1. Description of the Plan

The following description of the Southwest Texas Equipment Distributors, Inc. Profit Sharing Plan (the Plan) provides only general information. Therefore, participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan available to all eligible full-time employees of Southwest Texas Equipment Distributors, Inc. dba Mission Restaurant Supply (the Company or Employer). The Plan is designed to comply with the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC). The Plan is administered by the Company and the recordkeeper, the Standard Insurance Company, and the assets of the Plan are held by Reliance Trust Company (the Trustee).

Eligibility

All employees of the Company who are 21 years of age and have completed 3 consecutive months of service, or one year of service, if earlier, are eligible to participate in the Plan.

Employee contributions

Participants may elect to contribute up to 100% of their annual compensation, subject to IRS limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

Employer contributions

The Company makes matching contributions of 100% of the amount of the participant's elective deferrals up to 3% of the participant's compensation, plus an additional 50% of the participant's next 2% of elective deferrals. The Company may also make a discretionary profit sharing contribution to the Plan. The Company did not make a discretionary profit sharing contribution for the year ended December 31, 2013.

Participant accounts

Each participant's account is credited with the participant's contributions, Employer's contributions and earnings or losses, and may be charged with certain administrative expenses. Plan earnings or losses are applied to a participant's account balance based on the investment experience of the funds held and the number of shares owned in each fund by the participant.

1. Description of the Plan (Continued)

Vesting

Participants are immediately vested in their contributions and Safe Harbor contributions and actual earnings or losses thereon. Participants vest in the Company's discretionary profit sharing contributions plus actual earnings or losses thereon, based on years of continuous service as follows:

Years of Service	Percent Vested
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Upon retirement, death or disability, the participant becomes 100% vested in Company profit sharing contributions.

Payment of benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Upon death, disability, or retirement, a participant may elect to receive a lump-sum amount, a direct rollover to an eligible retirement plan, installments over a specified period of time, or a combination of a lump-sum cash payment and a direct rollover to an eligible retirement plan. Upon termination of employment a participant may elect a lump sum distribution or rollover to an eligible retirement plan.

Forfeitures

Forfeitures of nonvested account balances may be used to pay administrative expenses and to reduce Employer contributions. There was no balance in the unallocated forfeited accounts as of December 31, 2013.

Participant loans receivable

Participants may borrow from their accounts a minimum of $1,000 up to the lesser of $50,000 or 50% of their vested account balance. Participants may have only one loan outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at a rate set by the plan administrator, currently at 5.25%. Any loan must be repaid within five years unless otherwise approved. Principal and interest are paid ratably through payroll deductions. Participant loans receivable are stated at the unpaid principal balance, plus accrued interest. No allowance is recorded as the loans are secured by the participant's account balance.

2. Summary of Significant Accounting Policies

Investment options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a menu of mutual fund options for investment.

Basis of accounting

The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the fair value of investments.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan sponsor determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (Continued)

Payment of benefits

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Administrative expenses

Administrative expenses are generally paid by the Employer. However, the Plan may pay transaction fees which are allocated to the specific participants initiating the transactions.

3. Fair Value Measurements

US GAAP establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Fair value estimates are made at a specific point in time and the methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair value. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Plan investments are held in mutual funds. Fair value is measured at the net asset value of shares held by the Plan at December 31, 2013 and 2012, as quoted on nationally recognized exchanges at the market close. There have been no changes in the methodologies used to measure fair value at December 31, 2013 or 2012.

3. Fair Value Measurements (Continued)

The following tables present the Plan's fair value hierarchy by asset class for those assets measured at fair value as of:

	Level 1	Level 2	Level 3	Fair Value Measurements at December 31, 2013 Total

5. Information Certified by the Trustee (Unaudited)

The plan administrator has elected the method of annual reporting permitted by Regulation 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Reliance Trust Company (the Trustee), except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule.

The Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31,	2013	2012
Investments, at fair value	$ 8,391,048	$ 5,507,040
Notes receivable from participants	218,700	-
	$ 8,609,748	$ 5,507,040

Year ended December 31,	2013
Investment income	
Net appreciation in fair value of investments	$ 1,037,715
Interest and dividends	190,622
Total investment income	$ 1,228,337
Interest income on participant loans receivable	$ 6,497
	$ 1,234,834

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

7. Income Tax Status

Effective March 31, 2008, the Employer amended the Plan and adopted the Volume Submitter Plan sponsored by Sungard Corbell LLC which had previously received an opinion letter from the Internal Revenue Service dated December 22, 2005, that states that the Volume Submitter Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements. Therefore, no provision for income taxes has been included in the Plan's financial statements. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by Reliance Trust Company (Custodian), and the Standard Insurance Company (Record Keeper), and their affiliates qualify as party-in-interest transactions.

9. Subsequent Events

The plan administrator evaluated events or transactions that occurred after December 31, 2013 and through August 12, 2014 the date the financial statements were available to be issued.
