PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
OCTOBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of The Bobrick Corporation Profit Sharing Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan's agreement for a more complete description of the Plan's provisions.

(a) General Information

The Plan is a fully participant-directed defined contribution plan designed for the benefit of the employees of The Bobrick Corporation and its subsidiaries (the "Company"). The Plan was established on November 1, 1967 and subsequently amended. The Plan consists of two components: the first component permits certain employees to defer compensation pursuant to section 401(k) of the Internal Revenue Code (the "Code"); the second component permits the Company to make an additional contribution to the Plan based on net income, as defined in accordance with the Plan, for the benefit of certain eligible employees, whether or not those employees have elected to participate in the deferred compensation component of the Plan.

The Plan is subject to the provisions of The Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by The Bobrick Corporation Profit Sharing Retirement Plan Committee (the "Committee"), which is composed of certain officers and directors of the Company. The Plan's custodian, Wells Fargo Bank, holds and administers the contributions to the Plan and invests and reinvests the Plan's assets at the direction of the participants.

(b) Eligibility

Employees are eligible to participate in the Plan upon completing 60 consecutive days of service during which they must have worked at least 320 hours of service.

(c) Employee Contributions

Each participant may defer from 2% up to 100% of their annual compensation not exceeding $17,500 for the calendar year 2013, and higher amounts as may be prescribed by the Internal Revenue Service in future years as well as catch up contributions.

Participants are allowed to change the contribution amount and to suspend or resume contributions at any time upon written notice to the Company. They may also change their investment options daily.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

(d) Employer Contributions

For each Plan year, the Company may make Safe Harbor Nonelective Employer Contributions ("Safe Harbor Contributions"). The entry date for the purpose of sharing in the Safe Harbor Contribution is the first day of each Plan year and the first day of the seventh month of each Plan year following the day the participant has completed one year (1,000 hours) of service. Under this arrangement, the Company would be required, without regard to whether the employee makes an elective contribution, to make a contribution to the Plan equal to at least 3% of the employee's compensation, which excludes compensation prior to that person's entry date as described above. The maximum compensation limit for the Safe Harbor Contributions for the Plan year ended October 31, 2013 was $255,000.

The Company made a discretionary employer ontribution of $771,483 for the Plan year ended October 31, 2013.

The Company is required to give written notice to all eligible participants of its election to make Safe Harbor Contributions before the beginning of each Plan year. Eligible participants will receive their allocation of the Safe Harbor Contribution without regard to any last day of employment or hour of service requirement that may apply to other types of contributions.

(e) Investment Income or Loss

Investment income or loss is allocated among participants based upon each participant's pro rata share of the total participant accounts.

(f) Participant Accounts

Each participant's account is credited with the participant's contribution, allocation of the Company's contribution, if applicable, and the Plan earnings, including any unrealized appreciation or depreciation on investment assets.

(g) Participant Vesting

Participants are immediately vested in their voluntary contributions and the Company's Safe Harbor Contributions, plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 20% vested after two years of credited service. Vesting increases 20% each following year until fully vested after six years.

All participants become fully vested in their nonelective employer contribution accounts when they attain normal retirement age (defined as the anniversary date following the participant's 64th birthday) or at the time of their total disability or death regardless of the number of years of service.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

(h) Payment of Benefits

Upon termination of service, participants may elect to receive their accrued benefit distribution in one of the following ways:

(1) Lump Sum

A single sum payment from the participant account.

(2) Direct Transfer

A direct transfer to an individual retirement account as described in Section 408(a) of the Code or an individual retirement annuity as described in Section 408(b) of the Code, an annuity plan as described in Section 403(a) of the Code, or another "qualified" trust as described in Section 401(a) of the Code that accepts transfers.

(3) Partial Direct Transfer

A partial direct transfer, provided that the participant elects to directly transfer at least $500 of his or her vested accrued benefits.

(i) Plan Termination

Although the Company has not expressed any intent to discontinue the Plan or its contributions thereto, the Company has the right to do so at any time subject to the Plan provisions. In the event of termination, all participation will terminate on the Plan year end following such termination and the equity of all participants will be distributed as soon as possible thereafter.

(j) Forfeitures

Forfeitures are used to reduce future employer contributions. There were forfeitures of $1,572 used to reduce employer contributions for the current Plan year.

The loans are secured by the balance of that participant's account and bear interest ranging from 4.25% to 9.5% per annum, which is commensurate with local prevailing rates. Participants may have up to two loans outstanding at any time. Principal and interest are paid ratably through payroll deductions. On October 31, 2013 and 2012, the outstanding participant loans amounted to $1,466,867 and $1,421,013, respectively.

NOTES TO FINANCIAL STATEMENTS
OCTOBER 31, 2013 AND 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with the accounting principles generally accepted in the United States of America.

(b) Administration Costs

The cost of legal, accounting and other services necessary to administer the Plan, as well as the internal cost to compile the participant data, are paid by the Company.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Loans to participants are valued at the amount of unpaid principal, which approximates fair value.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes therein. Actual results may differ from those estimates.

(f) Concentration of Credit Risk

The Plan has exposure to credit risk to the extent that its investments are subject to market fluctuations that may materially affect the value of the investment balances.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g) Payment of Benefits

Benefits are recorded when paid.

(h) Non-discrimination Testing

The Plan failed the discrimination test for the year ended October 31, 2013 due to excess employee contributions of $104,865. The Plan will reimburse these excess contributions to its participants during the year ended October 31, 2014.

(i) Date of Management's Review

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through June 30, 2014, the date the financial statements were available to be issued.

NOTE 4 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted net asset values in the active market where the funds are traded. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing prices reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

Loans to plan participants are valued at amortized cost which approximates fair value.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of October 31, 2013 and 2012:

The plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently in compliance with the applicable requirements of the IRC.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts and short term investment fund accounts managed by Wells Fargo Bank. Wells Fargo Bank is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

THE BOBRICK CORPORATION
PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
OCTOBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of The Bobrick Corporation Profit Sharing Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan's agreement for a more complete description of the Plan's provisions.

(a) General Information

The Plan is a fully participant-directed defined contribution plan designed for the benefit of the employees of The Bobrick Corporation and its subsidiaries (the "Company"). The Plan was established on November 1, 1967 and subsequently amended. The Plan consists of two components: the first component permits certain employees to defer compensation pursuant to section 401(k) of the Internal Revenue Code (the "Code"); the second component permits the Company to make an additional contribution to the Plan based on net income, as defined in accordance with the Plan, for the benefit of certain eligible employees, whether or not those employees have elected to participate in the deferred compensation component of the Plan.

The Plan is subject to the provisions of The Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by The Bobrick Corporation Profit Sharing Retirement Plan Committee (the "Committee"), which is composed of certain officers and directors of the Company. The Plan's custodian, Wells Fargo Bank, holds and administers the contributions to the Plan and invests and reinvests the Plan's assets at the direction of the participants.

(b) Eligibility

Employees are eligible to participate in the Plan upon completing 60 consecutive days of service during which they must have worked at least 320 hours of service.

(c) Employee Contributions

Each participant may defer from 2% up to 100% of their annual compensation not exceeding $17,500 for the calendar year 2013, and higher amounts as may be prescribed by the Internal Revenue Service in future years as well as catch up contributions.

Participants are allowed to change the contribution amount and to suspend or resume contributions at any time upon written notice to the Company. They may also change their investment options daily.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

(d) Employer Contributions

For each Plan year, the Company may make Safe Harbor Nonelective Employer Contributions ("Safe Harbor Contributions"). The entry date for the purpose of sharing in the Safe Harbor Contribution is the first day of each Plan year and the first day of the seventh month of each Plan year following the day the participant has completed one year (1,000 hours) of service. Under this arrangement, the Company would be required, without regard to whether the employee makes an elective contribution, to make a contribution to the Plan equal to at least 3% of the employee's compensation, which excludes compensation prior to that person's entry date as described above. The maximum compensation limit for the Safe Harbor Contributions for the Plan year ended October 31, 2013 was $255,000.

The Company made a discretionary employer ontribution of $771,483 for the Plan year ended October 31, 2013.

The Company is required to give written notice to all eligible participants of its election to make Safe Harbor Contributions before the beginning of each Plan year. Eligible participants will receive their allocation of the Safe Harbor Contribution without regard to any last day of employment or hour of service requirement that may apply to other types of contributions.

(e) Investment Income or Loss

Investment income or loss is allocated among participants based upon each participant's pro rata share of the total participant accounts.

(f) Participant Accounts

Each participant's account is credited with the participant's contribution, allocation of the Company's contribution, if applicable, and the Plan earnings, including any unrealized appreciation or depreciation on investment assets.

(g) Participant Vesting

Participants are immediately vested in their voluntary contributions and the Company's Safe Harbor Contributions, plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 20% vested after two years of credited service. Vesting increases 20% each following year until fully vested after six years.

All participants become fully vested in their nonelective employer contribution accounts when they attain normal retirement age (defined as the anniversary date following the participant's 64th birthday) or at the time of their total disability or death regardless of the number of years of service.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

(h) Payment of Benefits

Upon termination of service, participants may elect to receive their accrued benefit distribution in one of the following ways:

(1) Lump Sum

A single sum payment from the participant account.

(2) Direct Transfer

A direct transfer to an individual retirement account as described in Section 408(a) of the Code or an individual retirement annuity as described in Section 408(b) of the Code, an annuity plan as described in Section 403(a) of the Code, or another "qualified" trust as described in Section 401(a) of the Code that accepts transfers.

(3) Partial Direct Transfer

A partial direct transfer, provided that the participant elects to directly transfer at least $500 of his or her vested accrued benefits.

(i) Plan Termination

Although the Company has not expressed any intent to discontinue the Plan or its contributions thereto, the Company has the right to do so at any time subject to the Plan provisions. In the event of termination, all participation will terminate on the Plan year end following such termination and the equity of all participants will be distributed as soon as possible thereafter.

(j) Forfeitures

Forfeitures are used to reduce future employer contributions. There were forfeitures of $1,572 used to reduce employer contributions for the current Plan year.

(k) Participant Loans

Participants may borrow from their fund accounts up to $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance of that participant's account and bear interest ranging from 4.25% to 9.5% per annum, which is commensurate with local prevailing rates. Participants may have up to two loans outstanding at any time. Principal and interest are paid ratably through payroll deductions. On October 31, 2013 and 2012, the outstanding participant loans amounted to $1,466,867 and $1,421,013, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with the accounting principles generally accepted in the United States of America.

(b) Administration Costs

The cost of legal, accounting and other services necessary to administer the Plan, as well as the internal cost to compile the participant data, are paid by the Company.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Loans to participants are valued at the amount of unpaid principal, which approximates fair value.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes therein. Actual results may differ from those estimates.

(f) Concentration of Credit Risk

The Plan has exposure to credit risk to the extent that its investments are subject to market fluctuations that may materially affect the value of the investment balances.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g) Payment of Benefits

Benefits are recorded when paid.

(h) Non-discrimination Testing

The Plan failed the discrimination test for the year ended October 31, 2013 due to excess employee contributions of $104,865. The Plan will reimburse these excess contributions to its participants during the year ended October 31, 2014.

(i) Date of Management's Review

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through June 30, 2014, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

(a) Information Prepared and Certified By Custodian

The Plan's assets are invested with Wells Fargo Bank (the custodian).

The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments and the related investment gains for the years ended October 31, 2013 and 2012 as reported by the custodian are as follows:

	2013	2012

During the current year ended October 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $3,833,145 as follows:

Mutual funds	$ 2,008,095
Common/collective trusts	1,371,786
Cash equivalents and certificates of deposit	(5,388)
Corporate bonds and convertible debentures	240,890
Common stock	172,911
Convertible preferred stock	44,851
	$ 3,833,145

NOTE 4 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted net asset values in the active market where the funds are traded. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing prices reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

Loans to plan participants are valued at amortized cost which approximates fair value.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of October 31, 2013 and 2012:

		Fair Value Measurements at Reporting Date Using:

The plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently in compliance with the applicable requirements of the IRC.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts and short term investment fund accounts managed by Wells Fargo Bank. Wells Fargo Bank is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

THE BOBRICK CORPORATION
PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
OCTOBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of The Bobrick Corporation Profit Sharing Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan's agreement for a more complete description of the Plan's provisions.

(a) General Information

The Plan is a fully participant-directed defined contribution plan designed for the benefit of the employees of The Bobrick Corporation and its subsidiaries (the "Company"). The Plan was established on November 1, 1967 and subsequently amended. The Plan consists of two components: the first component permits certain employees to defer compensation pursuant to section 401(k) of the Internal Revenue Code (the "Code"); the second component permits the Company to make an additional contribution to the Plan based on net income, as defined in accordance with the Plan, for the benefit of certain eligible employees, whether or not those employees have elected to participate in the deferred compensation component of the Plan.

The Plan is subject to the provisions of The Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by The Bobrick Corporation Profit Sharing Retirement Plan Committee (the "Committee"), which is composed of certain officers and directors of the Company. The Plan's custodian, Wells Fargo Bank, holds and administers the contributions to the Plan and invests and reinvests the Plan's assets at the direction of the participants.

(b) Eligibility

Employees are eligible to participate in the Plan upon completing 60 consecutive days of service during which they must have worked at least 320 hours of service.

