Kisinger Campo & Associates Corporation Savings Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE A - DESCRIPTION OF PLAN

The following description of Kisinger Campo & Associates Corporation ("Company") Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan and trust covering employees of the Company. It was adopted on November 15, 1990 and subsequently amended. An amendment in 1999 provides for a discretionary profit sharing component. Employees must have attained age 21 and have completed three months of service in order to be eligible to participate in the Plan. These requirements are applicable for discretionary contributions, salary reduction, and matching contributions. Additionally, employees receiving discretionary contributions must be employed at December 31. An eligible employee may enter the Plan as an active member on the earliest quarterly date following eligibility. Furthermore, the Plan is subject to the Provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The financial statements of Kisinger Campo and Associates Corporation Savings Plan are the representation of management and include estimates of amounts and judgments it believes are reasonable under the circumstances.

2. Contributions

The Company makes matching contributions composed of two parts: first, at a rate of 50% of a participant's elective deferral, not to exceed 4% of participant's compensation, and second, the Company will match 100% of participant contributions between 4% and 6% of a participant's compensation. Any participant contributions in excess of 6% of a participant's compensation are not matched by the Company. The Company added a profit sharing segment to the Plan during fiscal year 1999, which allows the Company to make a discretionary contribution.

3. Participant Accounts

Each participant in the Plan has a separate account that is credited with the annual allocation of (a) the Company's contributions, (b) the employee's elective contributions, and (c) the Plan's earnings or losses.

4. Vesting

Participants vest in their Employer Contribution Account on a sliding scale based on their number of years of service.

NOTE A - DESCRIPTION OF PLAN - Continued

A participant is vested in employer matching contributions and discretionary contributions as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

One hundred percent vesting occurs, regardless of the number of years of service, when a participant reaches normal retirement age (65), meets the requirements for early retirement, dies, or becomes totally and permanently disabled.

5. Payment of Benefits

Benefit payments are made in the form of a single sum, annuity, or deferred status distribution. Upon normal retirement, death, or becoming permanently disabled; Plan participants will be entitled to 100% of their account balance. The participants will only be entitled to the vested portion of the employer contributions if employment is terminated for any reason other than those previously mentioned. Participants are entitled to 100% of the account balance of any salary reduction or voluntary contributions made on their own behalf.

6. Forfeitures

Forfeitures consist of matching contributions and are applied to reduce the Company's future matching contributions. The Plan had no forfeitures from non-vested accounts at December 31, 2013 and 2012.

7. Basis of Participant Contributions

Participants may elect to have the Company contribute to the Plan for any plan year during which they are participants, such amounts expressed in whole percentages of their compensation, that would otherwise be payable by the Company as compensation, subject to certain Internal Revenue Code limits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Plan's significant accounting policies applied in the preparation of the accompanying financial statements follows:

1. Basis of Accounting

The accounts of the Plan are maintained on the accrual basis, except for benefit payments, which are reported on the cash basis.

2. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein as well as the related disclosures. Actual results could differ from those estimates and such differences could be material.

3. Valuation of Investments and Income Recognition

Investments are carried in the guaranteed interest, registered investment companies and separate accounts at December 31, 2013 and 2012. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents the net appreciation or depreciation in the fair value of its investments in the Statements of Changes in Net Assets Available for Benefits, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Upon discontinuance of the contract with Principal Life Insurance Company, the Plan would be paid in a single sum, the market value of the general guaranteed account and the separate accounts investments as of the termination date.

4. Concentration of Credit Risk

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

5. Payment of Benefits

Benefits are recorded when paid.

6. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE C - FAIR MARKET VALUE MEASUREMENTS

The Plan's Investments are held by Principal Life Insurance Company at December 31, 2013 and 2012. Participants may borrow monies from the Plan at an amount that does not exceed the lesser of $50,000 or 50% of a participant's vested account balance.

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2013 and 2012:

Separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year end. Investments in certain restricted funds are valued at quoted market prices of the issuer and are Level 2 measurements.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end. Investments in certain restricted mutual funds are valued at quoted market prices of the issuer and are Level 1 measurements.

Guaranteed interest account: Valued at quoted market prices of similar assets on active exchanges, or Level 3 measurements.

NOTE C - FAIR MARKET VALUE MEASUREMENTS - Continued

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents financial assets measured at fair value on a recurring basis at December 31,:

NOTE E - PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right under the Plan, to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

NOTE F - PARTICIPANT'S BENEFITS

Some Plan participants have terminated employment with the Company, but had vested balances in the Plan at December 31, 2013 and 2012. These unpaid benefits approximate $1,276,000 and $977,000 at December 31, 2013 and 2012, respectively.

NOTE G - TAX STATUS

The trust established under the Plan to hold the Plan's assets is qualified, pursuant to the appropriate section of the Internal Revenue Code and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the Plan continues to qualify and to operate as designed.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service.

NOTE G - TAX STATUS - Continued

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE H - PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets are held by Principal Life Insurance Company. As the administrator of the Plan, Principal Life Insurance Company provides record keeping for the Plan. Company contributions are managed by the administrator who invests cash received, interest and dividend income and makes distributions to participants. Fees paid to Principal Life Insurance Company for investment management services amounted to $5,682 and $4,254 for the years ended December 31, 2013 and 2012, respectively. Administrative functions are also performed by officers or employees of the Company. No officer or employee receives compensation from the Plan. Expenses for the independent auditor fees were paid directly by the Company and administrative fees were paid by the Plan.

NOTE I - CERTIFICATION

Principal Life Insurance Company has certified the Plan investments, including participant loans and the related investment income and losses as being complete and accurate as of December 31, 2013 and 2012.

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the statement of net assets available for benefits.

NOTE K - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into benefit responsive investment contracts with Principal Financial Group, Inc. ("Principal") during the years ended December 31, 2013 and 2012. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

NOTE K - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY - Continued

The guaranteed investment contract is presented on the face of the Statement of Net Assets Available for Benefits at fair value, with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013, and 2012 was $307,050 and $281,495, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974, as amended. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit Principal to terminate the agreement prior to the scheduled maturity date.
