MORROW MEADOWS CORPORATION
401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS
OCTOBER 31, 2013

NOTE 1 – Description of the Plan

The following description provides only general information of the Morrow Meadows Corporation (the Company) 401(k) Plan (the Plan). Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which covers substantially all full-time employees of the Company who have at least three months of service and are age twenty or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for oversight of the Plan. The 401(k) Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the trustee of the Plan who reports to the Board of Directors.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained the age of fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers numerous mutual funds and a common/collective trust as investment options for participants. The Company will contribute an amount of matching contributions to the Plan as determined by the Company at its discretion. An additional profit-sharing contribution may also be contributed by the Company at its discretion. The Advisory Committee will allocate the profit-sharing contributions on the basis of the participant's eligible compensation, as defined by the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings/losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – Description of the Plan (Continued)

Vesting

Participants are immediately vested in their voluntary contributions, plus actual earnings/losses thereon. Vesting in the Company's contributions is twenty percent after two years and twenty percent per year thereafter. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25%, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a specified period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Withdrawals by participant from their accounts are permitted in accordance with the Plan's provisions.

Forfeited Accounts

At October 31, 2013 and 2012, forfeited nonvested accounts totaled $62,217 and $85,890, respectively. These accounts will be used to pay administrative expenses or to reduce future Company contributions. In 2013, $59,326 of forfeitures were used to fund employer contributions.

NOTE 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract-value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 – Summary of Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of October 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value investments.

Subsequent Events

The Plan has evaluated subsequent events through August 13, 2014, the date the financial statements were available to be issued.

NOTE 3 – Investments

The following presents investments that represent five percent or more of the Plan's net assets:

	October 31, 2013	October 31, 2012
Mutual Funds		
American Funds Capital World Growth & Income Fund	$ 3,413,889	$ 2,528,866
Putnam Multi Cap Growth Fund	$ 2,054,816	$ 1,597,109
Putnam Equity Income Fund	$ 3,535,143	$ 2,021,788
American Funds Capital Income Builders Fund R3	$ 2,469,741	$ 2,066,471
American Funds AMCAP Fund Class R3	$ 2,556,569	$ 1,820,023
Common/Collective Trust		
Putnam Stable Value Fund	$ 10,568,669	$ 11,516,454

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $4,221,502 as follows:

Mutual funds	$ 4,057,160
Common/collective trust	164,342
	$ 4,221,502

NOTE 4 – Information Prepared and Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Putnam Fiduciary Trust Company, the trustee of the Plan, has certified the following data included in the accompanying financial statements and supplemental schedule, is complete and accurate with respect to investments and notes receivable from participants:

- Investments at fair value and contract value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Interest and dividends
- Schedule of assets held at the end of the year

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 5 – Fair Value Measurements (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Net Asset Values (NAV) are obtained directly from the fund or a second pricing source, such as Interactive Data Corporation (IDC). The mutual funds held by the plan are deemed to be actively traded.

Common/Collective trust fund: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. Participant transactions (purchases and sales) may occur daily.

NOTE 5 – Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2013 and 2012:

NOTE 6 – Fully Benefit-Responsive Investment Contracts

At October 31, 2013 and 2012, the Plan invested in the Putnam Stable Value Fund, a fully benefit-responsive investment contract. This fund maintains its contributions in a common/collective trust. The investment contracts are included in the financial statements at fair value; however, since this contract is fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present this investment at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily withdraw or transfer all or a portion of their investment in these funds at contract value.

The fair value of the Putnam Stable Value Fund at October 31, 2013 and 2012, was $10,568,669 and $11,516,454, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than zero.

The average yields earned by the guaranteed investment contract are as follows:

Average yields:	2013	2012
Based on actual earnings	1.94%	2.36%
Based on interest rate credited to participants	1.86%	2.02%

NOTE 7 – Related-Party Transactions and Party-In-Interest Transactions

Certain plan investments are shares of mutual funds and a common/collective trust managed by Putnam Fiduciary Trust Company. Putnam Fiduciary Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

NOTE 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time or to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 9 – Tax Status

The Company utilizes a Prototype Non-Standardized Profit Sharing Plan, which obtained a favorable opinion letter from the Internal Revenue Service dated March 31, 2008. Although the Plan has been amended since adopting the Prototype Non-Standardized Profit Sharing Plan, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

NOTE 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 11 – Reconciliation of Financial Statements to the Form 5500
