NOTES TO FINANCIAL STATEMENTS

AULTMAN NORTH CANTON MEDICAL GROUP RETIREMENT PLAN

Note 1. Description of the Plan

The following brief description of Aultman North Canton Medical Group Retirement Plan (the Plan) is provided for general information only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan available to all full-time employees of Aultman North Canton Medical Group (the Company) who have one year of service. A year of service is defined as 1,000 hours or more. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan is funded by employees' elective salary deferrals (up to 50% of a participant's annual compensation but not to exceed the statutory maximum amount). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct their contributions into various investment options offered by the Plan. The Plan offers various mutual funds, a collective investment trust and money market funds as investment options for participants. Participants may change their deferral percentage and investment options at any time.

Effective January 1, 2013, the Company makes matching contributions equal to 100% of the first 3% of employee deferrals and 50% of the next 2% of employee deferrals. In addition, the Company may make discretionary profit-sharing contributions. There was no discretionary employer profit-sharing contribution for the year ended December 31, 2013. An employee may elect to have a portion of the employer contribution (made on his or her behalf) applied to the purchase of life insurance and may elect to make nondeductible employee contributions.

Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's deferrals, Company matching contributions and the Company's discretionary profit-sharing contribution (if any) and income allocable to such amounts. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS

AULTMAN NORTH CANTON MEDICAL GROUP RETIREMENT PLAN

Note 1. Description of the Plan (Continued)

Vesting

Employees are immediately 100% vested in their contributions, nondeductible employee contributions, rollover and transfer contributions, plus actual earnings thereon. As of January 1, 2013 employees are immediately 100% vested in company matching contributions. Prior to 2013, employees were subject to the following vesting schedule for company matching contributions. This vesting schedule also applies for employer profit sharing contributions for all plan years:

Years of service	Vested percentage
1	0%
2	25%
3	50%
4	75%
5	100%

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and currently bear an interest rate of 4.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon the retirement, termination, disability or death of a participant, all amounts attributable to the vested balance of a participant's account (elective salary deferrals, elective contributions by the Company, and income allocable to such amounts) become payable to the participant or beneficiary. In addition, an in-service withdrawal may be taken after age 59½. A participant is entitled to a distribution of benefits in the event of hardship as defined by the Plan.

Forfeited Accounts

At December 31, 2013 and 2012, there were no forfeited nonvested participant accounts. Forfeited balances of terminated participants' nonvested accounts will be applied to reduce the employer's matching contribution for the Plan year for which the forfeitures arise. There were no forfeitures used in 2013.

NOTES TO FINANCIAL STATEMENTS

AULTMAN NORTH CANTON MEDICAL GROUP RETIREMENT PLAN

Note 2. Significant Accounting Policies

The accompanying financial statements reflect the application of certain accounting policies described in this note.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net asset available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTES TO FINANCIAL STATEMENTS

AULTMAN NORTH CANTON MEDICAL GROUP RETIREMENT PLAN

Note 2. Significant Accounting Policies (Continued)

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses, as well as recordkeeping fees that are paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Pending Accounting Pronouncements

In October 2012, the FASB issued Accounting Standards Update 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this Update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this Update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Restatement

The statement of net assets available for benefits as of December 31, 2012 has been restated to include the adjustment from fair value to contract value for the investment in the common collective trust.

Subsequent Events

The Plan has evaluated subsequent events through July 29, 2014, the date the financial statements were available to be issued.

Note 3. Investments

All investment information including investments held as of December 31, 2013 and 2012, interest and dividend income and net appreciation in fair value of investments for the year ended December 31, 2013, included in the Plan's financial statements and supplemental schedule, was prepared by or derived from information provided by Vanguard Fiduciary Trust Company, the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the investments is complete and accurate, with the exception of the adjustment to fair value of the common collective trust, which is reported at contract value by the trustee. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investments.

The following presents investments that represent 5% or more of the Plan's net assets:

Note 4. Fair Value Measurements

FASB ASC 820 *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money Market Funds: Valued at the daily closing prices as reported by the fund. The money market funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The money market funds held by the Plan are deemed to be actively traded.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trusts: Valued based on the NAV of units of the common collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimated fair value. The NAV is based on the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Cash Surrender Value of Life Insurance: Valued by discounting the related cash flows based on current yields of similar instruments with comparable durations.

NOTES TO FINANCIAL STATEMENTS

AULTMAN NORTH CANTON MEDICAL GROUP RETIREMENT PLAN

Note 4. Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Note 4. Fair Value Measurements (Continued)

Fair Value of Investments in Entities That Use NAV

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share:

		December 31, 2013		
		Fair value	Unfunded commitment	Redemption frequency
				Redemption notice period
Investment				
Common collective trust (a)		<u>\$ 10,139,719</u>	<u>n/a</u>	Daily 30 days

		Fair value	Unfunded commitment	Redemption frequency
				Redemption notice period
Investment				
Common collective trust (a)		<u>\$ 10,744,929</u>	<u>n/a</u>	Daily 30 days

- (a) This class includes a common collective trust which seeks to provide interest and safety of principal by investment in investment contracts issued by financial institutions and in contracts that are backed by high-quality bonds and bond mutual funds. The fund's net assets consist of approximately 95% investment contracts and 5% short-term investments. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this class has been estimated using the net asset value per share of the underlying investments.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no significant transfers in or out of Levels 1, 2 or 3.

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

Unrealized gains (losses) relating to instruments still held at the reporting date	68,142

Balance, end of year	<u><u>\$ 1,256,955</u></u>

Note 5. Related-Party Transactions

Certain Plan investments are shares of a mutual fund managed by an affiliate of Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their entire accounts.

Note 7. Tax Status

The Plan adopted a non-standardized form of a prototype sponsored by Vanguard Fiduciary Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the Plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTES TO FINANCIAL STATEMENTS

AULTMAN NORTH CANTON MEDICAL GROUP RETIREMENT PLAN

Note 7. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination, including the resolution of appeals or litigation processes, if any. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the statements of net assets available for benefits to the Form 5500 for the years ended December 31:
