CONITEX SONOCO INC. & SUBSIDIARIES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Conitex Sonoco Inc. & Subsidiaries 401(k) Plan (the "Plan") provides only general information. The Plan agreement contains a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan for the purpose of providing retirement benefits to employees and to encourage and assist employees in adopting a regular savings program by means of payroll deductions through a plan that qualifies under the applicable laws of the United States of America. The Plan covers substantially all employees of Conitex Sonoco Inc. (the "Company") who have three months of service and are eighteen years old or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). During 2006, the Plan was amended to include a Roth 401(k) feature. During 2010, the Plan was amended to comply with the provisions of the Economic Growth Tax Relief Reconciliation Act. During 2012, the plan was amended to meet the measurements of a Qualified Automatic Contribution Arrangement ("QACA").

Contributions

Each year, participants may elect to contribute from 1% to 25% of eligible compensation up to a maximum of \$17,000, as defined in the Plan. Effective July 1, 2011, the plan included an automatic deferral feature where 3% will automatically be withheld from each pay period. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to \$5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The plan currently offers various mutual funds and a common and collective trust fund as investment options for participants. The Company may make a discretionary matching contribution to each eligible participant to be determined each year by the Company. In order to maintain "QACA safe harbor" status, the employer will make a safe harbor matching contribution equal to 100% of employee's elective deferrals that do not exceed 1% of participants' compensation plus 50% of employee's elective deferrals between 1% and 6% of participants' compensation. The safe harbor matching contributions is subject to a vesting service as advised below.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and the Plan's earnings and losses, and charged with an allocation of administrative expenses not paid by the Company. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferrals plus actual earnings thereon. Participants are vested in the Company's matching portion of their accounts plus actual earnings thereon based on years of credited service as follows:

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

<u>Years of Vesting Service</u>	<u>Vested %</u>
Less than 1	50%
1	75%
2	100%

Investment Options

Upon enrollment in the Plan, a participant may direct their contributions to any of the 25 mutual fund investment options and one common trust offered by the Plan.

Notes Receivable from Participants

The Plan allows a participant to borrow up to 50% of his/her vested account balance. The amount borrowed may not be less than \$1,000 and shall not exceed \$50,000 reduced by the excess, if any, of the highest outstanding loan balance during the one-year period prior to the date the loan was made over the outstanding balance of such loans from the Plan on the date on which such loan was made. A participant may not obtain more than one loan in a Plan year and may not have more than two loans outstanding at one time.

These loans bear interest at an annual rate as determined by the Plan's administrator and are evidenced by a promissory note from the participant providing for repayment of principal and interest in periodic installments over a period not to exceed five years or fifteen years in the case of a residential loan. Principal and interest are paid ratably through payroll deductions, and the Plan provides for a single, lump-sum repayment at any time. At December 31, 2013, there were \$234,014 of loans outstanding, bearing interest rates ranging from 4.25% - 6.00%.

Payment of Benefits

Withdrawals and payments of benefits are paid from the vested portion of the participant's account as of the applicable valuation date. Benefits are payable upon retirement, death, or other termination. Certain in-service benefit withdrawals are permitted. If a participant's account balance is less than \$1,000 at time of termination, a mandatory distribution is made.

Forfeitures

The non-vested portion of fund assets allocated to a participant's account is forfeited upon termination of service. These forfeitures are retained by the Plan and used to reduce future employer contributions. For the years ended December 31, 2013 and 2012, \$1,289 and \$5,659 were utilized by the Company to reduce employer contributions. Unallocated forfeitures at December 31, 2013 and 2012 were \$445 and -0-, respectively.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Date of Management's Review

In preparing the financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through May 29, 2014, the date that the financial statements were available to be issued.

CONITEX SONOCO INC. & SUBSIDIARIES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting. Certain reclassifications have been made to the 2012 statement of net assets available for benefits in order for these periods to be comparable based on current presentation. Such reclassifications had no effect on the Plan's change in net assets available for benefit or net assets available for benefit.

As described in Financial Accounting Standards Board Accounting Standards Codification Topic 946, *Plan Accounting – Defined Contribution Pension Plans* ("ASC 946"), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions of the plan. As required by ASC 946, the statement of net assets available for benefits presents the fair value of the Federated Capital Preservation fund as well as an adjustment from its fair value to its contract value. The statement of changes in net assets is prepared on a contract value basis.

Uses of Estimates

The preparation of financial statements in conformity with accounting standards generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investment options in mutual funds and a common and collective trust fund. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for the Plan's benefits.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value based on each fund's net asset value as determined by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchase and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values.

CONITEX SONOCO INC. & SUBSIDIARIES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The Federated Capital Preservation Fund is valued at its fair value as determined by audited financial statements, and adjusted to its contract value. The fund is a fully benefit-responsive investment contract. See *Basis of Accounting* above and Note 8 for further discussion of fully benefit-responsive investment contracts.

