KOCSIS BROS. MACHINE CO. EMPLOYEES' PROFIT SHARING & SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - Description of plan

The following description of the Kocsis Bros. Machine Co. Employees' Profit Sharing & Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Kocsis Bros. Machine Co. and Kocsis Technologies, Inc. (collectively referred to as "the Company"). Employees are immediately eligible for elective deferrals and are not subject to any age or service restrictions; however, employees must attain 21 years of age and meet certain service requirements to be eligible for the employer's matching contribution and profit sharing contribution, if any. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to make salary deferral contributions not to exceed percentage and dollar limits set by law. In addition participants may make Roth contributions. The Company will contribute a matching contribution amount equal to 25% of participants' deferrals, not to exceed $1,000. The Company may also contribute a qualified non-elective contribution, which will be non-forfeitable and subject to withdrawal restrictions. In addition, a discretionary profit sharing contribution may be made by the Company. Participants direct the investment of their contributions. The Plan currently offers mutual funds, pooled separate accounts, and a common collective trust as investment options for participants. Participants may change their investment options daily.

Participants' accounts

Each participants account is credited with the participant's contribution and allocations of (a) the Company's matching contributions and profit sharing and qualified non-elective contributions, if any, and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations of matching contributions are based on a percentage of participant contributions. Other allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeitures, if any, shall be used to offset the employer's contribution.

Vesting

Participants are immediately vested in their contributions, Company matching contributions, and any qualified non-elective contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after six years of credited service.

NOTE 1 - Description of plan (continued)

Investment options

Participants direct investments of their account balances. Contributions to the Plan and account balances are invested in 17 pooled separate accounts of an insurance company under a group annuity contract, ten mutual funds, and a common collective trust. The assets allocated to the separate accounts can include, but are not limited to, stocks (both domestic and foreign), bonds, mortgages, real estate, mutual funds, other separate accounts, and cash or cash equivalents.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.00%. Principal and interest is paid through weekly payroll deductions.

Payment of benefits

Upon termination of service, a participant's vested benefits are generally paid either as a lump sum distribution or in installment payments.

NOTE 2 - Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Valuation of investments

The Plan's investments are stated at fair value. Investments of the Plan include mutual funds, pooled separate accounts, and a common collective trust. See Note 3 for a description of the valuation methodologies used for these assets.

Plan administrative expenses

Certain administrative expenses of the Plan have been paid by the Plan sponsor.

Payment of benefits

Benefits are recorded when paid.

NOTE 3 - Fair value measurement

Fair Value Measurements Topic ASC 820 of FASB Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level II – Inputs to the valuation methodology includes:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds are valued at quoted market prices.

Pooled separate accounts (PSAs) are valued at market value less operating expenses. The market value is based on the fair value of the underlying assets of the PSAs. Fourteen of the PSAs consist of a single mutual fund and three of the PSAs consist of multiple securities. These mutual funds and securities are substantially all publicly traded securities that are valued by Principal Financial at quoted market prices.

The common collective trust investments consisted of fixed income securities, investment contracts and cash equivalents. The common collective trust is valued by Principal Financial at fair value based on various pricing methodologies.

Notes receivable from participants – Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - Fair value measurement (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total

NOTE 4 - Investment contract with insurance company

In April 2011, the Plan entered into a group annuity contract with Principal Life Insurance Company. Principal Life Insurance Company maintains the contributions in pooled separate accounts, mutual funds, and a common collective trust. These accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The accounts are included in the financial statements at fair value as reported to the plan by Principal Life Insurance Company. Fair value of the contract represents contributions made to the various accounts under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at fair value.

NOTE 5 - Investments

The following schedule presents investments as of December 31, 2013 and 2012 that represented 5 percent or greater of total net assets.

Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $517,884 and $372,733 in 2013 and 2012, as follows.

	2013	2012

Mutual Funds	(352)	10,117
Common/Collective Trust	(695)	2,074
Total Appreciation/(Depreciation) in Value	$ 517,884	$ 372,733

NOTE 6 - Tax status

Although the Plan has not requested determination from the Internal Revenue Service as to the Plan's tax-exempt status, the master prototype plan from which the Plan was drafted received a determination letter from the Internal Revenue Service dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 6 - Tax status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8 - Information prepared and certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian.

	2013	2012
Investments at fair value:		
Mutual funds	$ 241,143	$ 189,498
Pooled separate accounts	3,769,069	3,194,286

	$ 4,502,440	$ 3,685,823
Investment income	$ 525,206	$ 380,619

NOTE 9 - Related party transactions

Certain Plan investments are shares of pooled separate accounts, as well as the Principal Stable Value investment and are managed by the Principal Life Insurance Company. The Principal Life Insurance Company holds the assets and executes transactions as defined by the Plan, and, therefore, these transactions qualify as party-in-interest. Fees for investment management services were paid by the employer.

NOTE 10 - Subsequent events

The Plan's management evaluated subsequent events through June 27, 2014, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in the financial statements.
