Report on the Financial Statements
We were engaged to audit the accompanying financial statements of MJB Wood Group, Inc. 401(k) Plan (the Plan), which comprise the statement of net assets available for benefits as of October 31, 2013, and the related statement of changes in net assets available for benefits for the year ended October 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by State Street Bank and Trust Company, the trustee of the Plan, and Massachusetts Mutual Life Insurance company (Mass Mutual), the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee and the custodian hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the trustee and custodian as of October 31, 2013, and for the year ended October 31, 2013, that the information provided to the Plan Administrator by the trustee and custodian is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental schedule, Schedule H, Line 4i- Schedule of Assets (Held at End of Year) as of October 31, 2013, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee and the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of MJB Wood Group, Inc. (the Company) and its participating employers which include Blue Marble Designs Holdings, LLC, Blue Marble Designs, LLC, and MJB Supply, LLC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan was established on November 1, 1998.

Eligibility: All employees of the company who have three months of service and are 21 years of age or older, except employees of certain affiliated employers covered by other plans. An eligible employee may enter the Plan on the next open enrollment date after the eligibility requirements are met. Open enrollment occurs on the first day of November, February, May, and August.

Contributions: Participants may contribute up to the maximum allowable percentage of their pre-tax compensation subject to limits imposed by the Internal Revenue Code (IRC). Participants who are at least 50 years of age by the end of the calendar year are allowed to make a catch-up contribution for that year, subject to limits imposed by the IRC. The Company makes discretionary matching contributions as determined by the Company's Board of Directors. For the year ended December 31, 2013, the Company contributed a matching contribution in the amount of $189,051 of which $2,316 was allocated from forfeitures.

Effective November 1, 2012 the plan was amended to remove the Automatic Deferral Feature which previously allowed for participants to be automatically enrolled at 3% of gross wages upon meeting eligibility requirements.

Investment options: Upon enrollment, participants may direct contributions among the investment options provided by the Plan. Participants may change their investment options any time throughout the year.

Participant accounts: Accounts are separately maintained for each participant. Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which each participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and forfeiture provisions: Participants are immediately vested in their voluntary contributions plus investment earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 20% vested after one year of credited service, 20% for each additional year, and is fully vested after five years. A participant is 100% vested, regardless of years of service, upon disability, death or attaining normal retirement age. Any employer matching or discretionary contribution amounts not vested at withdrawal or termination is forfeited. Forfeitures are used to plan expenses with the remainder to be allocated among participant accounts. Plan assets included unallocated forfeitures of $3,078 at October 31, 2013.

Notes receivable from participants: Participants may borrow a minimum of $1,000 up to the lesser of $50,000 or 50% of the current vested value of their account. Loans must be repaid, including interest at a fixed rate as determined at the time of issuance, over a period not exceeding five years except for the purpose of acquiring a principal residence. Interest rates are commensurate with local prevailing rates as determined by the Plan Administrator. The loans are secured by the balance in the participant's account and repayments, including interest, are paid ratably through monthly payroll deductions. Participant loans have various maturity dates through August 2018 with varying interest rates ranging from 4.25 percent to 8.50 percent at October 31, 2013. A participant may have up to one outstanding note at a time.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in supplemental Schedule H, Line 4i – Schedule of Assets (held at year end).

Payments of benefits: Following attainment of the normal retirement age of 65, or upon termination of service due to death, disability, or other reasons, a participant or designated beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan also allows participants to make hardship withdrawals, subject to certain limitation, as defined.

The threshold for mandatory distributions is account balances greater than $1,000. If a participant's non-forfeitable accrued benefit does not exceed $1,000, then settlement occurs as a lump sum payment made within 60 days after the October 31 following termination of employment. If a participant's non-forfeitable accrued benefit exceeds $1,000, then the participant has the option to elect the method used to distribute their benefits. The participant or beneficiary may elect distribution under one, or any combination, of the following methods:

(a) by payment in a lump sum; or
(b) by payment in monthly, annual or a series of installments over a fixed reasonable period of time, not exceeding the life expectancy of the participant, or the joint life and last survivor expectancy of the participant and his or her beneficiary.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through common collective trust. The statements of net assets available for benefits present the fair value of the investment in the common collective investment trust. The statement of changes in net assets available for benefits is prepared on a contract value basis. As of October 31, 2013, contract value approximates fair value.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as an asset on the statement of net assets available for benefits, and continue to accrue interest until they are considered to be in default. Loans are considered to be in default and cancelled according to the terms of the loan policy. Loans in default are classified as distribution on the statement of changes in net assets available for benefits.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company.

Recent accounting pronouncements: In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the ASC, including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through July 31, 2014, the date the financial statements were available to be issued. On May 1, 2014 the plan discontinued the Wells Fargo Stable Value Fund investment option which was replaced by a Mass Mutual Guaranteed Interest Account.

Note 3. Information Certified and Provided by State Street Bank and Trust Company and Massachusetts Mutual Life Insurance Company

The following is a summary of the Plan's asset and income information as of October 31, 2013, and for the year ended October 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by State Street Bank and Trust Company, the trustee, and Massachusetts Mutual Life Insurance Company (Mass Mutual), the custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee and custodian that information provided to the Plan Administrator by the trustee and custodian related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

The following information has been certified by the State Street Bank and Trust Company:

Mutual Funds	$ 5,675,031
Notes receivable from participants	$ 170,876

The following investment has been certified by the Massachusetts Mutual Life Insurance Company:

Common Collective Trust	$ 628,639

The trustee and custodian also certified to the completeness and accuracy of $727,153 of net appreciation in fair value of mutual funds, $147,477 of dividends related to common collective trusts, $7,861 of interest related to notes receivable from participants, and $6,490 of net appreciation in fair value of common collective trust.

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurement and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2013.

Mutual funds: Valued based on quoted market prices in the active markets in which they are traded.

Common collective trust: Valued based on the net asset value ("NAV") of units of the collective investment trust. The NAV, as provided by the custodian, is used as the practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of October 31, 2013. The following table presents separately those investment that represent 5% or more of plan assets:

*Represents 5% or more of the Plan's net assets

The following table below sets forth the fair value of investments in certain entities that calculate net asset value per share (or its equivalent) as of October 31, 2013:

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Wells Fargo Stable Return fund (a)	$ 628,639	$ -	Daily	12 months

(a) As of October 31, 2013, the Plan has invested in the Wells Fargo Stable Return fund, which is a common collective trust fund. The fund has invested all of its assets in the Wells Fargo Stable Return Fund G ("Fund G"), a collective trust fund managed and trusteed by Wells Fargo Bank, N.A. ("Wells Fargo") as advised by Galliard Capital Management, Inc., a wholly owned subsidiary of Wells Fargo. An investment in the fund results in the issuance of a given number of participation interests ("units") in the fund. Fund G invests primarily in guaranteed investment contracts and synthetic investment contracts with insurance companies and other financial institutions. The asset value of the fund is classified within level 2 of the fair value hierarchy because the unit price is quoted on a private market that is not active; however, the input price is based on the underlying investments which are traded on active markets.

The objective of the fund is to seek safety of principal and consistency of returns while attempting to maintain minimal volatility. Any Plan sponsor or Plan fiduciary initiated withdrawals from the Fund will require a twelve month written notice of intent to withdraw assets from the Fund. At the discretion of Wells Fargo, the notification periods identified for withdrawals may be waived. Redemptions or exchanges of fund shares may be delayed or suspended for up to twelve months, or even longer if Wells Fargo obtains an exempted order or other appropriate relief from the Comptroller of the Currency.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended October 31, 2013, there were no transfers in or out of Level 3.

Note 5. Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary to the Plan or party rendering services to the Plan, the employer and certain others. As such, transactions conducted with the Company, State Street Bank and Trust Company (trustee) and Massachusetts Mutual Life Insurance Company (custodian) qualify as party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts and net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 7. Income Tax Status

The Plan adopted a volume submitter plan, which received a favorable notification letter from the Internal Revenue Service dated March 31, 2008 in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Note 8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
