REPORT OF INDEPENDENT AUDITORS

To the Board of Directors
Matanuska Valley Federal Credit Union Capital Accumulation Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Matanuska Valley Federal Credit Union Capital Accumulation Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by CUNA Mutual Group, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

CAPITAL ACCUMULATION PLAN
NOTES TO FINANCIAL STATEMENTS**

Note 1 – Description of the Plan

The following description of the Matanuska Valley Federal Credit Union Capital Accumulation Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

On December 31, 2013, the Plan transferred all assets to the Credit Union Retirement Plan Association 401(k) Plan, a multiple employer plan. All participants of the Plan became participants of the Credit Union Retirement Plan Association 401(k) Plan as of December 31, 2013.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Matanuska Valley Federal Credit Union, and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Matanuska Valley Federal Credit Union (the Company) is the Plan's sponsor and its Board of Directors serves as the plan administrator.

Eligibility – All employees of the Company are eligible to participate in the Plan on the first pay period following 90 days of employment. Employees are eligible to receive employer matching contributions upon meeting the eligibility requirements for entrance into the Plan. Employees become eligible for profit sharing contributions after completion of one year of service in which 1,000 hours of service were completed.

Contributions

Participant contributions – Each year participants may elect to contribute between 2% and the maximum amount allowed of eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and profit sharing contributions – The Company may elect to make discretionary matching and profit sharing contributions to the Plan. The Company matches 25% of employee contributions for employees with less than 5 years of service and 50% for employees with 5 or more years of service, up to 10% of eligible compensation deferred to the Plan. Discretionary profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. Participants must be employed with the Company at the end of the Plan year to share in the allocation of the discretionary profit sharing contribution. There were no profit sharing contributions for the year ended December 31, 2013.

Contributions are subject to regulatory limitations.

CAPITAL ACCUMULATION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of the Plan (continued)

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions and allocations of (a) the Company's profit sharing contribution and, (b) Plan earnings, and is charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and forfeitures – Participants are always 100% vested in employee and employer contributions including earnings. There are no forfeitures in the Plan.

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's accounts. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case the loan must be repaid within a reasonable period of time not to exceed 10 years. Under the terms of the Plan Agreement, Plan loans will bear a reasonable rate of interest determined by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions. As of December 31, 2013, there were no notes receivable from participants in the Plan.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account balance, annual installments over a period of not more than the participants assumed life expectancy, partial withdrawal or the purchase of a different form of annuity. Benefit distributions can be automatically made for participants with vested account balances of \$1,000 or less. For participants with vested account balances greater than \$1,000, distributions are made after a request is received. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – Investments are stated at fair value as certified by the Plan's trustee.

MATANUSKA VALLEY FEDERAL CREDIT UNION
CAPITAL ACCUMULATION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the 'exit price') in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

As of December 31, 2012, with respect to the Deposit Administration Group Annuity Contract, the contract value approximated fair market value; therefore, there is no adjustment to contract value shown on the statements of net assets available for benefits.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income and earnings from deposit administration group annuity contract are recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Certain transaction and investment related fees are paid by the Plan and included in administration expenses.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are issued.

Note 2 – Summary of Significant Accounting Policies (continued)

The Plan has evaluated subsequent events through August 11, 2014, which is the date the financial statements were issued.

Note 3 – Investments

There were no investments in the Plan as of December 31, 2013. Investments representing 5% or more of net assets available for benefits consist of the following as of December 31, 2012:

Vanguard Total Bond Market Index Fund	\$	723,206
Vanguard Institutional Index Fund		702,057
Vanguard Extended Market Index Fund		641,282
Vanguard Target Retirement 2020 Fund		345,868
CUNA Mutual Group Lifestyle Conservative Fund		1,024,708
CUNA Mutual Group Lifestyle Moderate Fund		949,338
Deposit Administration Group Annuity Contract		464,810
CUNA Mutual Group Lifestyle Aggressive Fund		425,434

Note 4 – Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

MATANUSKA VALLEY FEDERAL CREDIT UNION
CAPITAL ACCUMULATION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 4 – Fair Value Measurements (continued)

Basis of fair value measurement –

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

Registered investment companies (mutual funds): Shares of registered investment company funds (or mutual funds) are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Collective trust: Units held in collective trusts (CT) are valued using the NAV of the CT as reported by the CT managers. The NAV is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding. The NAV of a CT is calculated based on a compilation of primarily observable market information.

The plan invested in the following significant collective trusts as of December 31, 2012:

CUNA Mutual Lifestyle Conservative Fund – This fund is designed to provide current income with modest capital growth. The fund pursues its investment objective by investing primarily in a professionally managed portfolio of mutual funds and collective investment trusts, which, in turn, invest in fixed income securities and equity securities.

MATANUSKA VALLEY FEDERAL CREDIT UNION
CAPITAL ACCUMULATION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 4 – Fair Value Measurements (continued)

CUNA Mutual Lifestyle Moderate Fund – This fund is designed to provide capital growth with modest current income. The fund pursues its investment objective by investing primarily in a professionally managed portfolio of mutual funds and collective investment trusts, which, in turn, invest in equity securities and fixed income securities.

CUNA Mutual Lifestyle Aggressive Fund – This fund is designed to provide capital growth with modest current income. The fund pursues its investment objective by investing primarily in a professionally managed portfolio of mutual funds and collective investment trusts, which, in turn, invest in equity securities and fixed income securities. This fund may invest between seventy-two percent and eighty-eight percent (72%–88%) of its portfolio in equity securities.

The following table provides additional information for the investment in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2012:

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
CUNA Mutual Collective				
Trust Investment Funds	\$ 2,513,205	None	(a) Daily	(b) N/A

(a) Withdrawals initiated by participants can be redeemed daily after written notification has been received; however, in accordance with the declaration of trust, the trustee may in its sole discretion, impose restrictions on issues and redemptions of units.

(b) Withdrawals other than benefit payments and participant transfers to non-competing options are made within one year after notification is received from the participating plan. The trustee of the fund, however, reserves the right to grant a withdrawal earlier than one year if there are sufficient cash assets to satisfy the withdrawal and it is not detrimental to the best interest of the fund.

Deposit Administration Group Annuity Contract – This investment contract with CUNA Mutual Group (CUNA) is a group annuity contract that seeks a high level of current income consistent with preservation of capital by investing in U.S. government securities. The investment is guaranteed by CUNA Mutual Insurance Society. Each contract contains a provision that the issuer will, if required, repay principal at the stated contract value for the purpose of paying benefit payments, which results in the investment being fully benefit-responsive. CUNA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value equals fair value reported on the statement of net assets available for benefits because the discount rate equals the current credited rate.

MATANUSKA VALLEY FEDERAL CREDIT UNION
CAPITAL ACCUMULATION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 4 – Fair Value Measurements (continued)

There are no reserves against the contract for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates ranged from 1.90% – 2.52% for 2013 and 2.10% - 2.52% for 2012. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a periodic basis for resetting. The number of units of the trust that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a group annuity contract is classified within Level 2 of the valuation hierarchy.

There were no investments in the Plan as of December 31, 2013. The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value as of December 31, 2012:

	Investment Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Registered investment companies				
Index accounts	\$ 2,639,271	\$ -	\$ -	\$ 2,639,271
Lifestyle accounts	512,709	-	-	512,709
Growth accounts	200,972	-	-	200,972
Collective trusts				
Lifestyle accounts	-	2,481,760	-	2,481,760
Equity accounts	-	31,445	-	31,445
Deposit administration group annuity contract	-	464,810	-	464,810
	<u>\$ 3,352,952</u>	<u>\$ 2,978,015</u>	<u>\$ -</u>	<u>\$ 6,330,967</u>

Note 5 – Tax Status

The Plan document is a prototype standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on September 15, 2010, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan was amended since the opinion letter was received, the plan administrator and tax counsel believe the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), the plan administrator evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

CAPITAL ACCUMULATION PLAN

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 7 – Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, CUNA Mutual Group, the trustee of the Plan, has certified to the completeness and accuracy of:

- Registered investment companies at fair value, collective trust, group annuity contracts at contract value, and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012.
- Net appreciation in fair value of registered investment companies and collective trusts, earnings from deposit administration group annuity contract, dividends, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2013.

Note 8 – Party-in-Interest Transactions

Plan investments include shares of registered investment company funds managed by CUNA. CUNA is the trustee as defined by the Plan and, therefore, transactions with this entity qualify as exempt party-in-interest transactions.
