Their report, dated October 1, 2013, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the custodian, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

COLORVISION EMPLOYEES' SAVINGS & RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

1 Description of Plan

The following description of the Colorvision Employees' Savings & Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Colorvision International, Inc. (the "Company") who are age twenty one or older and have completed nine consecutive months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan's trustee is responsible for oversight of the Plan. The Plan's trustee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. The maximum is set by law and was $17,500 for 2013. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company is not required to make a matching contribution or a non-elective contribution to the Plan, but may elect to do so. The Company elected to contribute 25% of the first 6% of base compensation that a participant contributes to the Plan. During the year ended December 31, 2013 the Company elected to make a $28,068 contribution to the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions, as well as Plan earnings. Allocations are based on participant contributions, earnings, or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The participant vests in employer contributions as follows:

Years of Service	Vested %
Less than 1 year	0
At least 1 year, but less than 2	10
At least 2 years, but less than 3	20
At least 3 years, but less than 4	40
At least 4 years, but less than 5	60
At least 5 years, but less than 6	80
Six years or more	100

A participant will also be 100% vested under any of the following circumstances:

- Death before retirement date.
- Attainment of normal retirement age.

In addition, a participant is immediately 100% vested in any amount which has been transferred or rolled over into the Plan from another qualified employee benefit plan.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms may not exceed five years, unless used to acquire the principal residence of the participant. The loans are secured by the balance in the participant's account and bear interest at a rate of 1% over Prime Rate published in the Wall Street Journal on the first business day of the month the loan is originated, as defined. Principal and interest is paid ratably through weekly payroll deductions. A maximum of two loans may be outstanding at a time.

Payment of Benefits

On termination of service due to death or retirement, if the vested amount is greater than $5,000, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, Ad-Hoc distributions, or defer receiving payments until age 70 1/2. For vested amounts less than $5,000, the Plan will distribute the balance to the participant in a single lump sum distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution or have the payment paid as a "direct rollover" to an individual retirement account ("IRA").

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $790 and $1,370, respectively. These accounts will be used to reduce future employer contributions or to pay administrative expenses for the Plan year in which the forfeiture occurs.

2 Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2013.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through August 1, 2014, which is the date the financial statements were available to be issued.

3 Investments

The following presents investments that represent 5% or more of the Plan's net assets as of December 31:

	2013	2012
Great-West Aggressive Profile II Fund I	$ 505,383	$ 378,985
Great-West T Rowe Price Midcap GR Fund I	212,174	132,995
Great-West S&P 500 Index Fund I	189,513	Not over 5%
Lord Abbett Value Opportunities A	145,619	104,556
Oppenheimer Global A	121,375	88,674
American Funds Growth Fund of Amer R3	Not over 5%	177,136

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

a) Quoted prices for similar assets or liabilities in active markets;
b) Quoted prices for identical or similar assets or liabilities in inactive markets;
c) Inputs other than quoted prices that are observable for the asset or liability;
d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2013 and 2012.

Pooled separate accounts: Pooled separate accounts are stated at fair value as determined by observable Level 1 quoted pricing inputs or by quoted prices for similar assets in active or non-active markets. While some pooled separate accounts may have publicly quoted pricing inputs (Level 1), the account values of separate accounts are not publicly quoted and are therefore classified as Level 2 investments.

Guaranteed investment contract: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Balanced funds	$ -	$ 568,514	$ -	$ 568,514
International equity	-	174,000	-	174,000
Small cap equity	-	219,212	-	219,212
Mid cap equity	-	464,055	-	464,055
Large cap equity	-	690,045	-	690,045

Guaranteed investment contract	-	60,451	-	60,451
Total	$ -	$ 2,269,712	$ -	$ 2,269,712

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Balanced funds	$ -	$ 427,821	$ -	$ 427,821
International equity	-	253,869	-	253,869
Small cap equity	-	145,304	-	145,304
Mid cap equity	-	317,437		317,437
Large cap equity	-	422,412	-	422,412
Bond funds	-	80,167	-	80,167
Guaranteed investment contract	-	53,453		53,453
Total	$ -	$ 1,700,463	$ -	$ 1,700,463

5 Investment Contract

The Plan has an investment contract with Great-West Life & Annuity Insurance Company ("Custodian") that is not fully benefit responsive. The Custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract is not fully benefit-responsive; therefore, investments are required to be reported at fair

value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value less a transaction fee. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

6 Party In Interest Transactions

Certain plan investments are shares of mutual funds or fixed annuities managed by the Plan custodian; therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

8 Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9 Risks and Uncertainties

The Plan's participants invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10 Certified Investments

The investments and notes receivable from participants included in the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related investment income and interest income on notes receivable from participants included in the statement of changes in net assets available for benefits for the year ended December 31, 2013, as well as the information in Note 3 and the supplemental schedule, have been derived from information certified as complete and accurate by the Plan custodian.

11 Reconciliation of Financial Statements to Federal Form 5500