(c) Employee Contributions

Each participant may defer from 2% up to 100% of their annual compensation not exceeding $17,500 for the calendar year 2013, and higher amounts as may be prescribed by the Internal Revenue Service in future years as well as catch up contributions.

Participants are allowed to change the contribution amount and to suspend or resume contributions at any time upon written notice to the Company. They may also change their investment options daily.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

(d) Employer Contributions

For each Plan year, the Company may make Safe Harbor Nonelective Employer Contributions ("Safe Harbor Contributions"). The entry date for the purpose of sharing in the Safe Harbor Contribution is the first day of each Plan year and the first day of the seventh month of each Plan year following the day the participant has completed one year (1,000 hours) of service. Under this arrangement, the Company would be required, without regard to whether the employee makes an elective contribution, to make a contribution to the Plan equal to at least 3% of the employee's compensation, which excludes compensation prior to that person's entry date as described above. The maximum compensation limit for the Safe Harbor Contributions for the Plan year ended October 31, 2013 was $255,000.

The Company made a discretionary employer ontribution of $771,483 for the Plan year ended October 31, 2013.

The Company is required to give written notice to all eligible participants of its election to make Safe Harbor Contributions before the beginning of each Plan year. Eligible participants will receive their allocation of the Safe Harbor Contribution without regard to any last day of employment or hour of service requirement that may apply to other types of contributions.

(e) Investment Income or Loss

Investment income or loss is allocated among participants based upon each participant's pro rata share of the total participant accounts.

(f) Participant Accounts

Each participant's account is credited with the participant's contribution, allocation of the Company's contribution, if applicable, and the Plan earnings, including any unrealized appreciation or depreciation on investment assets.

(g) Participant Vesting

Participants are immediately vested in their voluntary contributions and the Company's Safe Harbor Contributions, plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 20% vested after two years of credited service. Vesting increases 20% each following year until fully vested after six years.

All participants become fully vested in their nonelective employer contribution accounts when they attain normal retirement age (defined as the anniversary date following the participant's 64th birthday) or at the time of their total disability or death regardless of the number of years of service.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

(h) Payment of Benefits

Upon termination of service, participants may elect to receive their accrued benefit distribution in one of the following ways:

(1) Lump Sum

A single sum payment from the participant account.

(2) Direct Transfer

A direct transfer to an individual retirement account as described in Section 408(a) of the Code or an individual retirement annuity as described in Section 408(b) of the Code, an annuity plan as described in Section 403(a) of the Code, or another "qualified" trust as described in Section 401(a) of the Code that accepts transfers.

(3) Partial Direct Transfer

A partial direct transfer, provided that the participant elects to directly transfer at least $500 of his or her vested accrued benefits.

(i) Plan Termination

Although the Company has not expressed any intent to discontinue the Plan or its contributions thereto, the Company has the right to do so at any time subject to the Plan provisions. In the event of termination, all participation will terminate on the Plan year end following such termination and the equity of all participants will be distributed as soon as possible thereafter.

(j) Forfeitures

Forfeitures are used to reduce future employer contributions. There were forfeitures of $1,572 used to reduce employer contributions for the current Plan year.

(k) Participant Loans

Participants may borrow from their fund accounts up to $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance of that participant's account and bear interest ranging from 4.25% to 9.5% per annum, which is commensurate with local prevailing rates. Participants may have up to two loans outstanding at any time. Principal and interest are paid ratably through payroll deductions. On October 31, 2013 and 2012, the outstanding participant loans amounted to $1,466,867 and $1,421,013, respectively.

The cost of legal, accounting and other services necessary to administer the Plan, as well as the internal cost to compile the participant data, are paid by the Company.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Loans to participants are valued at the amount of unpaid principal, which approximates fair value.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes therein. Actual results may differ from those estimates.

(f) Concentration of Credit Risk

The Plan has exposure to credit risk to the extent that its investments are subject to market fluctuations that may materially affect the value of the investment balances.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g) Payment of Benefits

Benefits are recorded when paid.

(h) Non-discrimination Testing

The Plan failed the discrimination test for the year ended October 31, 2013 due to excess employee contributions of $104,865. The Plan will reimburse these excess contributions to its participants during the year ended October 31, 2014.

(i) Date of Management's Review

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through June 30, 2014, the date the financial statements were available to be issued.

NOTE 4 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted net asset values in the active market where the funds are traded. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing prices reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

Loans to plan participants are valued at amortized cost which approximates fair value.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of October 31, 2013 and 2012:

The plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently in compliance with the applicable requirements of the IRC.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts and short term investment fund accounts managed by Wells Fargo Bank. Wells Fargo Bank is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.
