M&Q PLASTIC PRODUCTS 401(k) PLAN

Notes to Financial Statements December 31, 2013 and 2012

(1) Description of Plan

The following description of the M&Q Plastic Products 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all eligible nonunion employees of M&Q Plastic Products (the Company) who have completed 90 days of service, are 21 years of age or older, and are not covered by a collective bargaining agreement. Prior to January 1, 2013, the service requirement for participation in the Plan was one year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan Administrator is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

An eligible employee may elect to have pre-tax salary reduced by an amount not to exceed 60% of basic earnings, and have these amounts contributed to the participant's account in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. In no event shall contributions to the Plan exceed the amount permitted by federal law. Effective January 1, 2013, contributions to the Plan by the Company are made on a matched basis at a rate of 50% of the employee's deferred contribution up to the first 6% of the employee's earnings. Prior to January 1, 2013, the Company match was 50% of the employee's deferred contribution up to the first 3% of the employee's earnings.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

M&Q PLASTIC PRODUCTS 401(k) PLAN

Notes to Financial Statements December 31, 2013 and 2012

(1) Description of Plan, Continued

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum amount of \$1,000 and a maximum equal to the lesser of one-half of a participant's vested account balance or \$50,000. The loans are collateralized by participants' vested balances and bear interest at a rate of 4.13%, which is commensurate with local prevailing rates at December 31, 2013. Loan terms are for a period not to exceed five years or up to ten years for the purchase of a primary residence. Principal and interest are paid ratably through weekly payroll deductions.

Vesting

Employees are always 100% vested in the pre-tax or rollover amounts that they have contributed to the Plan, as well as in any earnings thereon. Employer contributions and earnings thereon vest according to the following schedule:

Years of Service	Percentage Vesting
Less than one	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Payment of Benefits

Upon termination, a participant will receive a distribution of his or her vested account balance or may leave his or her account with the Plan if the account balance is greater than \$5,000. Several choices are available for retirement benefit distributions, including but not limited to joint and survivor annuity, single life annuity, and lump-sum distribution. Upon the death of a participant, the total value of the related account will be distributed to the designated beneficiary. The Plan also provides for withdrawals for financial hardship.

Forfeitures

Forfeitures are retained in the Plan and are used to reduce future employer contributions or to pay plan expenses. Forfeiture balances are \$517 and \$4,950 at December 31, 2013 and 2012, respectively. For the year ended December 31, 2013, administrative fees totaling \$4,851 were paid from the forfeiture account. No forfeiture balances were used during 2012.

Notes to Financial Statements December 31, 2013 and 2012

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants subsequent to each respective plan year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments. Total administrative expenses paid by the Company were approximately \$7,500 and \$7,300 for 2013 and 2012, respectively.

Subsequent Events

The Plan has evaluated subsequent events through July 23, 2014, the date the financial statements were available to be issued.

(3) Investments Certified by the Trustee

The plan administrator chose the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Fidelity Management Trust Company (Fidelity), the trustee, has certified to the completeness and accuracy of the following information which was relied upon in the preparation of the financial statements and supplemental schedule. Investments that represent 5% or more of the Plan's assets are separately identified. The following table represents the fair value of investments and notes receivable from participants, certified by the trustee, at December 31:

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(4) Fair Value Measurements, Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Shares of registered investment companies and money market fund: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Description	Assets at Fair Value as of December 31, 2013			
	Total	Level 1	Level 2	Level 3

There were no significant transfers among investment levels during the years ended December 31, 2013 and 2012.

(5) Related Party Transactions and Party-In-Interest Transactions

The Plan invests in shares of registered investment companies and a money market fund managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment.

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their account balances.

(7) Tax Status

The Plan is a volume submitter plan sponsored by Fidelity Management and Research Co. The IRS has determined and informed Fidelity Management and Research Co. by a letter dated March 31, 2008, that the volume submitter plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
