SHILOH INDUSTRIES, INC.
401(k) PLAN FOR SALARIED AND NON-UNION EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
October 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Shiloh Industries, Inc. 401(k) Plan for Salaried and Non-Union Employees (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all non-union employees, who are age 18 or older, of Shiloh Industries, Inc. (the "Company") and its domestic subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Unless a different percentage is selected, new participants are automatically enrolled to defer 3% of compensation and the automatic elective deferral contribution shall be automatically increased each February 1 by 1%, up to a maximum automatic elective deferral contribution of 8%. Participants may also contribute amounts representing distributions from other qualified plans. Eligible participants may make additional "catch-up" contributions to the Plan. The Company shall make matching contributions in an amount equal to 100% of elective deferral contributions up to 3% of compensation, plus 50% of elective deferral contributions in excess of 3% of compensation but do not exceed 5% of compensation. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. No such contribution was made for the plan year ended October 31, 2013. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings (net of administrative expenses) and charged with his or her withdrawals. Allocations are based on participant contributions, earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Participants are vested in Company contributions made prior to November 1, 2007 after five years of service. Participants are immediately vested in all Company contributions made after November 1, 2007. Participants are entitled to 100% of their vested account balance upon retirement, death or disability.

Investment Options: Participants direct the investment of contributions into their accounts into the various investment options offered under the Plan. The Company common stock held by the Plan is not an option as it is closed to new contributions and transfers in.

Payment of Benefits: On termination of service, participants are entitled to receive the value of the vested interest in their accounts. On termination of service due to death, disability or retirement, participants may elect to receive a lump-sum amount, annual installments or various annuity options. For terminations of service due to other reasons, participants will receive their benefit as a lump-sum distribution. Participants may also receive a distribution for reasons of proven financial hardship, up to the amount the employee has deferred (excluding earnings thereon) under the Plan.

Forfeitures: Forfeited balances of terminated participants' nonvested accounts may be used to pay administrative expenses and reduce the Company's contributions to the Plan.

Notes Receivable from Participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account. The interest rate for the loan is computed at the "prime rate" as published in the Wall Street Journal as of the date the loan is made, plus one percent. Principal and interest are paid through payroll deductions.

NOTES TO FINANCIAL STATEMENTS
October 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Administrative Expenses: Certain costs incurred in the administration of the Plan have been paid by the Company. Investment management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Plan Transfer: During the year ended October 31, 2013, hourly employees who became salary employees had their account balances transferred from the Shiloh Industries, Inc. Hourly Union Employees 401(k) Incentive Savings Plan to the Plan. The transfer-in amount totaled \$88,061.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold during the year.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits.

Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in a fully benefit-responsive contract, through its investment in a stable value fund. No adjustments from fair value to contract value is presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan provides for various investment options. Investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to change in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Benefit Payments: Benefits are recorded when paid.

NOTE 3 - RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 4 - UNAUDITED INFORMATION - INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan. NOTE 5 – FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds and Company Common Stock: The fair values of mutual fund investments and Shiloh Industries, Inc. common stock are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Pooled Separate Accounts: The fair values of participation units held in pooled separate accounts are based on their net asset values, as reported by the managers of the pooled separate accounts as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (level 2 inputs). Each of the pooled separate accounts invests in a single, open-ended mutual fund with the exception of the Principal Mid Cap Growth Separate Account (classified as "Mid Cap Growth U.S. Equity"), Principal Mid Cap S&P 400 Index Separate Account (classified as "Mid Cap Blend U.S. Equity"), and the Principal Large Cap S&P 500 Index Separate Account (classified as "Large Blend U.S. Equity"). The Mid Cap Growth U.S. Equity class primarily invests in common stocks of medium capitalization companies with strong earnings growth potential. The Mid Cap Blend U.S. Equity and Large Blend U.S. Equity classes normally invest the majority of assets in common stocks of companies that comprise the S&P 400 and 500 indexes, as management seeks a very close correlation between their performance before expenses and that of the S&P 400 Index and the S&P 500 Index. The investment strategies are consistent with the classes of investment presented in the following fair value table for each of the pooled separate accounts that invests in a single, open-ended mutual fund. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

NOTES TO FINANCIAL STATEMENTS
October 31, 2013 and 2012

NOTE 5 – FAIR VALUE MEASUREMENTS (Continued)

Collective Trust-Stable Value Fund: The fair value of participation units in the stable value collective trust are based upon the net asset value of such fund, reflecting all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported by the manager of the fund (level 2 inputs). The fund invests in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions, with the objective of providing preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. Withdrawals from the fund for benefit payments and participant transfers to noncompeting options to be paid to plan participants shall be made within 30 days after written notification has been received and are considered as made immediately after the next valuation date subsequent to the fund's trustee approval. Withdrawals, other than for benefit payments and participant transfers to noncompeting options, are made one year after notification is received from the participating plan. The trustee of the fund, however, reserves the right to grant a withdrawal earlier than that mentioned above if there are sufficient cash assets to satisfy the withdrawal and it is not detrimental to the best interest of the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. At October 31, 2013 and 2012, the Plan held investments in pooled separate accounts managed by Principal Life Insurance Company totaling \$31,993,225 and \$26,124,979, respectively. In addition the Plan held an investment in a stable value fund at October 31, 2013 and 2012 of \$8,677,149 and \$9,297,462, respectively. Principal Life Insurance Company is an affiliate of the Delaware Charter Guarantee and Trust Company, the trustee of the Plan; therefore, these qualify as party-in-interest investments. The Plan also holds investments in the common stock of the Company totaling \$302,002 and \$219,465 at October 31, 2013 and 2012, respectively, which qualify as party-in-interest investments. The Plan has party-in-interest transactions in the form of participant loans at October 31, 2013 and 2012 of \$1,558,883 and \$1,352,882, respectively.

During 2013, the Plan paid fees to Principal Life Insurance Company of \$17,966 which qualifies as a party-in-interest transaction. During 2013, \$4,735 of dividends was received from the Shiloh Industries, Inc. Common Stock.

October 31, 2013 and 2012

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 30, 2012 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date..

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Department of Labor or Internal Revenue Service, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8 - TERMINATED PARTICIPANTS

Included in net assets available for benefits are amounts allocated to individuals who have elected to withdraw from the Plan, but who have not yet been paid. Plan assets allocated to these participants were \$24,226 and \$2,500 at October 31, 2013 and 2012, respectively.