The Plan presents in the statement of changes in net assets available for benefits, the net change in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments. Participants' loans receivable are valued at amortized cost, which approximates fair value.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan's document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company, to the extent not paid by the Plan, pays fees and expenses of the Plan. For the year ended December 31, 2013, the Plan paid \$3,711 of administrative expenses, and the Company paid all remaining fees and expenses.

NOTE 3 - INFORMATION CERTIFIED BY TRUSTEE

The Plan's administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, SunTrust Bank, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, the schedule of assets held at end of year, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

NOTE 4 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its matching contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants would become fully vested in their accounts.

NOTE 6 - FAIR VALUE MEASUREMENT

The Company has adopted the provisions of Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements*. This topic requires disclosure about fair value measurements in financial statements based on hierarchical levels directly related to the amount of subjectivity associated with the inputs used to determine the fair value of financial instruments. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The various inputs that may be used to determine the value of the Plan's investments are summoned in three broad levels. The inputs or methodologies for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Below is a description of the valuation methodologies used for assets measured at fair value:

Registered Investment Companies – Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Common and Collective Trust Funds – Shares of common and collective trust funds, which comprise the Federated Capital Preservation Fund, are valued at quoted prices for similar assets in active markets.

NOTE 6 - FAIR VALUE MEASUREMENT (CONTINUED)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012:

Assets Measured at Fair Value at December 31, 2013:

Total	<u>\$ 4,336,184</u>	<u>\$ 813,330</u>	<u>\$ 5,149,514</u>

Assets Measured at Fair Value at December 31, 2012:			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Total Fair Value
Registered investment companies	\$ 3,341,265		\$ 3,341,265

Total	<u>\$ 3,341,265</u>	<u>\$ 794,896</u>	<u>\$ 4,136,161</u>

NOTE 7 - TAX STATUS

The Plan is an adoption of the standardized prototype plan written by SunTrust Bank. The prototype sponsor has received a favorable determination letter dated August 26, 2002, in which the Internal Revenue Service stated that the prototype plan, as then designated, was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan's administrator and the Company believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements for the years ended December 31, 2013 and 2012. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan's investment in the Federated Capital Preservation Fund ("the Capital Preservation Fund") represents shares in a fully benefit-responsive common and collective trust. The Capital Preservation Fund invests in guaranteed investments contracts issued by insurance companies and other financial institutions and enters into other investment contracts (Synthetic investments and separate account contracts) with similar characteristics. The Capital Preservation Fund serves as the trustee, transfer agent, and custodian for the Fund and has overall management responsibility. SunTrust maintains contributions to the Fund in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to pay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, contract value is the relevant measurement of the net assets available for benefits attributable to the Plan's fully benefit-responsive investment contracts. Contract value, as reported to the Plan by SunTrust, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. As such, ASC 946 requires that the Plan's investment in the Fund be presented at fair value on the statement of net assets available for benefits as well as an adjustment representing the difference between its fair value based on prevailing market rates, to its contract value based on the weighted average crediting interest rate of the underlying investment contracts. The statement of changes in net assets is prepared on a contract value basis.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair values of the investment contracts at December 31, 2013 and 2012 were \$813,330 and \$794,896, respectively. Weighted average crediting interest rates on synthetic investment contracts are reviewed on a monthly basis for resetting, and cannot credit interest at a rate less than zero percent. Traditional guaranteed investment contracts do not reset their crediting interest rates, as they provide a fixed rate of interest over the term of the contract. The weighted average crediting interest rate is based on a formula agreed upon with the user. The Fund's weighted average crediting interest rates for Capital Preservation Fund for the years ending December 31, 2013 and 2012 were 1.17% and 2.28%, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents including partial plan termination or merger with another plan, (2) bankruptcy of the Plan's sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that could cause a significant withdrawal from the Plan, or (3) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan's administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. Guaranteed investment contracts do not permit the insurance companies to terminate the agreement prior to the scheduled maturity rate.

NOTE 8 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (CONTINUED)

Average yields earned by the Capital Preservation Fund for the years ended December 31, 2013 and 2012 were as follows:

	<u>2013</u>
Based on actual earnings	1.17%
	<u>2012</u>
Based on actual earnings	1.16%

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10- DISTRIBUTIONS OF EXCESS PARTICIPANT CONTRIBUTIONS

For purposes of complying with the participation and discrimination rules set forth in Section 401(k)(3) of the IRC, certain contributions from "highly compensated" participants are deemed to exceed allowable deferral limits and are required to be returned to the Plan. During 2012, the Company amended the plan to a "safe harbor plan" which ensures non-discrimination regulations are met and exempts the Company from non-discriminations testing.

NOTE 11- RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by SunTrust Bank, trustee, and therefore, these transactions qualify as party-in-interest. For the year ended December 31, 2013 and 2012, transactions in such funds included contributions and transfers in totaling \$-0- and \$59,670, respectively, and withdrawals and transfers out totaling \$-0- and (\$28,238), respectively. Additionally, by definition, participant loans also qualify as party-in-interest.
