with any remaining amount used to reduce future company contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Investment valuation – The Plan's investments are stated at fair value, as determined by Fidelity Management Trust Company (Fidelity). Shares of registered investment company funds are valued at the net-asset value of shares held by the Plan at year-end.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an ordinary transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net change in fair value of investments consists of both the realized gains or losses and unrealized appreciation or depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the plan document.

Use of estimates – The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Risks and uncertainties – Investment securities are exposed to various risks, such as interest rate, market, and credit risk. It is reasonably possible that given the level of risk associated with investments securities, changes in the near term could materially affect the investment amounts reported in the financial statements.

Payments of benefits – Distributions to participants are recorded when paid.

Expenses - General plan administrative expenses may be paid out of the forfeiture account or paid by the Company. Investment management, distribution and loan transaction fees are paid by the Plan participants.

Excess contributions payable – Excess contributions payable represent amounts refunded to participants after year end to comply with regulatory contribution limitations.

Subsequent events – The Plan has evaluated events occurring between the end of the most recent fiscal year-end and July 30, 2014, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The following table represents the fair value of investments that exceed 5% of plan assets at December 31:

	2013	2012
TRP Blue Chip Growth R	$ 907,674	$ 642,677

During 2013, the Plan's investments in Registered Investment Companies (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $646,129.

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of inputs used to establish fair value are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following sets forth, by level within the fair value hierarchy, the Plan's assets at fair value at December 31:

NOTE 5 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified to the completeness and accuracy of:

- participant-directed investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012;
- net appreciation in fair value of participant-directed investments, interest income on notes receivable from participants and interest and dividend income reflected in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 6 – TAX STATUS

The Plan is a prototype standardized defined-contribution plan that has received a favorable letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the prototype plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these investments qualify as exempt party-in-interest transactions.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Lemo USA Inc 401(k) Profit Sharing Plan provides only general information. Participants should refer to the plan agreement, as amended, for a more complete description of plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering all employees of Lemo USA, Inc. (the Company), and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Lemo USA, Inc. is the plan sponsor and serves as the plan administrator. Administrative expenses are paid by the Company. Certain transaction expenses are paid by the Plan.

Eligibility – Employees are eligible to participate in the Plan on the first day of the month subsequent to their hire date. Employees are not eligible to participate if they are union employees or non resident aliens.

Contributions – Participants may elect to defer up to 90% of their compensation, subject to limitations imposed by federal tax law. The Company may elect to make discretionary matching contributions to the Plan. In addition, the Company may make profit sharing contributions at the discretion of the Board of Directors. A participant must be employed as of the last day of the plan year to be eligible for any discretionary matching or profit sharing contributions. For the year ended December 31, 2013, the Company made discretionary contributions of 50% of employee deferral contributions not to exceed 3% of compensation. For the year ended December 31, 2013, the Company did not make any profit sharing contributions.

Participant accounts – Each participant's account is credited with the participant's contribution, the employer's contribution, and allocations of plan earnings. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested in their salary deferrals, rollover amounts, and fund earnings thereon. The Company's discretionary matching or profit sharing contributions and earnings thereon are vested in accordance with the following schedule:

Years of Service	Vested Percentage
Less than 1	0%
1	33%
2	67%
3	100%

Notes receivable from participants – A participant may borrow a minimum of $1,000 and up to 50% of their vested account, but not in excess of $50,000. Notes are secured by the balance of the participant's account. Starting in February 2012, new loans bear interest at a rate of prime plus 1%. Prior to February 2012, the interest rates for loans were fixed at reasonable rates of interest, as determined by the plan administrator. The maximum note term is five years, unless the note term qualifies as a home loan, in which case the term of the note is not to exceed ten years. The maximum note term for notes issued prior to 2009 was thirty years. Principal and interest are paid ratably through payroll deductions. As of December 31, 2013, the rates of interest on outstanding notes ranged from 4.25% to 9.25%, and had various maturities through February 2037.

Payment of benefits – Upon retirement, termination of employment, death, or disability, the Plan provides for payments to be made in a lump-sum distribution or via installment payments.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and are first used to pay plan administrative expenses, with any remaining amount used to reduce future company contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Investment valuation – The Plan's investments are stated at fair value, as determined by Fidelity Management Trust Company (Fidelity). Shares of registered investment company funds are valued at the net-asset value of shares held by the Plan at year-end.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an ordinary transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net change in fair value of investments consists of both the realized gains or losses and unrealized appreciation or depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the plan document.

Use of estimates – The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Risks and uncertainties – Investment securities are exposed to various risks, such as interest rate, market, and credit risk. It is reasonably possible that given the level of risk associated with investments securities, changes in the near term could materially affect the investment amounts reported in the financial statements.

Payments of benefits – Distributions to participants are recorded when paid.

Expenses - General plan administrative expenses may be paid out of the forfeiture account or paid by the Company. Investment management, distribution and loan transaction fees are paid by the Plan participants.

Excess contributions payable – Excess contributions payable represent amounts refunded to participants after year end to comply with regulatory contribution limitations.

Subsequent events – The Plan has evaluated events occurring between the end of the most recent fiscal year-end and July 30, 2014, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The following table represents the fair value of investments that exceed 5% of plan assets at December 31:

	2013	2012
TRP Blue Chip Growth R	$ 907,674	$ 642,677
JPM Equity Index A	533,381	386,959
FA Freedom 2015 A	415,151	367,511
Fidelity Prime Fund	400,871	350,948
BLKRK Equity DIV A	377,643	less than 5%
FA Strategic Income A	377,384	335,201
FA Mid Cap II A	325,094	229,709
Perkins Mid CP Value S	310,946	229,417
Pioneer Fundemental Value A	less than 5%	306,738
FA Investor Grade Bond A	less than 5%	294,965

During 2013, the Plan's investments in Registered Investment Companies (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $646,129.

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of inputs used to establish fair value are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following sets forth, by level within the fair value hierarchy, the Plan's assets at fair value at December 31:

	2013			
	Level 1	**Level 2**	**Level 3**	**Total**

Registered investment companies (mutual funds): Shares of registered investment company funds or mutual funds are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

NOTE 5 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified to the completeness and accuracy of:

- participant-directed investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012;
- net appreciation in fair value of participant-directed investments, interest income on notes receivable from participants and interest and dividend income reflected in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 6 – TAX STATUS

The Plan is a prototype standardized defined-contribution plan that has received a favorable letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the prototype plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these investments qualify as exempt party-in-interest transactions.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
